INAUGURAL ADDRESS  
BY MAYOR THOMAS S. BURGIN

Monday, January 6, 1936

*Gentlemen of the City Council, and Citizens of Quincy:*

The citizens of Quincy have entrusted to us the discharge of sacred and solemn duties in the executive and legislative branches of our municipal government. It is needless for me to remind you that a full and faithful performance of these duties is expected by our people. I do, however, express the sincere hope that we may conduct ourselves in a manner so broadminded and so well-advised as to win the commendation of all the citizens, regardless of political ties or personal preferences. The seriousness of the general conditions throughout the entire country as they exist today should be in itself of enough importance to warrant the most careful attention we are capable of giving to such problems as taxation, relief of unemployment, proper education, wise and careful spending of municipal funds, coordination of city departments, and last, but by no means least, the protection of the health, life, and property of our citizens.

As members of the legislative branch of our government, you gentlemen will assume the responsibility of appropriating all moneys to be expended by the municipality during the coming year. Serious thought and careful consideration must be given to every financial matter coming before you. While I do not believe in lowering the cost of municipal government through reducing the wages of faithful city employees, I feel that under no circumstances can we increase the heavy governmental costs already being borne by our taxpayers. In certain instances I believe it will be necessary to lower departmental appropriations from last year, offsetting emergency appropriations that are made necessary to relieve unemployment and care for those of our citizens whose very existence is dependent in a large measure upon financial aid from the city. While I look to the future with encouragement concerning unemployment, I realize full well that the problem still confronting us must be handled as effectively as possible, through our own resources and the various agencies which have been made possible through the Federal Government. We should be extremely grateful that we have in our city such a large industrial plant as the Fore River Shipbuilding Corporation, and I pause in this address to offer thanks that during the past year the construction of new naval war vessels has made possible the employment of a great many of our people who, if it were not for this program of building, would have to appeal to our municipal relief agencies. The fact that a new \$20,000,000

airplane carrier contract has come to Quincy during the past six months, encourages us greatly, as it should provide work for at least 3500 men during the next three years.

Before going into detail on certain matters I feel should be brought to your attention, it is my desire to particularly emphasize the fact that as Chief Executive of the city I stand ready to cooperate with you in every possible way. Having served almost continuously during the past ten years as a member of the City Council, I believe that your viewpoints will be understood and your wishes will be respected, so that a closer relationship may exist between the legislative and executive branches of our government. Such should be the case for the benefit of our citizens. The various department heads have been instructed by me to cooperate with you in the matter of furnishing any information you may desire which will familiarize you further with the problems presenting themselves at the various Council Meetings. Inasmuch as one of your major problems includes the finances of the city, I shall first give a brief resumé of our condition relating to indebtedness as of January 1st of this year. After the financial structure has been presented, I shall give a brief summary of the more important departments of the city and outline plans I have in mind for the coming year.

#### *BONDS, ETC.*

The bonded indebtedness of the city now stands at \$5,295,500. This includes not only the city debt for such purposes as School Buildings, streets, sewers, and the Water Department, but also the loans on tax titles. The latter I feel should be viewed in a somewhat different light from the balance of the debt, as these loans give every promise of being repaid from the redemption of tax titles. A year ago tax title loans stood at \$572,000; today they amount to only \$494,000. At the peak these loans stood at over \$600,000, and, omitting renewals, a total of \$1,347,000 has been issued since the spring of 1933. The progress that has been made in reducing them justifies my belief that they will all be retired without additional expense to the taxpayer. Omitting them, the debt would otherwise be \$4,801,500.

During 1936 scheduled debt retirements total \$883,500, to which should be added an undetermined amount for the further anticipated reduction of tax title loans. If the latter are reduced only by the same net amount that they were in 1935, debt retirements will total over \$950,000. At present there are authorized loans to be issued shortly in the amount of \$240,000 for the City Hospital, the Municipal Garage, Fire Department Equipment, and extension of the water system by the erection of a storage tank located on Cranch Hill. During the year I anticipate that our normal construction program for public works may in-

volve further borrowings amounting to \$300,000, and that provided enabling legislation is adopted by the General Court, we may find it advisable to borrow as much as \$200,000 for relief purposes, including a portion of the city's contribution towards W.P.A. projects. The addition to the debt might then be in the neighborhood of \$750,000, effecting a net reduction for the year of approximately \$200,000. A program of this character has been my definite purpose, frequently expressed, in order to bring about a reduction in the annual burden of the debt service.

Whether the General Court makes it possible to fund a portion of the relief expenditures in 1936 is of vital importance to our taxpayers. Loans of this character in 1935 amounted to \$235,000. I have every confidence that the requirements for relief in 1936 will be substantially less, but an added expenditure of this amount in 1936 to be provided solely from taxation would involve an increase in the tax rate of approximately \$1.90, which even the greatest economies possible in other directions could not be hoped to offset.

It is particularly gratifying to me to note that tax collections on December 31st were over 60% of the 1935 levy, and that this showing was better than at any time since 1931. It has also been possible to effect a reduction in the amount of tax anticipation loans carried over the end of the year, so that these now amount to \$1,725,000, as against \$1,950,000 a year ago.

## MUNICIPAL DEPARTMENT RECOMMENDATIONS

### *PUBLIC WORKS — HIGHWAY DEPARTMENT*

Few changes in the personnel of the Department have been made during the past year, and I am convinced that taken as a whole the members of the Department are capable and are giving their best efforts to serve the city honestly and efficiently. The Department is handicapped by the inadequate quarters which it is now occupying at the City Stables, but hopes to have the new Municipal Garage completed early in the coming summer, as the plans and specifications for this building have been completed, and a call for bids will be issued as soon as the approval of the proper government authorities is received.

Some office changes are contemplated in the manner of requisitions for supplies in this Department, with the view of keeping a more careful check on cost accounts and a proper distribution of charges to appropriations.

A system is being considered for a more careful record of complaints and their final disposition.

The Department's road building equipment is old and very incomplete for a City of our size, but we will ask for very little new equipment the coming year, and that principally for snow

removal purposes. A new tractor and plow are very badly needed to combat severe snowstorms, and, as teams are in the Commissioner's opinion no longer economical to operate, the purchase of sidewalk tractor plows should be seriously considered.

The Department has at present fifty-four horses and plows quartered in different sections of the City for the purpose of plowing sidewalks this winter. It has also thirty-eight truck snow plows, which is an increase of five plows over last year. Two tractor plows, which have been completely overhauled this winter, will be used at Squantum, Houghs Neck, and Germantown. For the purpose of snow removal six districts have been established in the City, with a foreman in charge of each district. He will hire and register each man employed, issue a properly numbered ticket, which will be marked with the time worked only on return of snow shovel when the man so hired is through work for the day. We believe that this method will be of great assistance to the Department in making proper payrolls.

#### *SEWER DEPARTMENT*

The City has at present a sewerage system consisting of about 155 miles of completed main sewers and laterals. All sewers constructed during 1935 were built under a P.W.A. grant or with E.R.A. and W.P.A. funds. The City in the latter cases has furnished funds to pay for stock and supervision. Few extensions are contemplated for this year, except through W.P.A. allotments.

#### *WATER DEPARTMENT*

With approximately 195 miles of water pipe, and over 17,000 water services in operation, the problems in this Department are principally maintenance.

During the past few years the water pressure during the summer months has been inadequate in many parts of the City.

The City Council of last year has appropriated \$90,000 for the erection of a standpipe of 2,000,000 gallon capacity on Cranch Hill. With the erection of this tank the coming year the water will undoubtedly be maintained at a more constant pressure, but from advices at hand the situation will not be completely remedied until such time as the Metropolitan Water Commission increases the volume of water coming into the City through their supply mains.

#### *E.R.A. AND W.P.A.*

During the greater part of the year of 1935 the National Relief was administered through an organization created under the Emergency Relief Act paid by the National Government. On December 15th the E.R.A. was abolished, and the Works Progress Administration was created under which the City is forced to assume the expense and responsibility for the administration

of all projects approved by the government. This has added to the duties of the Commissioner of Public Works and increased the expenses in this department. In 1935, under the E.R.A. and W.P.A., the National Government has expended approximately \$1,000,000 for labor in the City, while the city's contribution to stock and administration has been over \$110,000. About 150 projects for work under W.P.A. have been submitted by the City, many of which have been approved, a few completed, and others under construction. At the present time we have in operation 43 approved projects, on which about 1,000 men and 275 women are employed. There has been allotted for this work by the government \$496,147, while the City's contribution for stock and equipment will amount to approximately \$90,000.00.

The members of the Department are of the opinion that ample projects have been submitted to care for our quota of relief workers during the operation of W.P.A.

#### *WELFARE DEPARTMENT*

The demands on our Welfare Department during the past six months have not decreased as much as I would like to have seen them, due to the fact that it has been necessary to render supplementary aid in many cases where payroll checks have been delayed in being sent through by the Federal Government, and also due to the fact that in the process of changing over the Federal Government employment program from E.R.A. to W.P.A. there was a period of approximately five to six weeks when many persons previously employed were without work. The Welfare Commissioner is lending every effort to reduce the cost of his department, through changes he believes will be advantageous in the manner under which municipal aid will be granted. Many cases against recipients have already been taken to the Courts, both at Quincy and Dedham, and in every case the Department of Public Welfare has been successful in prosecuting persons obtaining welfare aid illegally. Reimbursement to the City Treasurer of more than \$1,000 has been ordered by the Courts from persons found guilty of fraudulently receiving aid. Several more cases are in progress, which I hope will rid the department of more unscrupulous people who wish to live on the city without cause. I will direct the Commissioner to give greater attention towards affecting settlements with other cities and towns, so that the city may receive reimbursement for funds paid out to persons receiving aid in Quincy with settlements elsewhere. A much closer supervision of the visitors making investigations has been made possible than ever before, and will be continued in the future. Purchases will be carefully scrutinized, continuing our efforts to establish a more uniform price paid for staple commodities. I find upon examination that the cost per case is lower

in the Welfare Department at the present time than heretofore, and I firmly believe that the city is receiving far greater value for money expended now than in the past. Several changes have already been made, such as in the handling of script, handling of time cards and rent cards, securing of a flat price for coal and oil, and compelling welfare recipients to work for aid received. The increase for work hours by recipients has been almost 100% since August 1st, and while the city appears to be paying out substantial sums of money, it is distinctly to the advantage of all citizens that those receiving aid are at least giving work in return. Conditions at the City Home are good, with almost a capacity list of residents.

I shall not go into statistics, but will be very glad, through the Welfare Commissioner, to furnish the members of the Council with any information they might desire concerning any phase of his department.

It is my sincere hope that through the following methods of employment which will be used during the coming year, we may be able to very definitely and decidedly reduce the number of people receiving aid from the city: W.P.A. projects for men and women, city street construction, sewer construction, construction of new water tank on Cranch Hill, construction of a municipal garage and new hospital building, increased employment at the Ship Yard, construction for the elimination of the grade crossing at Water Street, State sidewalk projects, and a further return to private industry.

It is my idea that every branch of private industry in the city could render valuable assistance in requesting employment for persons now on relief rolls, and also to notify the Welfare Department of any persons offered employment and refusing, so that their names could be checked to see if they were receiving welfare and declined employment for that reason. The strictest action will be taken against such cases. By a spirit of cooperation along these lines, much can be accomplished.

#### *QUINCY CITY HOSPITAL*

The manner in which this department of the city is functioning is more than gratifying, and the changes put into operation by the new Board of Managers have done much to increase the efficiency of the institution. The City Hospital comes nearer to serving every home in the city, either directly or indirectly, during a period of years, than any other department. Few of us realize the physical improvements to the city hospital property that have been completed during the past year. Almost every building has been thoroughly repaired, painted, and put into generally good condition. New fire hydrants have been put on the grounds adjacent to the buildings, a new tennis court for the internes and nurses has been built, underground steam lines have been run from the

main heating plant to the nurses' home on the westerly side of Whitwell Street, and a new garage has been provided for the ambulance. More improvements, too many to list in this address, have added greatly to the general efficiency of the hospital.

A closer relationship seems to exist between the medical staff and the Board of Managers, and the cooperation between the two branches is most reassuring. For the first time in the history of the hospital, a male superintendent, Dr. Joseph P. Leone, is in direct charge of the hospital. His work to date reflects credit upon him and the splendid preparation and training he has had. Within two weeks, bids will be advertised for, to erect the new City Hospital Administration Building, for which the City Council has already appropriated funds. Through agreement with the Federal Government under P.W.A. regulations the city will assume 55% of the cost, and the government will allow a direct grant in the amount of 45%. This newest addition should complete the building program at the Hospital for some time to come, and will give the people one of the finest groups of hospital buildings in the state.

It is my personal judgment that our citizens should be exceedingly proud of their Hospital and its personnell. Both the Board of Managers and the Medical Staff are deserving of our deep appreciation.

#### *SCHOOLS*

With the completion of the final wing of our North Quincy High School early next spring, the citizens of North Quincy will see the realization of their hopes, long held, for the students in that section of the city. There is very little that I can say regarding our present school system, other than in the most complimentary terms. The members of the School Committee have rendered valuable service to the people of Quincy during the past year, as in previous years, and I shall continue to offer them every cooperation.

I should like to make special mention of the retirement of Col. Warren E. Sweetser, who has given fifteen years of continuous service, without compensation, in the interest of our youth. The city will lose the services of a splendid type of citizen.

I have received no recommendations from the School Committee relative to further building requirements, and it seems advisable at this date that we eliminate school construction in the coming year. A project has been prepared and approved by the Federal Government wherein an enclosed athletic field will be built in North Quincy, adjacent to the school, for the use of students participating in athletics. This, by a previous vote of the Council, will be under the direct control of the School Committee. In another part of this address I shall refer to the matter of a central stadium for the use of both High Schools.

## PROTECTION OF LIFE AND PROPERTY

*POLICE DEPARTMENT*

The use of two-way police radio has revolutionized Police Departments throughout the country, and has proved itself to be of inestimable value as a means of rendering almost instantaneous service in maintaining law and order. Quincy has advanced rapidly in the development of this modern method of combating crime, and the results to date have more than justified the expense incurred. I believe that police radio will afford much more protection for our citizens and will be of the greatest value in reducing the ever-mounting costs of this branch of public safety. The use of cruising cars for larger territories, rather than the old fashioned plan of foot patrolmen trying to cover a lengthy beat will greatly increase the efficiency of this or any other Police Department. The day of increasing the personnell, necessitated by foot patrolmen covering beats throughout the city, has passed. Radio equipped prowl cars, with two men assigned to each car, can render much more effective service in case of emergency, for any car could reach the furthest point in its district in a matter of only three to four minutes.

The demands each year for additional foot patrolmen to properly cover every section of the city have resulted in heavy expenditures to the taxpayers. This additional expense must be stopped. Even at the present time, if the old fashioned method of patrolling the city was continued, an additional expense of \$20,000 would be necessary to fill existing vacancies in routes now wholly uncovered during certain parts of the day and night. The elimination of such large expenditures annually is a matter deserving of your serious consideration. I have instructed the Chief of Police to reorganize his Department to comply with the modern methods of police protection in the use of more radio cruising cars than at present. I trust you will give immediate consideration to the request he will make of you within a short time for two more cruising cars, fully equipped, whose total cost, including radio installation, will not exceed \$2000. His entire plan, already prepared, creating four districts in the city instead of two, will be presented to you shortly. Business centers ought to be and will be covered by foot patrolmen, but many residential sections, now only partially served by foot patrolmen, will receive far greater protection under the cruising car plan.

Recent changes in our department, through the creation of two new Sergeants and a Supervisor of Radio, should and will increase the efficiency materially. The Department is composed of capable men, who are zealous and conscientious in their work. The responsibility for the success of this Department rests squarely upon the shoulders of the superior officers. The morale of the

men must be kept at a high point. They must be physically fit and well-versed in their respective duties. Proper discipline and respect for superior officers must be maintained. To the superior officers, from the Chief down the line, I serve notice that their conduct will be observed most carefully. The old practice of "drifting along" will not be tolerated for one minute. I recommend that monthly conferences be held by the Chief with his subordinate executive officers, at which time suggestions to improve the efficiency of the department may be considered. The opportunity for having the best Department in the State lies in the hands of the superior officers. The taxpayers expect full value received for the large expenditure necessary each year in maintaining it, and I feel confident that these men will reflect credit, not only upon the city, but upon themselves.

#### *FIRE DEPARTMENT*

This department will have its efficiency materially increased through recent emergency Council action authorizing the purchase of three new pumping engines to replace the eighteen-year-old trucks in service at West Quincy, Quincy Point and Houghs Neck. Orders have been placed for the new equipment, and delivery is expected for one in thirty days and the other two ten and twenty days later.

I shall recommend in the budget that funds be provided to replace the chassis of the floodlighting truck. This truck is seven years old, and one of the most necessary pieces of equipment in the Fire Department. I shall further recommend that the present Chief's car be replaced. These two minor additions will leave the general equipment of this department in very good condition.

The need for a new Central Fire Headquarters on Quincy Avenue must receive the attention of the City Council, as the present building is entirely inadequate to house the seventeen men assigned there on each platoon and the equipment stationed there. I recommend that the committee on public buildings make a thorough study of this problem and report its findings to the City Council.

Much-needed repairs are being made and have been made at the Fire Stations in Atlantic, Wollaston, West Quincy, Houghs Neck and Quincy Point through the use of Federal employment agencies with the cost of materials only being borne by the city.

I recommend that funds be provided by the Council for a suitable drill tower, either through the employment of city labor or through the W.P.A. This is an addition much needed for the proper training of our fire department members, and will prove its worth many times over, just as it has in other cities. The City Council should consider amending the Fire Department Ordinance to add two Captains for the Central Station, one to be drill-

master with the rank of Captain, whose duty it will be to properly train the members of our department in modern methods of fire fighting. I recommend to you that at least one officer be sent to New York to take the ninety-day course at their drill school, as has been done by other nearby cities. At the present time we have no private, lieutenant or captain in the department who is a graduate of a recognized drill school. I quote from the last recommendations of the National Board of Fire Underwriters—"That a suitable drill tower and necessary equipment be provided and instruction given all members in the use of all appliances, life saving, etc. All drills to be in charge of a competent officer who shall have graduated from some modern drill school."

The Chief of the New York Fire Department has offered this service at no cost to our city, except meals and laundry service, due to the fact that the officer attending would be assigned to an engine or ladder company at night and be at the drill school daily from 9:00 to 5:00. Inasmuch as the Boston Drill School is not operating, it seems that the finest possible education along these lines can best be obtained in New York.

Since there has been no survey made in Quincy by the Board of Fire Underwriters since 1927, and many improvements have been made during the intervening years, I shall ask for a new survey in the spring of the year, believing that the city may be re-rated, and lower the cost of Fire Insurance for every person carrying that type of insurance. The expenditures of the past should be more than justified if a substantial saving can be made for our citizens.

I recommend that older members of this department, whose physical condition will not allow them to properly carry out their hazardous work, apply for retirement under the laws governing pensions, and relinquish their duties to younger men in the department. The very nature of Fire Department work requires the full strength of an able bodied man, both in the officers and members, and while we dislike to lose the services of veterans in the department, they must see as I do the advantage of the city in receiving full value for expenditures made in compensation to members.

Strict discipline must be observed in this department just as in the Police Department. Close cooperation must exist between the superior officers and the men who serve with them. Monthly conferences should be held by the Chief with his officers to establish confidence in one another, and through cooperative efforts improve efficiency. It should be remembered that no man is so proficient in his duties that there is not an opportunity for improvement. I charge this department with strict adherence to rules and regulations, to the end that the excellent fashion in which its duties have been performed may reach still higher levels.

### *PUBLIC HEALTH DEPARTMENT*

The accomplishments during the past six months of 1935 in this department show the re-establishment of the school dental program throughout every school in the city in the first grade; adoption of a regulation requiring more adequate sterilization of glasses and other eating and drinking utensils at establishments where foods and drinks are dispensed; cooperating with the State Department of Public Health and Department of Pediatrics, Harvard Medical School, in a study on the effect of placental extract in the prevention of scarlet fever. During the coming year recommendations for this department include the adoption of a regulation requiring that no raw milk shall be sold in Quincy, except when certified; increasing the number of bacteriological examinations of milk samples; establishment at the Quincy City Hospital of a ward for cases of communicable diseases; continuation of the diphtheria immunization program, with added emphasis on the immunizations being done by the private physician; expanding the present dental program to include second grade children; appointment of a full time dental hygienist; appointment of a non-salaried public health council to consist of representatives of the medical and dental professions, the Visiting Nursing Association, the School Department, the Chamber of Commerce, and possibly a sanitary engineer; establishing a definite program of popular health instruction; elimination of all dumping by the sanitary division, and the erection of one or more incinerators.

### *GENERAL COMMENTS*

Time will not permit me to go into detail on many subjects of importance to you and our fellow citizens, but I wish to call your attention to certain matters I believe should be of general interest.

### *CENTRALIZED PURCHASING*

Early consideration should be given to the establishment of centralized purchasing. Working successfully in many cities of the Commonwealth, this could be made possible by your body through the acceptance of the applicable provision of General Laws and the creation of such a department by ordinance. Inasmuch as this is a matter to enter into advisedly, I recommend that a special committee be appointed by the City Council to study all phases of the subject.

### *CENTRALIZED COLLECTION OF CITY RECEIPTS*

I believe it will be to the distinct advantage of our citizens, and add greatly to the efficiency of city departments, to have all payments to the municipality made at the Collector's office. This is a matter requiring Council action in the acceptance of certain sections of the General Laws relating thereto and the revision of our present ordinances. The plan now of receiving municipal

collections in several different offices should be abolished for the more modern method.

#### *TAX TITLE LIQUIDATIONS*

The Tax Title Department in the City Treasurer's Office is very important because the city borrows money against these and a great deal of work and time must be devoted to their handling. One employee should devote entire time to this work, and in order to properly liquidate these tax titles, additional help must be given. That the recommendations of Tax Commissioner Long may be carried out, I shall include an item of \$2,000 in the budget under Tax Titles and I trust you will allow such an appropriation to be made.

#### *COLLECTION OF TAXES*

I am particularly gratified with the manner in which our present Tax Collector has performed the duties in connection with the management of his office. Antiquated methods of bookkeeping have been eliminated and in so doing the employees have more time to keep their work up to date. The entire system of posting has been revised, filing methods have been changed, and one of the most important changes has been in relation to the collection of old taxes. In order that the collection of these old taxes could be put on a more businesslike basis, I have had the Deputy Tax Collectors open their own office at their expense and with their own clerk whose salary is paid by them. No payments of old taxes whatsoever are accepted in the Tax Collector's Office, but the clerk at the Deputies' Office makes his returns to the Tax Collector once a week. Excluding the City of Fall River, I believe Quincy is the only city in Massachusetts that has such an office or such an efficient organization of Deputy Collectors.

#### *CITY PLANNING*

##### *MUNICIPAL STADIUM*

I am very definitely in favor of a municipal stadium for the use of both our Senior High Schools. This, in my opinion, should be built on the present site known as Pfaffman Oval. A bill now before the Massachusetts Legislature, if passed, will allow the city to take this land for such a purpose and permit the charging of admissions under the supervision of the School Committee. Present plans for this stadium, seating approximately nine-thousand persons, call for an expenditure of not more than \$50,000. This will be taken up by me in greater detail at an early date.

#### *BUILDINGS*

While I do not advocate any new municipal buildings at this time, other than those already provided for, I believe that there

are certain improvements made necessary by the growth of the city for which definite planning in contemplation of ultimate construction should be undertaken by the Council this year. I refer particularly to— New City Hall, Comfort Station, City Dispensary, Municipal Incinerators, Central Fire Station, stations at Quincy Point, Houghs Neck, and West Quincy and a new Fire Alarm Building to be built in some location removed from the hazards of a congested area.

#### *PARKING*

The parking facilities in the city are inadequate for our growing needs as a metropolitan center. Serious consideration must be given to this problem, which can be productive of revenue to the city through increased valuations.

#### *SEWAGE DISPOSAL*

The City of Quincy will bend every effort to further the adoption of a plan now before the State Legislature to eliminate the sewage nuisance in Quincy Bay by extending the sewer outlets beyond the limits wherein the hazard of pollution exists.

#### *QUINCY ADAMS GRADE CROSSING*

Tomorrow, January 7th, should be regarded as a red letter day by the residents of Quincy, for then will be opened the bids covering the work on the elimination of the Water Street grade crossing at Quincy Adams depot. This much-talked of project is at last to become a reality.

I am told that as far back as forty years ago the newspapers contained the story about how strongly the city council favored its elimination. At a later date an order was passed in the State Legislature authorizing the work be done.

Though the matter has been agitated from time to time since, and as much as half a million dollars has been paid out in land takings during the past fifteen years by the state, city and railroad, it always seemed to encounter some obstacle which prevented its completion. Presumably the principal reason was lack of funds.

However, when it became known last Spring that the Federal Government had allotted funds from the Emergency Appropriation Act of 1935 for the purpose of eliminating some of the grade crossings in Massachusetts some of our leading citizens determined that now, if ever, was the time to get behind this movement with all the energy they could command. The fact that bids on the work will be opened tomorrow at the office of the State Commissioner of Public Works indicates how successful they were. It does not, however, tell of the money, time and energy spent and the many disappointments met with before final approval was obtained for this splendid civic improvement.

One of their chief accomplishments was the substitution of granite for concrete. Not satisfied with this they also fought to have Quincy granite used and for the first time, as far as is known, the word "Quincy" is named in the specifications for public construction as the basis on which the quality of granite to be furnished shall compare.

At least 90% of those to be employed on the job will be taken from the relief rolls of Quincy and the adjoining towns. The entire cost of the construction will be paid for by the Federal Government.

I cannot hesitate from taking this opportunity to publicly thank our fellow townsman State Director Frank H. Foy of the National Emergency Council for his untiring efforts in behalf of this project. To him I express the sincere appreciation of our citizens.

I believe this improvement will be of much benefit to the city as a whole, but particular satisfaction should be felt by residents of the South Quincy section. It will correct a bad traffic condition and should be but the first of many betterments in that part of the city resulting in better business and enhanced property values.

### IN CONCLUSION

It has been my policy to adhere as far as possible to the pledge previously made by me to our citizens of an honest, efficient, businesslike administration of city affairs. While the problems have been many and the duties of the Mayor's Office have required far more time and strength than I anticipated, I feel confident that with the cooperation of you gentlemen and the confidence of our citizens the coming year will find us closer to a practical solution of the many problems common to every municipality.

We stand here today at the beginning of a new year, with renewed hopes for the future and a sincere faith in Almighty God. Dedicating ourselves to the service of our fellow citizens, realizing the seriousness of our own responsibilities, may we have Divine Guidance in all our undertakings.

Mayor, HON. THOMAS S. BURGIN

### Secretary of Board and Superintendent of Schools

JAMES N. MUIR

The regular meetings of the School Committee are held at 7:30 o'clock P. M. on the last Tuesday of each month except July.

## REPORT OF THE AUDITOR

---

*To His Honor the Mayor and the City Council:*

In accordance with the requirements of the City Ordinances, I herewith submit the annual report of the financial transactions of the City of Quincy for the year ending December 31, 1935, including detailed departmental expense schedules as reported by the several departments, together with a balance sheet showing the condition of the city as of that date.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

GEORGE H. BONSTALL,  
*Auditor of Accounts.*

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, and Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

GEORGE H. BONSTALL,  
*Auditor of Accounts.*

Sworn to before me this 24th day of March, 1936.

HATTIEMAY THOMAS,  
*Notary Public.*

## IN COUNCIL

Order No. 54

February 18, 1935

*Ordered:*

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1935 and ending December 31, 1935, to be expended by and under the direction of the several officers or boards as herein designated.

Total Deductions .....	\$ 1,296,369.79

When this Board took office at the end of June 1935, the assessing for the year had been completed. There were on file, however, many applications for abatement and exemption and a number of cases before the Board of Tax Appeal on the 1934 taxes. Throughout the balance of the year a steady flow of applications for abatement has occurred, climaxing in the last few days before December first, the last day on which applications could be received, with a flood of applications; in large part from banks filing on foreclosed properties.

New buildings for the year added but a small amount to the total valuation, the larger part of the building permits being for repairs and maintenance of buildings, and offsetting the new construction a number of buildings were demolished as unprofitable and to lower the tax on the property.

Effective in 1935, the assessing date has been changed from April first to January first. This change has made the work of assessing more arduous as the storms and cold weather of the winter months are a great handicap in doing the field work.

The work of the Board is further handicapped by the arrangement of office space, the Board being located on the second floor

while the clerical force and the records are on the street floor. It would save much wasted time and tend toward greater efficiency if the Board had an office on the first floor adjoining that of the clerical force.

In our opinion, the low point in valuations has been reached, and that while no general increase is in immediate prospect the downward trend of the last few years should be halted.

Respectfully yours,

MICHAEL T. SULLIVAN,

Chairman,

GEORGE H. NEWCOMB,

ALFRED B. KEITH,

Board of Assessors.

## REPORT OF QUINCY RETIREMENT SYSTEM

---

March twenty-third  
Nineteen thirty-six

To the Honorable Thomas S. Burgin, Mayor of the City of Quincy:

Pursuant to the provisions of Chapter 152 of the Acts of 1934, the Quincy Retirement Board respectfully submits its first Annual Report being for the year ended December 31, 1935.

The Quincy Retirement System was inaugurated January 1, 1935. The Board consisted of George H. Bonsall, ex officio as Auditor of Accounts, Thomas S. Burgin, appointed by the Mayor for a term of three years, and John J. Keefe, appointed by the Mayor for a term of one year. The members of the Board met for organization on January 3rd and elected George H. Bonsall, Chairman. Upon his election in June to the office of Mayor, Thomas S. Burgin withdrew from the Board and appointed J. Everett Robbie to serve for the unexpired term to end January 1, 1938.

While the effective date for the operation of the Quincy Retirement System was January 1, payroll deductions were deferred until March 1, in order to set up the machinery of operation, compensating deductions being made thereafter to cover the period from January 1 to March 1. During the first few months, a number of meetings were held for various groups of employees, at which the members of the Board explained the provisions of the Retirement System and the benefits provided thereunder. Numerous hearings were granted individuals for the same purposes.

During the year a total of 252 members were enrolled. Withdrawals, deaths, and retirements during the year reduced the active membership on December 31 to 237. Membership in the System is open to all employees of the City of Quincy except elected officials and teachers. All new employees must become members upon the completion of one year of service. Membership in the Retirement System is optional with employees who were in service on January 1, 1935. The great majority of the latter were already covered by various non-contributory pension systems, so that the present membership represents principally employees who were not previously covered by any pension or retirement provisions.

As required by the Act establishing the Quincy Retirement System, the Actuary retained by the Board made an actuarial valuation of the assets and liabilities of the reserve funds of the system as of June 30, 1935. The balance sheet contained in his report is appended hereto as Table VII. The following excerpt is taken from the report of the Actuary in submitting his Annual Valuation.

"In general the operation of the retirement system during its first six months has been very satisfactory. The accrued liability rate contained in the retirement act which was determined on the basis of the preliminary valuation was apparently conservative since the present valuation indicates that no change need be made in the rate. It is especially gratifying, in view of the experience in other small retirement systems, that the Quincy Retirement System has been able to invest its funds

as advantageously as the list of investments held on June 30, 1925 indicates. Although no investments were made until May, 1935, it is hoped that hereafter conditions may be such that the funds can be promptly invested and the full interest return realized."

This brings out a point that deserves serious consideration. Approximately one-half of the funds received annually by the Retirement System are derived from the appropriation made by the City as its contribution in accordance with the law. If the funds are not made available until a number of months have elapsed in any calendar year, the Board is not able to obtain a full year's interest return, which consequently impairs its ability to build up the reserves contemplated when the rates for the City contributions were calculated. The Board was able to earn almost exactly 4% on the average funds under its charge in 1935, but it would facilitate matters if the funds to be provided by the City were made available at a substantially earlier date in the year.

Much of the time during the year has been occupied in verifying the service records of the members of the Quincy Retirement System. The amount of detail involved can be appreciated only by those who have come into contact with it. The members of the Board wish to take this opportunity of expressing their appreciation of the work of its Secretary, Miss Frances E. Varney, upon whom all of this detail has devolved.

Tables setting forth the financial and statistical results of the year are appended.

Respectfully submitted,

GEORGE H. BONSTALL,  
JOHN J. KEEFE,  
J. EVERETT ROBBIE,

Quincy Retirement Board.

TABLE VII

Valuation Balance Sheet Showing the Assets and Liabilities  
of the Funds of the Quincy Retirement System  
as of June 30, 1935

Assets		Present Value of Payments to be Received
Annuity Savings Fund .....	\$	6,003
Annuity Reserve Fund .....		15
Pension Reserve Fund .....		0
Pension Accumulation Fund .....		12,461
Total Present Assets .....	\$	18,479
Present value of the prospective contributions payable by the City into the Pension Accumulation Fund .....		226,695
Total Assets .....	\$	245,174

Liabilities		Present Value of Payments to be Made
Present value of benefits on account of which contributions have been paid by members into the Annuity Savings Fund .....	\$	6,003
Present value of benefits payable on account of beneficiaries or their dependents now drawing annuities from the Annuity Reserve Fund .....		15
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Reserve Fund .....		0
Present value of benefits payable on account of beneficiaries or their dependents now drawing pensions from the Pension Accumulation Fund .....		2,886
Present value of benefits to members with prior service credit to be paid by contributions of the City into the Pension Accumulation Fund .....		235,221
Present value of benefits to new entrants to be paid by contributions of the City into the Pension Accumulation Fund .....	\$	1,049
Total Liabilities .....	\$	245,174

No account is taken of the future contributions of members into the Annuity Savings Fund because the benefits provided by these contributions are exactly equal to the accumulated amount of the contributions and therefore they do not affect the balance in the fund.

## REPORT OF DEPARTMENT OF HEALTH

January 1, 1936.

To His Honor the Mayor and the President  
and Members of the City Council.

Gentlemen:-

Following the custom of previous years, the annual report of the Health Department is made on the basis of the Appraisal Form for City Health Work.

This Appraisal Form is a compendium of practices and activities which represents a sampling of the main elements of a generally desirable municipal health program, considered in the light of present-day knowledge and practise.

The Appraisal Form uses as indices of activities the results immediately attained, such as the number of infants in attendance at clinics, of tuberculosis cases hospitalized, or of laboratory tests performed. There is reason to believe that such activities, conscientiously performed over a reasonable period, inevitably lead to the ultimate end of all public health work—the conservation of human life and well being.

Numerical values are assigned to each item to indicate broadly both the standard of performance reached and the present relative importance of the various activities in the judgment of professional health workers. When we score with this Form, the information collected and the results obtained present a reasonably accurate picture of the health services actually performed and of the working standard laid down.

The standards of performance are for the most part based on actual practise. In general, each individual standard is equalled or exceeded by about one-fourth of the cities from which data is available. The Appraisal Form is in a very real sense "a measuring rod" of public health activity.

The Appraisal Form consists of 4 main divisions and 13 independent sections. Two of these sections call for information but are not scored.

The sum of the values given to each item in each scoring section equals 100 points. To compute the total score the section totals are not added directly, but are first multiplied by a factor or weighted value. The total points thus obtained amount to 950. In addition a certain number of points are added to the total score, where the percentage attainment for each section is 50 or more. The highest possible score is 1000.

In 1935, Quincy scored 783.80 points, a slight gain over the score of 1934 when 778 points were attained. The scores attained each year since 1926 are shown in the following table:

Year	Total Score
1926 .....	771
1927 .....	797
1928 .....	712
1929 .....	746
1930 .....	no scoring done
1931 .....	no scoring done
1932 .....	612.40
1933 .....	714.20
1934 .....	778.00
1935 .....	783.80

## Appraisal 1935

	Weighted Score Attained	Possible Weighted Score
<b>I Common Services</b>		
A. Vital Statistics .....	45.00	45
B. Laboratory .....	46.20	60
<b>II Preventable Disease Activities</b>		
A. Acute Communicable Diseases .....	133.30	155
B. Venereal Diseases .....	37.70	65
C. Tuberculosis Control .....	82.80	90
<b>III Activities for the Promotion of Hygiene of the Individual</b>		
A. Maternity Hygiene .....	72.00	90

A. General Sanitation .....	48.00	80
B. Food and Milk .....	67.50	75
Total .....	753.80	950
Additional Credit-Balanced Program ....	30.00	50
Grand Total .....	783.80	1000

## I COMMON SERVICES

A. Vital Statistics has received a full score for several years. About one-quarter of the credit is received because of activities of the City Clerk who is the registrar of births and deaths.

One important change has been made in compiling the mortality tables for 1935. The tables are based on resident deaths, that is, deaths in Quincy of non-residents are excluded and deaths, outside the City, of Quincy residents are included. Mortality tables based on resident deaths show a truer picture of actual conditions.

B. Laboratory scored 77 out of a possible 100 points in 1935 compared with 75 points in 1934. The weighted score for 1935 was 46.20.

The appraisal shows we do not meet the standards for examinations of specimens for tuberculosis, syphilis, gonorrhea, and of milk and cream (particularly raw milk and cream specimens previous to pasteurization). The total laboratory procedures is also far short of the standard.

Most of the credits obtained in this section were due to the work of the Quincy City Hospital and State Department laboratories.

## II PREVENTABLE DISEASE ACTIVITIES

A. Acute Communicable Diseases scored 86 out of a possible 100 points in 1935. The weighted score was 133.30, the same score as in 1934.

There was a loss of 2 points in diphtheria immunization although actually more children were immunized in 1935 than in 1934. Credits are given on the basis of the proportion of children in two age groups, on January 1, 1936, known to have been immunized at some time. The two groups are 0-4 years inclusive and 5-9 years inclusive. A much larger number of children were transferred from the 5-9 year group than were transferred to that group from the 0-4 year group so that

on January 1, 1936 there were actually fewer immunized children in the 5-9 group than there were a year ago. During the year, no especial efforts were made to immunize school children against diphtheria as emphasis was placed on the protection of the preschool children.

The loss in points for diphtheria immunization was offset by gains for other items.

Additional credits could be secured if local physicians availed themselves of the consulting diagnostic service offered by the State Department of Public Health; if a larger percentage of scarlet fever cases were hospitalized; and if there was an increase in the number of preschool children immunized against diphtheria.

During the past year, Quincy has been unusually free from epidemics of diseases of a serious nature although scarlet fever has been unusually prevalent since about the first of October. One death occurred from this disease. 23 cases of anterior poliomyelitis (infantile paralysis) were reported during the year with one fatality. One other Quincy child died of this disease but he had been away from the city for the four weeks previous to the onset of the disease.

During the year only one case of diphtheria was reported. There hasn't been a death from this disease for more than two years. The lowest number of cases reported in any previous year was in 1931 when 9 cases were reported. Table 4 shows the average annual death rates from diphtheria in Quincy for five year periods since 1876. This disease will continue to be a rare one if we will continue to immunize our children against the disease.

Since October, the Department has been cooperating with the State Department of Public Health and the Department of Pediatrics of Harvard Medical School in a study of the possible value of placental extract in the prevention of scarlet fever among familial contacts.

**B. Venereal Disease** activities scored 58 points out of a possible 100 in 1935 with a weighted score of 37.70. The 1934 score was 63 out of a possible 100, the weighted score being 40.95. The reporting of venereal diseases is very poor, only about 25 percent of the standard. The number of cases on record registered with private physicians and clinics is also very much below the standard.

The time has come when health departments must devote more attention to the prevention of the degenerative diseases. Many cases of certain diseases of the circulatory system are due indirectly to venereal infection occurring during the younger years of life. Undoubtedly many of these cases of circulatory diseases as the result of venereal infection could be prevented if proper treatment is given at the time of infection.

It is not generally known, but an unusually high percentage of cases of gonorrheal infection, particularly in females, is due to innocent infection.

These examples are only two of many reasons why more work should be done in the control of venereal diseases.

**C. Tuberculosis Control** scored 92 out of a possible 100 points in 1935, the same score as in 1934. The weighted score was 82.80.

There was an increase in the number of nursing visits as compared with 1934 as both tuberculosis nurses were on a full-time basis during the entire year.

The Chadwick Clinics which were conducted by the State over a period of 10 years are now being carried on by the Norfolk County Hospital. During the early winter this group conducted clinics in the Quincy schools for the 7th, 9th and 11th grade pupils. These clinics aim to discover evidence of infection in children with the subsequent examination of other members of the families of those

found infected. This makes it possible to discover many cases, as yet unrecognized, and appropriate measures are adopted to prevent these cases from continuing as sources of infection.

The tuberculosis mortality rate today is only about one-third of what it was 25 years ago. Better housing, better nutrition; pasteurization of milk; earlier detection of cases and examination of contacts; are some of the factors which have contributed to the lowering of the mortality rates from this disease.

The emphasis in recent years has been to detect cases of tuberculosis during childhood. As a result of the work of the Chadwick Clinics and our own clinic, we have records of 311 cases of hilum tuberculosis in Quincy. With proper care, most of these cases can be saved from pulmonary tuberculosis, the adult type of the disease.

One of the aims of the Chadwick Clinics has been the subsequent examination of other members of the families of those found infected but with so much emphasis being placed on the detection of childhood cases, there has been a tendency to forget the importance of detecting the early cases of the adult type. Last year, less than 10 per cent of the pulmonary cases reported, were diagnosed in the minimal stage. While it must be admitted that Quincy is probably doing as good a piece of work in this respect as most cities, nevertheless we must also admit that this is probably the weakest link in our tuberculosis program.

### III ACTIVITIES FOR THE PROMOTION OF HYGIENE OF THE INDIVIDUAL

**A. Maternity Hygiene** is an activity carried on by the Quincy Visiting Nurse Association and the Quincy City Hospital. This activity scored 80 out of 100 possible points in 1935 with a weighted score of 72.00 compared with 75.60 points in 1934.

At the present the prenatal clinic conducted by the Quincy City Hospital meets at the Quincy Dispensary. The facilities at the Dispensary are very inadequate and it is impossible to carry on the clinic in a proper manner. The clinic should be moved elsewhere, preferably to the Hospital.

A large percentage of infant deaths occur during the first month of life and particularly is this true of the first few days of life. Many of these so-called neonatal deaths are due to prenatal influences which can be overcome to a great extent by adequate prenatal care.

During the past 5 years there has been a decline in the neonatal death rate which we feel is significant. There has also been a decline in the still-birth rate. Many of these still-births could also be prevented by more adequate care during pregnancy.

Many practising physicians have noted that expectant mothers are going to them earlier in pregnancy. The services of the V. N. A. are being used to a greater extent. A wider use of the services now available to expectant mothers through the clinics, the V. N. A. and the private physician would result in a further reduction in the neonatal death rate and the still-birth rate. It would also result in the saving of the lives of mothers for in spite of our present-day knowledge, altogether too many mothers die as a result of puerperal conditions.

**B. (1) Infant Hygiene** attained a full score of 100 points in 1935 with a weighted score of 90.00.

The infant mortality rate for 1935—36.6 per 1000 live births was the lowest rate the City has ever had. At the beginning of the Century, 1 baby out of every 10 died before reaching its first birthday. Today only 1 out of 15 dies during the first year of life. The infant mortality

rates for 5 year periods since 1901 are shown in Table 5. This remarkable saving of the lives of infants has been brought about by many factors but principally because of pasteurization of milk and a better understanding on the part of mothers in the care of infants.

**B. (2) Preschool Hygiene.** This activity scored only 53 out of a possible 100 points in 1935 with a weighted score of 47.70. There was a slight loss over the score of 1934 as fewer preschool children were registered at the clinics and the attendance of children about to enter school in the fall was less than it was a year ago.

Preschool hygiene is one phase of public health wherein Quincy is weak. The score attained by this section is really higher than it should be. The large majority of preschool children attending the clinics are in the group from 12 to 30 months inclusive. These children are admitted to the regular baby clinics. With the exception of a few children who attend the regular monthly preschool clinic, the group from 2½ years to school age are very much neglected in so far as Health Department activities are concerned with the exception, of course, of the diphtheria immunization program.

Efforts are being made to take care of one particular phase of the health of the preschool child, namely dental care. A preschool dental clinic, established some years ago, by the Health Department, was continued during 1935. The attendance was very good but added efforts are being made to increase the attendance.

The standards for preschool hygiene as set up by the Appraisal Form are very low and Quincy scores only 53 per cent by these low standards. More emphasis should be given to this very important phase of public health work.

**C. School Hygiene** is a function of the School Department with the exception of the dental program and of the nursing service in the Parochial schools. This activity scored 76 out of a possible 100 points in 1935 with a weighted score of 83.60. The weighted score in 1934 was 73.70.

The school dental clinic formerly conducted by the School Department and which was discontinued several years ago was re-established by the Health Department. For the school year 1935-36, only first grade children will be admitted to the clinic. An examination made in October showed that more than two-thirds of the first grade children were in need of dental attention.

If sufficient funds are appropriated in 1936, we plan to add more grades in the fall of 1936.

Many of the dental defects are without any question due to faulty nutrition. Malnutrition is not always a problem of economics alone. Many times, the child of the well-to-do parents is malnourished. During the past few months we had the volunteer services, four days a month, of Mrs. Robert Marder, a dental hygienist. She has visited, once a month, all the first grades in the City carrying an educational program. This program should be expanded to include other grades.

#### IV SANITATION ACTIVITIES

**A. General Sanitation** scored 60 out of a possible 100 points in 1935 compared with 57 points in 1934. The points gained were due to an increase in the number of sanitary inspections made. The weighted score for 1935 was 48.00.

Of the 100 possible points, 65 are given for water supply and for sewerage. Quincy scores full credit for water supply but only 10 out of a possible 35 points for sewerage. Only about two thirds of the dwellings in Quincy are connected to the public sewer.

**B. Food and Milk Control** scored 90 out of a possible 100 points in 1935 compared with 84 points in 1934. The 6 point gain was due to the adoption of a regulation requiring satisfactory methods of sterilization of eating and drinking utensils in food and drink establishments. The weighted score for 1935 was 67.50.

Additional points could be secured if a large per cent of the milk supply was pasteurized. Several years ago, Quincy had an outbreak of scarlet fever traced to a raw milk supply. Last year, the first case of undulant fever ever reported in Quincy, was reported. The source of infection was a raw milk supply. Within a short time, it is proposed to put into effect, the regulation adopted a year or two ago, requiring that all milk sold in Quincy be either pasteurized or certified.

**Recommendations.**

1. Continue the diphtheria immunization program among preschool children and extend it to include children in the first and second grades.
2. More use of the consulting diagnostic service available through the State Department of Public Health.
3. Institute a program of community health instruction regarding venereal diseases.
4. Place greater emphasis on the detection of early cases of adult type of tuberculosis.
5. Transfer the prenatal clinic from the Dispensary.
6. Emphasize the importance of prenatal care and strive to have a larger percent of expectant mothers make use of the services now available.
7. Extend the program of preschool hygiene to reach a larger number of children between the ages of 30 months and 4 years inclusive.
8. Extend the school dental program to take in children in the second grades.
9. Secure the services of a full-time dental hygienist.
10. Increase the number of sanitary inspections.
11. Adopt a regulation requiring that no milk be sold in Quincy excepting pasteurized or certified raw.

Respectfully submitted,

RICHARD M. ASH, M. D.,  
Health Commissioner.

Dr. Richard M. Ash,  
Health Commissioner.

Dear Doctor:-

I am pleased to submit to you my annual report for the year 1935. The regular personnel of this department is made up as follows:-

Commissioner .....	Dr. Richard M. Ash
Agent .....	Howard E. Porter
Clerk .....	Verna M. Kelley
Statistician .....	A. A. Robertson
Milk Inspector .....	James O'Dowd
Meat Inspector .....	Howard Rogers
Slaughtering Inspector .....	Edward A. deVarennnes
Animal Inspector .....	Edward A. deVarennnes
Child Welfare Physician .....	Dr. Rachel L. Hardwick
T. B. Physician .....	Dr. Cornelius J. Lynch
Venereal Disease Physician .....	Dr. E. E. Smith
Bacteriologist .....	Dr. E. E. Smith
Contagious Disease Nurse .....	Catherine F. Coleman, R. N.
T. B. Nurse .....	Gertrude T. Russell, R. N.
Child Welfare Nurse .....	Nettie D. Fowler, R. N.
Child Welfare Nurse .....	Mary E. Marr, R. N.
Dispensary Custodian .....	Thomas A. Eames

Also the three following persons are holding provisional appointments pending results of civil service examinations:-

Plumbing Inspector .....	Jeremiah J. Curtis
Restaurant Inspector .....	William H. Taylor
T. B. Nurse .....	Eileen Garrity

In addition we have the following persons who are paid only for each clinic they attend:-

Child Welfare .....	Dr. Fred P. Costanza
Orthopeidc Physician .....	Dr. John L. Doherty
Dental .....	Dr. Louis J. Sullivan
" .....	Dr. Frederick S. Tobben
" .....	Dr. Alfred E. O'Malley
" .....	Katherine Wiseman, R. N.
" .....	Gladys Imray, R. N.

The department lost by death this year, its oldest member in point of service, in the passing away of Jeremiah J. Keniley, he having served this city faithfully for 42 years.

Outside of my many routine duties, I have received and investigated 1247 complaints of unsanitary conditions and have made in connection with my work in the control of Venereal Disease, 112 night calls on patients, who have lapsed treatment, either with their private physician or a clinic.

I would recommend to you that an effort be made for closer co-operation with the License Board, to the end that no licenses for the sale of alcoholic beverages be issued, until the applicant has met the requirements of the Health Department as to his establishment. The work in correcting conditions in these places would be made much easier in that case.

I wish to thank each member of this department for their splendid cooperation with me this past year. It has been a pleasure to be associated with them.

Respectfully submitted,

HOWARD E. PORTER.

Agent.

January 1, 1936.

**REPORT OF BACTERIOLOGIST**

Plate counts (milk) .....	590
Smears for pus & streptococci (milk) .....	590
Plate counts (ice cream) .....	48
Chemical examinations (ice cream) .....	48
Chemical examinations (milk) .....	688
Total examinations .....	1964

EDWIN E. SMITH, M. D.

January 1, 1936.

Richard M. Ash, M. D.  
Health Commissioner.

Dear Doctor:-

I hereby submit my annual report as Contagious Disease Nurse for the year ending December 1935.

Five thousand, five hundred and forty-seven cases of notifiable diseases were reported as follows:-

Anterior Poliomyelitis .....	23
Chickenpox .....	157
Diphtheria .....	1
Dog Bite .....	214
Dysentery (Bacillary) .....	1
Lobar Pneumonia .....	40
Measles .....	124
Meningococcus meningitis .....	1
Mumps .....	500
Ophthalmia neonatorum .....	1
Rubella .....	4114
Scarlet Fever .....	270
Septic Sore Throat .....	1
Tetanus .....	1
Typhoid Fever .....	3
Undulant Fever .....	1
Whooping Cough .....	95
Total number of visits .....	1562
Scarlet Fever .....	1002
Measles .....	281
Whooping Cough .....	165
Diphtheria .....	3
Typhoid Fever (cultures 32) .....	32
Chickenpox .....	5
Anterior Poliomyelitis .....	72
Undulant Fever .....	2

**Anterior Poliomyelitis**

During the year twenty-three cases were reported, twelve of these cases were hospitalized. Two children died in the hospital. This disease was prevalent in August, September and October. In September, a clinic was held at the Quincy Dispensary in co-operation

with the State Department of Health, to obtain blood for a serum, for new cases, from persons having had the disease. In this connection, 52 home visits were made.

#### **Diphtheria**

One case reported, which was hospitalized. During the year 1405 children were immunized, 980 children were done at the clinics and 435 by the family physician. 1030 were under five years of age, 371 children in the age group between 5-9 years, while 14 were ten years of age or over.

#### **Rubella**

There was an epidemic during the first six months of the year. 4114 cases reported from the various wards. More cases reported in this epidemic than in any other in the history of the city.

#### **Scarlet Fever**

Fifty-six cases, of the 270 reported, were hospitalized, 55 in Haynes Memorial, and one in the Boston City Hospital. One child died in the hospital.

#### **Whooping Cough**

Two cases of the 95 cases reported were sent to the Haynes Memorial. One death occurred at home.

#### **Typhoid Fever**

2 cases reported, both hospitalized.

#### **Mumps**

The reported number of cases was 500, a decided increase over previous years.

#### **Clinics**

157 various clinics were attended during the year.

Assisted Dr. Sullivan in the dental examination of all the children of the first grade in the parochial and public schools. 70 visits to schools and homes were made in connection with this work.

34 diagnostic visits were made by the health commissioner during the year.

In the follow-up work, 1562 visits were made including placarding, re-visiting, checking on quarantine regulations, taking cultures, examination of contacts and releases from quarantine.

Office hours daily 9-9:30 a. m. and 1-1:30 p. m.

Respectfully submitted,

CATHERINE F. COLEMAN, R. N.

Contagious Disease Nurse.

Dr. Richard M. Ash,  
Health Commissioner.

Dear Commissioner:-

Before giving you a few instances of the progress of our work with the Infantile Paralysis victims of this city and its outlying towns, I wish to thank the Kiwanis Club for its interest and cooperation. The transportation of cases, which it has sponsored, has done much to make our clinic one of the most active and leading links of the Harvard Commission's Chain; and it has meant much to a great many of those afflicted with this disease, unable heretofore, to attend the treatment clinic. I wish also to thank the city as a whole, and its outlying towns, for financing another physio-therapist as this has contributed so much toward enabling us to handle more smoothly the large increase in numbers which this year has brought and therefore to give more individual attention, which is so valuable in the treatment of this disease. I could not make a complete acknowledgement of the enthusiasm or help from the Kiwanis Club, and from the city, without mentioning Mr. Frank Foy in particular, who has been so largely instrumental in bringing about the success of this center of Infantile Paralysis care.

The number of patients and visits for 1935 are herewith listed:

		Patients	Visits
Quincy	Cases .....	21	335
Milton	" .....	2	65
Weymouth	" .....	6	93
Braintree	" .....	6	116
Total .....		35	609

To supplement the actual list above, I would like to give you a specific report of a few of the cases.

Joan began attendance in the fall, with one leg and abdomen affected. After a few months of treatment and of rest in the wire splints, which we use until our patients are able to walk (either unsupported or with braces), she has recovered to the point of almost normal muscle strength. She will now discard the splint and gradually walk and run about as before, without apparatus of any kind.

Helen is a high school girl, a victim of the disease last summer, affected in both legs and abdomen. Kept off her feet and receiving regular treatments, she is now hoping to try a little skating before the season is gone.

Jimmie is only three years old, and one of eight children. Badly affected in one leg, and with no mother to bring him to our clinic, he has been enabled through the club's help, to receive the regular treatment, to have the needed splints, necessary at the beginning, and to have new shoes fixed according to his particular needs, now that he is starting to walk and run about again.

Last fall, George was not able to straighten his knee; now we feel that his gait will be normal again, without the help of a brace, as the knee muscle has begun to do its work and to enable him to hold his knee straight without its giving way.

In closing, I wish to make general mention and acknowledgement of the large amount of apparatus and shoe adjustment, which has been backed by the Kiwanis Club, and which has been so necessary in the work of bringing some of the youngsters back to normal and in enabling others to handle what weakness has been left, thereby permitting them to enter into a more normal participation of life.

Respectfully submitted,

MARY R. BUSHNELL.

January 1, 1936.

## REPORT OF VENEREOLOGIST

## MALE CLINIC

Patients treated for gonorrhoea .....	16
Number of visits for gonorrhoea .....	155
Referred to private physician for gonorrhoea .....	6

Respectfully submitted,

EDWIN E. SMITH, M. D.

January 1, 1936

Dr. Richard M. Ash,  
Health Commissioner.

Dear Sir :-

During the past year there has been an increase in tuberculosis throughout the city, but no greater than one would expect considering the drastic nutritional disorders of the long drawn out depression of the last five years.

Insufficient wages, crowded living conditions, poor housing, increased family worries, all contribute to lower the morale and render conditions favorable to increased sickness and disease in general, and especially add to our problem of tuberculosis.

Conditions in Quincy are similar to those in all large cities throughout the commonwealth and their correction depends upon our zeal in everlastingly fighting the ravages of consumption.

According to health records, there was an increase of about 12 per cent in 1935 over 1934, whereas, in 1934, there was a 22 per cent increase over 1933, so that we are apparently winning in our general fight against tuberculosis and our progress will probably be more pronounced as we overcome the natural drawbacks of the depression.

In Quincy, we are stressing especially the hospitalization of active tuberculosis in all its forms. Rigid follow-up work for all contacts and great attention is being paid to the so-called "under-nourished children" and the childhood type of tuberculosis.

In the last analysis, lasting success in overcoming tuberculosis will be in direct ratio to the control of the so-called primary or childhood type of the disease and the contacts of the active or adult type of tuberculosis.

#### Undernourished Clinic

In Quincy, we direct our control, both the childhood and adult type of tuberculosis, through weekly clinics at the city Tuberculosis Dispensary. Both are well attended and much valuable preventive education for tuberculosis control is being constantly given to the many families afflicted with tuberculosis.

Physical examinations are made, Mantoux tuberculin tests done, and where local infection from bad teeth and tonsils are revealed these are corrected, so that if the individuals need sanatorium care they will more quickly respond to treatment. This regime has been adopted at the Dispensary for the past fifteen years and the pioneer days were discouraging, progress was slow, patients were despondent and non-cooperative but patience and perseverance have been rewarded.

In the early days, only hopelessly advanced cases were the rule and no contacts appeared. Now the opposite is true and people voluntarily come for examination and information as regards their health. In fact, during the past few years we are finding minimal cases of tuberculosis at the Dispensary, something never heard of in the early days. This, of course, is as it should be and shows real progress and proves that time and money spent in the past were well worth while.

Tuberculosis, discovered early and treatments started are easily controlled, especially if modern treatment is adopted. It might well be said that tuberculosis control is just around the corner, provided the cities and states are willing to liberally support active agencies for early discovery and hospitalization of this disease.

### Norfolk Preventorium

Due to the annual appropriation of \$2000 by the City, together with funds acquired from Christmas Seal sale, we are able to again send our usual quota of fifty children to Camp Norfolk. This fund should be increased just as soon as the camp can take extra children. Eight weeks intensive treatment for these pre-tubercular children, not only helps those children selected, but also materially increases our weekly clinic attendance, thus we can educate a far greater number of families in tuberculosis control. The prospect of being some day chosen for the camp is one of the primary reasons for many of the children regularly attending the weekly clinic.

The "Chadwick ten year program" among the schools of this state has shown that there are 18 to 24 per cent of undernourished children and childhood suspects of tuberculosis. With the school population of 15,000 children in Quincy, one can readily see the importance of appropriating sufficient funds for the discovery and treatment of these suspects. Other cities will face a far greater expense caring for these same children later in life as subjects of pulmonary tuberculosis.

The old saying "an ounce of prevention" is especially appropriate from the tax payers standpoint in this question of tuberculosis control.

The "follow-up" work of the Chadwick clinic is now carried on by Dr. Pillsbury of Norfolk County Hospital. I believe this work is far too much to expect of one man but assume the time will come when cities like Quincy will be called upon to supply more funds for the work. Quincy should do this willingly, for prevention is always more economical than control in the problem of tuberculosis.

To more efficiently practice tuberculosis control in Quincy, I wish to offer the following recommendations:

- 1) I believe both tuberculosis nurses should devote their entire time to tuberculosis work.

At present one nurse is devoting much of the time to parochial school work.

The two branches of public health nursing that have to devote the most time to "field work" are social service and tuberculosis workers. Here only results count and time cannot be limited.

For example, take the father of a family in the early active stage of tuberculosis. He is surely a menace, both to his family and to the community. He should be hospitalized, yet, he feels well and has not yet lost much strength and is able to work and provide for his family.

One can imagine the nurses' task to convince such a man to go to the sanatorium. The nurse has undoubtedly the right side of the argument but anybody can visualize how much time she must spend to convince such a person to go to a sanatorium. Yet, she must do just this or else she is considered a failure.

Then, too, many similar time consuming cases come up in the welfare side in tuberculosis field nursing.

When one considers that most "appraisal forms" call for 5000 visits for every 100 deaths, one can see the great number of field visits called for in a city the size of Quincy.

In addition to the time demanded in "case finding" and general field welfare work, a great deal of time is needed for clerical work and vital statistics. The city must have its reports of the work done, so, too, the state calls for its records and reports of all new cases. Determination of settlement in cases calling for aid also figure in the routine work of the tuberculosis nurse.

From this partial resume you can readily appreciate a need of both nurses devoting all their time to tuberculosis work if Quincy is to continue its high grade reputation in the control of tuberculosis.

Another recommendation is to have all "positive reactors", hilum suspects and pre-tubercular children discovered through State and County surveys in the schools, referred to the Quincy Tuberculosis Dispensary for follow-up work.

For the past few years these cases have been simply weighed once a month, and, of course, this is not enough. They should come to the Dispensary every two weeks for examination, periodical tuberculin testing and X-rayed at regular intervals. This is the safest way to prevent pulmonary infection and disease and this saves these cases from sanatorium expenses later in life. In addition, it saves duplication in tuberculosis work. It will also tend to prevent these same children from having to miss promotion from ill health.

The clinical statistics, I sent you through separate report.

Respectfully submitted,

C. J. LYNCH, M. D.  
Dispensary Physician.

## REPORT OF TUBERCULOSIS NURSES

Richard M. Ash, M. D.

Health Commissioner.

Dear Doctor:-

We herewith submit to you our annual report for the year ending December 31, 1935.

Total number of all kinds of Tuberculosis on record in the city ....	848
Pulmonary tuberculosis .....	467
Hilum tuberculosis .....	311
Other forms .....	70
New cases of Tuberculosis reported during the year—all kinds ....	104
Pulmonary tuberculosis .....	83
Hilum tuberculosis .....	13
Other forms .....	8
Under pulmonary tuberculosis (minimal cases reported) .....	7
Disposition of New Pulmonary Tuberculosis Cases	
Admitted to sanatoria .....	55
Moved away .....	3
Reported by death certificate .....	9
Admitted to the Peabody Home (Pulmonary and T. B. Dorsal Spine) .....	1
At home — working or under own physician .....	13
On waiting list for sanatorium treatment .....	2
Disposition of New Hilum Tuberculosis Cases	
Admitted to North Reading State Sanatorium .....	3
At home under supervision of dispensary .....	10
Disposition of New Other T. B. Cases	
Admitted to Lakeville State Sanatorium .....	5
Reported by death certificate .....	2
At home under treatment .....	1
T. B. Other cases reported were:	
T. B. Eyes .....	1
T. B. Peritonitis .....	1
T. B. Endometritis .....	1
T. B. Uterus and tubes .....	1
T. B. Sternum .....	1
T. B. of Axillary Lymph Nodes .....	1
Renal tuberculosis .....	1
T. B. Meningitis .....	2
Cases admitted to Norfolk County Sanatorium during the year ....	64
Cases discharged from Norfolk County Sanatorium during the year .....	71
Condition on discharge	
Arrested cases .....	20
Left against advice — unimproved .....	7
Indefinite leave of absence to return once a week for refills .....	13
Transferred to Central New England Sanatorium .....	1
Dead .....	25
Quiescent .....	2
Non T. B. ....	3

North Reading State Sanatorium	
Admitted to sanatorium during the year .....	8
Cases discharged during the year .....	15
Condition on discharge	
Arrested cases .....	12
Chronic Empyema — improved .....	1
Malnutrition — unimproved and advised to be admitted to general hospital for further observation and diagnosis .....	1
Lakeville State Sanatorium	
Admitted to sanatorium during the year .....	5
Cases discharged during the year .....	4
Condition on discharge	
Arrested cases .....	1
Dead .....	1
Non T. B. ....	2
Number of deaths reported during the year .....	50
Pulmonary tuberculosis .....	47
T. B. Other .....	3
New living cases added to the register exclusive of Hilum .....	81
No. of cases transferred from city (exclusive of Hilum) by death or moved away or other causes .....	58

#### "Clinics"

Attendance for the year .....	1892
New cases added to clinic register .....	348
Number of contacts examined .....	793
Mantoux Tests done in the clinic .....	230
Total number of X-rays taken at Norfolk County Sanatorium .....	126
Number of children admitted to Norfolk Preventorium for eight weeks treatment during the summer .....	44
Total number of nursing visits made .....	2673
Number of sputums examined during the year .....	292
Children referred for T & A operations .....	32
Practically every child needed dentistry	
Vaccinations done .....	15

Respectfully submitted,

GERTRUDE T. RUSSELL, R. N.,

EILEEN GARRITY, R. N.,

Dispensary Nurses.

January 1, 1936.

Dr. Richard M. Ash, Commissioner of Health

Quincy, Massachusetts.

Dear Dr. Ash:-

It is my privilege to submit to you the report of the Child Welfare Clinics of Quincy for the year ending December 31, 1935.

## Statistics

Total Clinic Registration .....	2102
Well Baby Clinic Registration .....	1784
New Registrations 1935 .....	566
Preschool Clinics .....	135
New Registrations 1935 .....	81
Orthopedic Clinics .....	183
New Registrations 1935 .....	18
Total New Registrations .....	665
Number of Clinics .....	300
Well Baby Clinics .....	276
Preschool Clinics .....	12
Orthopedic Clinics .....	12
Total Clinic Attendance .....	8329
Well Baby Clinics .....	7940
Preschool Clinics .....	256
Orthopedic Clinics .....	133
Total Home Visits by Nurses .....	4933
Babies under 1 Year .....	2919
Babies under 2 Years .....	1141
Preschool Children .....	710
Boarding Homes .....	163

The Child Welfare Clinics were held weekly in South Quincy, Quincy Center, Quincy Point, Atlantic, Wollaston; bi-monthly in Houghs Neck; monthly at Squantum.

The Clinic attendance has been as follows:-

Station	Day	Attendance	New Cases
South Quincy	Monday	1477	77
Wollaston	Tuesday	1312	84
Houghs Neck	Tuesday	419	40
Quincy Point	Wednesday	1574	127
Quincy Centre	Thursday	1572	122
Squantum	Thursday	116	5
Atlantic	Friday	1470	111

The Statistics for 1935 compared with those of 1934 show that the same number of clinics were held each year. There is a slight increase (80) in the total registration for 1935, but a marked decrease in the number of new cases registered (398). In the Well Baby Clinic the new registration decrease for 1935 was 248, in the Orthopedic Clinic 119, and in the Preschool Clinic 31. The total clinic attendance was slightly increased in 1935 (53). Both the Well Baby Clinic and Preschool Clinic showed increased attendance; the Orthopedic Clinic a decrease in attendance. The number of home visits made by the nurses shows a marked increase (676).

### Reference of Children

During the year 281 children have been referred from the clinics to the care of local physicians, dentists, or hospital.

Referred for Medical Care .....	224
Referred for Dental Care .....	33
Referred for Hospital Care .....	24

### Volunteer Help and Acknowledgements

Much appreciation is expressed for the continued interest and helpfulness given to the clinics by Mrs. Nelson Knight, a member of the Junior Welfare League, who acts as recording secretary weekly at the Quincy Clinic and Preschool Clinic, members of the Wollaston Woman's Club, who serve as helpers in recording the weights of babies in the Wollaston Clinic, and Miss Alice G. Thompson who has given five consecutive years as recorder at the Atlantic Clinic.

During the Spring, Mrs. Knight arranged an exhibition of self-help clothing for toddlers.

We appreciate the privilege of holding clinics in Woodward School, Wollaston Branch of the Thomas Crane Public Library, Knights of Columbus Hall at Atlantic, Italian Hall, South Quincy, Methodist Church at Squantum, and the City School Building at Quincy Point and Houghs Neck.

Mrs. Nettie D. Fowler and Miss Mary Marr, Child Welfare Nurses, have accomplished an unusually large volume of work this past year with a high degree of efficiency and satisfaction to those they have served.

For your cooperation, I wish to thank you as Commissioner and the members of your Department of Health.

Respectfully submitted,

RACHEL L. HARDWICK, M. D.,  
Child Welfare Physician.

January 1, 1936.

Dr. Richard M. Ash,  
Health Commissioner.

Report of Child Welfare Nurses for the year of 1935.

Total registration during the year 1935 .....	2102
Total registration active January 1, 1936 .....	1007
Total new babies registered in 1935 .....	665
under 1 year .....	382
between 1 & 2 years .....	191
preschool group .....	92
(orthopedic .....11)	
(preschool clinic 81)	
Removed from roll .....	1095
Deaths .....	6
Mead (3 months) suffocation	
Pangraze (6 months) Pneumonia	
MacNeil (3 months) Encephalitis	
Rubic (7 months) Pneumonia	
Webster (6 months) Hydrocephalus	
McGee (5 years) Brain Tumor	
Inactive for 6 months or more .....	449
Moved from city (241 families) .....	405
Over clinic age .....	141
Entered preschool clinic .....	55
Returned to institutions .....	39
No. of visits to clinic under 1 year .....	5148
No. of visits to clinic over 1 year .....	3181
Total clinic attendance .....	8329
No. of children visited at home:	
under 1 year .....	2919
between 1 & 2 years .....	1141
between 2 & school age .....	710
inspection of boarding homes .....	163
Total number of calls made .....	4933

Quincy News Contest, babies weighed & measured in August ....	278
No. registered boarding homes .....	11
Assistance to other nurses when necessary.	
Babies referred to Quincy City Hospital .....	17
" " " " Mass. Eye & Ear Infirmary .....	2
" " " " Children's Hospital .....	5
" " " " T. B. clinic (mother & child check-up) .....	8
" " " " dental clinic .....	21
" " " " private dentist .....	12
" " " " Habit clinic .....	7

Various reasons for referring:

Upper respiratory	Torticollis
Cervical Adenitis	Anemia
?Whooping-cough	Pyloric Spasm
Otitis Media	Pyloric Stenosis
Swelling Thoracic Vertebra	X-ray
rashes	Schick test
convulsions	check on vaccination
Hydrocele	infected scalp

Ring Worm  
tongue tie  
urinalysis  
Granuloma  
T & A  
Worms

Hernia (Inguinal)  
VonPerquet test  
local infections  
Toxoid  
Mongolism

Clinics were held from 2 to 4 p. m. at Italian Hall, South Quincy on Mondays; Pollard School, Quincy Point on Wednesdays; Woodward Institute on Thursdays; K. of C. Hall on Fridays; and from 9 to 11 a. m. at Library Building, Wollaston; the 2nd and 4th Tuesdays at Lyceum Hall, Houghs Neck; and 2nd Thursdays at Squantum.

A preschool clinic is held on the third Tuesday of each month and an Orthopedic clinic on the third Thursday of each month at 2:30 p. m. Dr. Doherty is in charge of the Orthopedic clinic. Dr. Hardwick and Dr. Gorin have had charge of all other clinics.

Well baby clinics .....	276
Preschool clinics .....	12
Orthopedic clinics .....	12

## QUINCY HABIT CLINIC

## Annual Report

The termination of the year 1935 provides an opportunity to the Massachusetts Division of Mental Hygiene to report on the activities and the results of another year's program in the Quincy Habit Clinic. These results, by their very nature, do not lend themselves favorably to presentation by a formal statistical report alone. The scope of a Mental Hygiene program, with its numerous implications, could not be adequately portrayed, nor justice done if it were one to attempt only a numerical portrayal. Therefore this report is both a descriptive and statistical account of the clinic's activities.

The significance of Mental Hygiene to persons in more or less acute states of maladjustment, as well as in its numerous applications to all phases of life, is everywhere accepted today. Mental Hygiene only achieves its full purpose when it assists in the successful adjustment of the individual to his whole life. Preventing problems, rather than waiting for them to develop, is the goal of Mental Hygiene. Better realization of the value of prevention, and a keener recognition of early signs of emotional difficulty on the part of parents and others concerned with the welfare of children, have increased their desire for early guidance.

Gratifying as are the immediate benefits to a child from the application of Mental Hygiene principles, these are relatively insignificant, and by no means the total measure of their value as compared with the ultimate benefits observed in his successful adjustment to later life. In other words, the manner in which a child is taught to meet

his early life situations determines how he will meet the ever-increasing complexities of later life; therefore, this essential guidance constitutes one of the tasks confronting the Mental Hygienist.

The clinic service to children has continued with a justifiable feeling of achievement, and has to its credit an encouraging record of success in the solution of the many problems presented by children and parents. It has endeavored to meet the ever-increasing demands for correcting behavior and personality difficulties, assisting in effecting better school adjustments and preventing delinquency, in spite of the fact that there have been times when increased personnel seemed imperative. For each of the cases under its care, the clinic has provided the best program of study and treatment, of which the staff have been capable. Scientific advance has made it possible to conduct more thoroughly the different approaches utilized in the clinics. The interprofessional relationships within the clinic are co-ordinated in such a manner as to demand, not only participation by the entire clinic staff in the study of the case, but also continued team work in the treatment, so as to make for real benefit and advantage to the patient, and the total family situation. One of the greatest steps forward has been intensive treatment of parents who have been given insight and understanding that have helped them, not only with their particular problem child, but also in many of their other family responsibilities. One is impressed time and time again in his work with unadjusted children with the fact that many times the child's problem is but secondary to the many problems in the situation from which he comes.

The educational activities of the clinic have increased in scope, as well as in numbers, and continue to occupy a place of major importance in the total picture of the clinic's program.

One of the chief objectives in the educational program has been to awaken the community to their responsibility in any program that relates to the child. It is their responsibility to see that the child's needs are safeguarded and to co-operate with the clinic to this end. Community influences may be and usually are of paramount importance in either impeding or furthering clinic efforts in the correction of the child's problems. Therefore, it is logical to state that the local agencies play an important role in the program outlined by the clinic. Assisting them in mobilization against activities that are detrimental to the child's welfare also constitutes a portion of the clinic activities, the ideal being a close working relationship between all agencies in the community for the good of the child in his totality.

Co-operative endeavor between clinic and the schools has continued with increasing success toward conservation of the mental health of school children. The school, next to the home, is the greatest influence in the life of the child, and not only is the teacher in a most important position to detect early indicators of a social behavior, but she also serves as an invaluable person in any treatment program. Especially is this so when one deals with school problems. Although real strides have been made by many in the field of Mental Hygiene in the matter of education of the teachers in the child's psychological needs, there still remains a need for a broader and understanding of his personality on the part of the teachers, as well as an appreciation of the most expedient ways of bringing out the best in him. One cannot overemphasize the important place which the school holds, both as a diagnostic and treatment agency.

In Quincy, the staff of the Habit Clinic, on the invitation from the schools, have taken the opportunity to study the local educational system in considerable detail, surveying not only the major aspects of the curriculum activities, but also the various personalities of the

teachers in each system, all of which has meant clearer orientation by the staff as to policies and procedures in the school, as well as to the individual teachers, each with her peculiar assets and liabilities. The advantages of such a process of inquiry are too numerous to mention, but may be summed up in the conclusion that the clinic is better able to prescribe for the child after the particular school system has been appraised. Then, too, the clinic recommendations are more readily accepted and effected with better understanding by the school group, as the result of this interrelationship and co-operation between the two professional groups.

One of the most helpful and significant developments of the clinical service has been the instituting of a tutoring service for children who have presented one type or another of educational disabilities. Because of the meager tutoring facilities that exist for meeting this particular need in children, the ability of the clinic to provide it has brought to the schools a service which they have welcomed with genuine gratitude. The schools' interest in that one type of service has increased their awareness of the contribution that Mental Hygiene has to offer them in their educational efforts with children, and has prompted them to utilize the clinic for other existing problems with which they had learned the clinic dealt.

One of the more common types of educational disabilities is that of a reading difficulty. The term "reading disability" implies that the child has ability in other fields than reading. If one were to make an educational profile of these children, one would find that they usually show failure in the fields of reading, spelling, and language, but rate relatively higher in other subjects not requiring language ability. If space permitted, one might cite many such cases to illustrate, not only how the child's progress in school is embarrassed, but also the effect which this disability may have on his whole personality development.

The clinics have been most fortunate in obtaining two trained specialists in this field, who have volunteered their services two afternoons a week in the correction of reading difficulties in children of normal intelligence, and whose inability to read is explainable by factors other than intellectual equipment. That this special help offers very definite assistance to the scholastic progress of the child, as well as to his mental development as a whole, has been recognized by those who have had an occasion to contact these children. A study of many children manifesting unacceptable patterns of behavior has shown that their maladjustment was related to their inability to grasp the fundamentals of reading as taught by the regular classroom methods. Such children must be instructed individually, and the methods vary in accordance with their needs, as determined by special tests developed for this purpose. Enumerable personality traits of an undesirable sort have been found to be exaggerated by reason of the child's inability to accomplish the prescribed school work. One child with a strong desire for attention, but unable to obtain it through scholastic achievement, assumed a superior attitude, became arrogant and insubordinate, and eventually utterly unmanageable in the classroom, all in an attempt to compensate for his inability to succeed in his school work. As soon as he learned to read and spell, and was able to stand on a par with others in his group, his personality difficulties subsided.

This special service within the clinic has strengthened the school-clinic relationship in still another direction; namely, by further encouraging clinic visiting by teachers, who come down to observe the tutors in their approach and technique employed by them in the

reading problems, as well as to receive instruction in the proper methods of teaching these same children in the classroom.

The year's activity has exceeded that of all previous years.

The staff of the Division of Mental Hygiene wish, at this time, to thank the Health Commissioner, the School Department, and others in the community who participated to make the past year in the clinic, not only a productive one, but also a very pleasant one.

Respectfully submitted,

OLIVE A. COOPER, M. D.,

Assistant to Director,  
Division of Mental Hygiene.

### REPORT OF ORTHOPEDIC CLINIC

The following is a report of twelve clinics attended by Dr. John L. Doherty from January 1935 - December 1935 inclusive:-

121 children have been examined—forty-eight were new admissions, seventy-three for follow-up examination.

#### Classification of Conditions Found in the New Patients

Pronated feet .....	11
Knock Knees and pronated feet .....	7
Bow Legs .....	10
Faulty Posture .....	0
Flat Feet .....	19

## Food Establishments in Quincy

Markets .....	141
Stores .....	136
Restaurants and lunch rooms .....	81
Fruit stores .....	56
Bakeries and food shops .....	24
Creameries .....	11
Delicatessen .....	4
Fish markets .....	65
Beer and wine licenses serving food .....	79
Confectionery stores .....	15

Each year brings its changes with some stores and markets in order to keep up with the progress of business with more up-to-date fixtures for handling and displaying their goods, of all kinds, especially meats and poultry.

Fish is a big factor on the market display counter today, the price has been very low most of the year, and the public will always find a great variety at all times to choose from.

Retail dealers that handle fish, should always remove it from the barrels at once on arrival to the store or market. Never use the ice from the receiving barrels, if one does, it will deteriorate your stock.

Good first quality heavy beef was not so plentiful this year, as in former years. The cuts of cheaper quality meat is good for food and many times suits the customer as well or better, for it is leaner.

Poultry was plentiful of all kinds with the price holding a little firmer than last year, for the holiday trade.

Vegetables of all kinds were plentiful and a remarkable large assortment of all kinds to select from, and prices low. Potatoes were much higher the first four winter months of this year.

On inspections of markets, and stores, on holidays, we found conditions good, with very few complaints, which were attended to at once. Service is our motto in this office to the public at all times.

Respectfully submitted,

HOWARD ROGERS,

Inspector of Meats and Provisions.

## REPORT OF RESTAURANT INSPECTOR

Milk Inspector.

January 1, 1936.

Richard M. Ash, M. D.  
Health Commissioner.

Dear Dr. Ash:-

I hereby submit my report for the year 1935, as Inspector of  
Animals and Slaughtering.

Number of dogs quarantined .....	135
"    " cows inspected .....	87

Respectfully submitted,

EDWARD A. DEVARENNES, V. S.,  
Inspector of Animals.

January 1, 1936.

Richard M. Ash, M. D.  
Health Commissioner.

Dear Sir:

I respectfully submit my report as Inspector of Plumbing from August 15th to December 31st, 1935, inclusive.

Applications filed .....	190
Received for permits .....	\$214.00
New buildings connected with sewer (new connections) .....	11
Dwellings .....	8
Home for aged .....	1
Gymnasium .....	1
Greenhouse .....	1
Old buildings for which permits were issued .....	179
Dwellings .....	140
Other buildings .....	39
New buildings for which permits were issued .....	11
Dwellings .....	8
Other buildings .....	3
Old buildings connected with Sewer .....	24
Dwellings .....	20
Other buildings .....	4
Buildings connected with cesspools .....	10
Buildings connected with septic tank .....	1

Respectfully submitted,

JEREMIAH J. CURTIS,  
Acting Plumbing Inspector.

## MORTALITY STATISTICS

**Number of Deaths and Death Rates.** During the year 1935, there were 645 deaths that occurred in Quincy, the same number that occurred during 1934. Based on the estimated population of 77,428 for July 1 (mid-year), the crude death rate was 8.3 per 1,000 population compared with a rate of 8.5 per 1000 for 1934. <sup>(1)</sup>

Of the 645 deaths in Quincy, 54 were among non-residents. There were 140 Quincy residents who died outside the City so that the number of resident deaths for the year was 731 compared with 740 resident deaths during 1934. The resident death rate for 1935 was 9.4 per 1,000 estimated population compared with a rate of 9.7 for 1934.

In the past it has been customary to base the mortality tables on the deaths actually occurring in the City regardless of the usual place of residence. The tables for 1935 are based on resident deaths, that is, non-resident deaths in Quincy are excluded and resident deaths outside the City are included.

**Sex.** Of the 731 resident deaths during 1935, 409 or 56 per cent were males and 322 or 44 per cent were females. The proportion of males in the living population as shown by the United States Census of 1930 was 49.3. The death rate for males was 11.7 per 1000 estimated male population compared with a rate of 8.7 for females. The death rate for males has been consistently greater than the death rate for females but is not usually so much greater.

**Age.** Of the 731 deaths in 1935, 40 or 5.5 per cent were of infants under one year of age. A more detailed discussion of infant mortality may be found in a following paragraph.

**Nativity.** More than sixty per cent (61.0) of the decedents were native and 39.0 were foreign.

**Infant Mortality.** The infant mortality for Quincy in 1935 was 36.6 per 1,000 live births, the lowest rate on record. Reference to Table 5 shows in striking manner the remarkable reduction in the infant mortality rates since 1900.

The highest proportion of infant deaths occurs in the early period of infancy and especially is this true of the first few days. In 1935, 20 deaths occurred in the first week, constituting 50 per cent of all deaths under one year of age. On the first day the percentage of deaths (32.5) was higher than on any other day. In the first month of life there were 21 deaths, or 52.4 per cent of all infant deaths. This percentage is somewhat lower than for many years.

Ninety per cent of 20 babies who died less than one week after birth died of prematurity, congenital debility, malformations, or injuries received at birth. The second most important cause of infant deaths—pneumonia—claimed 11 or 27.5 per cent of the babies who died before reaching one year of age.

**Heart Disease,** as usual was the leading cause of death during 1935, the total number being 189 or 25.9 per cent of all deaths corresponding to a rate of 245 per 100,000 population.

**Cancer and other Malignant Tumors** caused 96 deaths in 1935 compared with 110 deaths in 1934. The rate per 100,000 population for 1935 was 124 compared with a rate of 144 in 1934.

**Cerebral Hemorrhage, Cerebral Embolism and Thrombosis** were the cause of 18 deaths in 1935 or a rate of 23.3 per 100,000 population.

**Pneumonia** caused 55 deaths corresponding to a rate of 71 per 100,000 population.

**Bright's Disease and Acute Nephritis** were the cause of 60 deaths corresponding to a rate of 78 per 100,000 population.

**Tuberculosis** in its various forms claimed 46 victims in 1935, of whom 42 died from tuberculosis of the respiratory system. The death rates from all forms of this disease was 59 per 100,000 population. In 1934, there were 35 deaths with a rate of 46, the lowest in the history of the City. Fifty years ago, the annual death rate from tuberculosis was over 300 per 100,000. Twenty-five years ago the rate was about 160, and even ten years ago, it was almost 100. (See Table 4)

**Maternal Mortality.** Deaths from puerperal causes in 1935 totalled 8 corresponding to a rate of 72 per 10,000 total births. The rate for 1934 was 68. The average annual maternal death rates per 10,000 total births for five year periods since 1901 are as follows:-

1901-05	40
1906-10	51
1911-15	62
1916-20	64
1921-25	47
1926-30	66
1931-35	63

**Reportable Diseases.** The number of deaths and death rates from epidemic and infectious diseases for 1935 are shown in Table 3. The death rates since 1876, for certain of these diseases are shown in Table 4.

**Automobile Accidents and Injuries** caused 17 deaths in 1935 corresponding at a rate of 22 per 100,000 population. From automobile accidents which actually occurred in Quincy, there were 8 deaths.

(1) Adjustments were made in the 1934 rates following the announcement of the 1935 census. The adjusted rates are slightly higher than those originally published.

## REPORT OF BOARD OF MANAGERS

*To His Honor the Mayor, the President and Members  
of the City Council,  
Gentlemen:*

The Board of Managers of the Quincy City Hospital herewith submits its report for the last five months and one-half of 1935, the term the present Board has been in office, and is including in this report the departmental reports made by the several departments of the Hospital for the entire year of 1935.

At the time our Board assumed office, in the middle of July, we were faced with the problem of considerable reorganization in the management of the Hospital. Upon the resignation of the Superintendent, it was found necessary to appoint a temporary Superintendent, and on recommendation of the Active Staff of Doctors Miss Bernadette Boutin was made temporary Superintendent and Miss Barbara Hobbs her assistant. The Board wishes to go on record publicly and commend these two members of our staff of nurses for their ability and helpfulness in the active management of the Hospital under rather trying circumstances during the interim between the resignation of Miss Constantine and the appointment of our new Superintendent, Dr. Joseph P. Leone.

Doctor Leone, a graduate of the University of Rochester, New York, and the Rochester School of Medicine and Dentistry, came to us from the Rhode Island Hospital — where he had served five years as an Assistant Superintendent. In the short space of time of less than five months he has reorganized the Nurses Training School staff, reorganized the method of booking patients, introduced new methods of handling of patients' accounts, established a cooperative relationship between the Staff and the Management of the Hospital, and, we firmly believe, has already done much to establish public confidence in the active management of the Hospital.

With the rather limited funds available for new equipment we are gradually modernizing our kitchen and service departments and adding to our equipment in other departments. We are especially gratified that the erection of the new Administration Building is actually in sight, and firmly believe that with the completion of this building the City of Quincy will have one of the best equipped and most modern and efficient City hospitals in the State — if not in the whole country.

For the year 1935 the total receipts of the Hospital were \$172,553.34 — the total expenditures \$351,777.57 — the total cost of the Hospital to the City of Quincy, therefore, \$179,224.23

The total number of patients admitted to the house was 5,874, and the accident room treated 1,434 cases. The average cost per day per person was \$5.73. There were 1,129 ambulance calls during the year, and the average calls per day were 3+.

The Board of Managers wishes to express its appreciation of the co-operation and help of the Hospital Aid Associations, the Quincy Nurses' Association, and the Quincy Kiwanis Club. It also desires to thank all other associations and individuals who have assisted the Hospital with work and gifts.

## Board of Managers:

Joseph B. Groce, *Chairman*  
Mrs. T. Newell Lane  
Guy W. Hart  
Lawrence W. Lyons  
Franklin S. Nichols

## REPORT OF THE SUPERINTENDENT

*To the Board of Managers of the Quincy City Hospital,  
Gentlemen:*

Insofar as I have been at the Quincy City Hospital as its superintendent for the last three and a half months of the year 1935, it gives me great pleasure to submit to you the forty-sixth, and my first, annual report of the Quincy City Hospital.

With the splendid cooperation of the Board of Managers, the medical and surgical staffs, the nursing, housekeeping, dietary, and maintenance departments of the hospital, we have progress to report in the various undertakings which have been necessary for the smooth-running of the hospital for the care and welfare of the patients.

*No Changes in Personnel;  
Information and Messenger Service.*

Upon the entrance of the new administration at the hospital on September 15, 1935, there were no changes made in personnel. Miss Bernadette Boutin, who had successfully carried on as Acting Superintendent, stayed on as Assistant Superintendent. Admitting officers, Misses Minnie Harron and Alice Gray, were asked to stay. By instituting an information department and messenger service, the Admitting Office has been relieved of front door duty, thereby giving more time to the administration of the hospital and to the admitting and discharging of patients.

*Training School Office*

Miss Barbara Hobbs, who had been serving as Acting Superintendent of Nurses, remained as assistant to Miss Sara Adams, who came to Quincy September 1 to take charge of the Training School Office. Miss Marion McManus and Miss Priscilla Alger were obtained for instructors of the Training School. They also came to Quincy in September in time to help open the School of Nursing on September 15th. There were twenty-two students who were entered, as is noted in the report of the Superintendent of Nurses.

*New Office for  
Bookkeeping Department.*

In December, the bookkeeping department and cashier's office was moved nearer the corridor. Though the quarters are smaller, it is now more accessible for those paying hospital bills.

*Improved Telephone Service*

An opening and a window have been put in the wall of the telephone office (this window is off the main corridor) so that after the Information Desk is closed at the front door, visitors and others may get their information from the night telephone operator.

*Improved Internes' Quarters*

Rice I, which was closed for the most part during the summer, was opened as a male surgical ward this fall when the hospital census increased.

The walls of the internes' quarters on Rice II have been replastered and painted by the W.P.A. They are very attractive and worth the great inconvenience to which the House Officers were put during the alteration. The Internes' library has been moved from the Surgical Building to Rice II. A kitchenette has been set aside for the use of the internes on the same floor.

*New Workshop*

Already we have begun to transfer to the basement of Rice Building the workshops which were in the basement of the old Administration

Building to make room for the construction of the new Administration Building.

#### *New Plaster and Splint Room*

We are also planning to have a plaster and splint room in the basement of Rice Building, where patients will be brought to have plaster casts applied. At present this work is being done in the Operating Room.

The elevator in the Rice Building has been repaired and the elevator shaft painted by the W.P.A.

#### *Painting of Operating Room*

The Operating Room has been painted an attractive gray gloss with a cream colored ceiling. This was also a W.P.A. project. The hospital furnished the materials for this work as well as that done in the Rice Building.

I wish to thank Mr. George Pfaffman and Mr. Anthony Venna—also their department—for their cooperation and interest in the hospital E. R.A. and W.P.A. projects.

#### *Operating Room Supervisor*

Miss Aili Aalto carried on as supervisor of the Operating Room from the time that Miss Boutin left for the Front Office until Miss Mary Bailey came to direct the Operating Room on January 1, 1936.

### Dietary Department

#### *New dietitian;*

#### *Meatcutter added*

Upon the resignation of Mrs. Dorothy Reddington, dietitian, Miss Mollie Robinson, assistant dietitian, was appointed head dietitian, with Miss Edith Whittaker first assistant and Miss Ruth Irwin second assistant. About the same time, we established our own meat-cutting department managed by a meat-cutter who does other jobs in the storeroom as well. We have in this way been able to conserve our supplies and reduce expenses. The canned food supplies, formerly managed by the housekeeping department, are now controlled by the dietitian. A perpetual inventory is kept by the dietitian on all food.

#### *New Electric Refrigerators Installed*

During the year, three General Electric refrigerators were purchased and installed to replace the brine cooling system which was in need of repair. This installation has increased our cooling and storage facilities in the diet kitchen, cafeteria, and main kitchen to meet with the increasing number of patients and at the same time enhanced the neatness of our kitchens. A combination water-cooler has been installed in the Nurses' and Internes' dining rooms.

#### *Uniforms Adopted*

The waitresses, laundry help, maids, orderlies, housemen, and maintenance men have purchased their own uniforms. They are distinctive and have improved the neatness of the whole hospital.

#### *Locker Rooms for Employees*

Locker rooms and rest rooms, both for the men and women, have been moved from M&C basement to the Service Building which is more convenient and desirable for the employees. Employees are now able to lock their valuables and clothing in their respective lockers.

### Housekeeping Department

#### *Centralization of Supplies*

In order to centralize the housekeeping supplies, we have transferred all these items (linens, blankets, mattresses, etc.) to the basement of

the M&C Building. For service and efficiency, we find this change is working out most satisfactorily.

#### *Congestion in Laundry Relieved*

Because of the crowded conditions in the laundry, the linen room also was moved to the M&C basement. We hope to transfer the pressers and ironers from the laundry to the old linen room. This will facilitate the work in the laundry, which has been working under congested conditions for months.

#### *Patients' Clothes Room Established*

The patients' clothes room has been established in the basement of the M&C Building. Previously, the patients' clothes were kept on the wards. For sanitary reasons and for general appearances, this change was thought advisable. For each patient there is a clothes bag in the patients' clothes room. Upon the discharge of the patient, these bags are laundered.

#### *Record Room*

##### *Separation of Record Room and Bookkeeping Department*

With the approval of the Board, the record room and the bookkeeping department have been separated. In order that the work of the record room be done more satisfactorily and that the records be kept up to date, I feel that another stenographer will be necessary before long. During the year, the E.R.A. gave us some help. Upon their release, the record room has been very busy and has fallen behind in the typing of the records.

#### *Pharmacy*

##### *Centralization of Drug and Surgical Supplies*

To continue our plan for the centralization of supplies, all the surgical and medical supplies previously kept by the housekeeping department, Training School Office, Front Office, and the dietary department, have been moved to the drug department. Now all drugs and surgical supplies are issued by the pharmacist upon requisition. To carry on the work as it should be, another pharmacist will be necessary.

##### *Centralization of Food Supplies*

During the past three and one-half months of the year just passed, we have endeavored to centralize our food and other hospital supplies. The purchasing of all supplies is closely supervised by the Superintendent. We have been able to cut down on the cost of all supplies and still maintain the high standard of service, care, and treatment given to the patient. In spite of a rising market on food and general supplies, we are able to show a considerable saving for this period over a corresponding period in 1934:

Food Costs:	1934	1935
October	\$ 5,028.50	\$ 4,165.59
November	4,343.74	4,234.32
December	3,830.42	3,568.98
	<hr/>	<hr/>
	\$13,202.66	\$11,968.89

##### *Check-up on Breakage*

The breakage at the hospital was unbelievably large. By instituting a weekly check-up system and bringing to the attention of the hospital employees the cost of materials used, there was a noticeable drop in the amount of breakage. It will drop still further upon the installation of mechanical dishwashers in the ward kitchens.

*Predict Lower Cost in Maintenance*

Over a period of a year, I am sure that the cost of operating and the maintenance of our hospital will be at the most economical figures without interfering with the service to the patients and the personnel. This has been made possible through the interest and cooperation of the Board of Managers, the various departments of the hospital, and the employees.

*Maintenance Department**New Paint Shop and Quarters  
for Ambulance Drivers*

The basement of the old Administration Building has been renovated somewhat to enable us to arrange for a good sized paint shop and living quarters for the ambulance drivers.

*Hospital Painters Busy*

Gradually we are getting the single rooms on the wards painted. We are using oil and lead paint instead of water colors and adopting a new color scheme for the furniture as well as the rooms. The patients are quite pleased with this change because the rooms appear more attractive and cheerful.

Work has already begun on the air-conditioning of the Nursery.

*Fire Plug Installed*

Following the first fire drill ever held in the Quincy City Hospital during Fire Prevention Week, we learned that there were no fire plugs on the south side of the hospital buildings. Shortly thereafter, the city water works installed a new water line and fire plug between the Nurses Home and M&C Building.

*Physio-Therapy Department**New Basal-Metabolism Room*

With the help of the Commissioner of Public Works, Mr. Ezekiel Sargent, and the use of his men and apparatus, we were able to establish the basal metabolism room in this department. A window was cut through the basement wall of an old store-room. The room has been painted and is most attractive.

*E.R.A. Project*

The tennis court was completed this fall by the E.R.A. workers. Already many of the doctors and student nurses have played tennis.

*Ambulance**New Packard Ambulance*

A much need ambulance was delivered to the Quincy City Hospital in November. It is modern in every respect and has all the conveniences to meet with any emergency. Since the delivery of the ambulance, a House Officer accompanies the ambulance on all accident and maternity cases. The old ambulance will be kept in repair — ready and available for service.

*New Portable Garage*

Ten days before the new ambulance arrived — and again with the aid of the Commissioner of Public Works, Mr. Sargent, a tin portable two-car garage was erected at the rear of the old Administration Building. It is heated and lighted, and has a concrete floor. The new ambulance and the garage have met a long felt need of the hospital.

*Cooperation of Quincy Police Ambulance*

At this time I wish to thank the Quincy Police Department for the fine work it did in cooperating with the hospital to give the city of

Quincy adequate ambulance service. In emergencies, we still call on the Police Department for help.

#### *Children's Christmas Party*

One of the high lights of the year was the first Children's Christmas Party, held on December 20th, which was supported by the Kiwanis Club and other friends of the hospital.

On Thanksgiving and Christmas, the patients who were able to sit up were allowed to eat their dinner at a banquet table.

#### *Employees' Party*

The first Quincy City Hospital Employees' Christmas Party and Dance was held in the Nurses Home on December 20th.

#### *Nurses' Alumnae Room*

At this time I wish to thank the Alumnae Association of the Quincy City Hospital for their help and generous support. They paid for the furniture for the Nurses' Alumnae Room on M&S III. I hope that the Alumnae will maintain their interest and support of the hospital, its school for nurses, and all for which the Quincy Hospital stands.

#### *Contributions Appreciated*

I wish to take this opportunity to thank our many good friends who have contributed in one way or another in making the work at the hospital pleasant and less difficult.

#### *Cooperation of Employees and Staff*

Employees have been most faithful, and only with their energetic help and cooperation have we been able to accomplish so much, especially in the past three and a half months. The help and splendid cooperation of the nurses, consulting, active, and courtesy staffs has been appreciated by the administration and the patients treated at the hospital during the past year.

#### *Help of Welfare Department Appreciated*

I wish to take this opportunity to express our appreciation for the help given us by the City Welfare Department. With the aid of Mr. Alvin Wight and Mr. George Loftus, a great deal was accomplished at various times during the year in the housekeeping and maintenance departments.

To the Board of Managers, the City Departments, Mayor Thomas Burgin, City Auditor George Bonsall, I give my hearty thanks for their cooperation with the administration in the smooth-running of the Quincy City Hospital.

#### *Hospital Needs*

Hospital needs and the order of their necessity are as follows:

1. Stenographer for the record room.
2. Secretary to the Superintendent and Administrative Offices.
3. Assistant pharmacist.
4. Electric dish washers and dish warmers for all wards.
5. Screening of porches on children's ward.
6. Enclosing the solarium of the M&C and M&S Buildings to be used by the patients and their visitors as well as provide extra bed space for emergencies.
7. Over-bed and bed-side tables for ward patients.
8. Providing cellar space to the north wing of the M&C Building.
9. New wing to the Nurses Home.

Respectfully submitted,

JOSEPH P. LEONE, M.D.  
*Superintendent*

## GENERAL INFORMATION

The Quincy City Hospital is a city institution supported by the city of Quincy and the receipts from patients.

Private patients, as well as part-pay and free patients, are admitted to the hospital upon recommendation of any physician.

Only those unable to pay a doctor's fee will be admitted to the ward service.

Application for admission should be made at the Admitting Office on Whitwell Street between the hours of 9 A.M. and 4 P.M. Maternity cases are admitted at any time. Accident or emergency cases are received in the Accident Room at any time.

Patients suffering from mental or chronic diseases are not admitted to the hospital.

## Rates

## 1. General

Wards — \$3.00 a day.  
 Wards Private — \$4.00 a day.  
 Semi-private — \$4.50 a day.  
 Private Rooms — \$5.00, \$6.00 a day.

## 2. Maternity

Wards — \$4.00 a day.  
 Semi-private — \$5.00 a day.  
 Private Rooms — \$6.00, \$7.00 a day.

These charges include board, general nursing care, and ordinary medicines. An operating room fee of \$10.00 for majors and \$5.00 for minors, is made. A laboratory fee of \$5.00 is made on all specimens obtained from operations in the operating room. This examination is required by the American College of Surgeons. Extra charges will be made for X-ray examinations, special medicines, Physio-therapy treatments, special laboratory examinations, apparatus, board of special nurses, oxygen, professional donors, and ambulance service.

Private patients are required to pay one week's board and the operating room fee or delivery room fee on admission. Patients coming from outside of the city are expected to have a private physician, a member of the Quincy City Hospital Attending Staff. Patients must arrange with their private physicians regarding their fees. The physicians on service receive no remuneration for their services to the ward patients.

The hospital reserves the right to move to the open ward a patient occupying a private or semi-private room who fails to pay his bill for hospital service within 72 hours of presentation.

## Visiting Hours

## 1. Adults

Wards: 2-3 P.M., daily, 2 visitors at a time.  
 7-7:30 P.M., daily, 1 visitor at a time.  
 Semi-private and Ward Private: 2-4 P.M., daily, 2 visitors at a time.  
 7-8 P.M., daily, 2 visitors at a time.  
 Private Rooms: 11 A.M. — 8 P.M., daily, 2 visitors at a time.

## 2. Children.

2-3 P.M., Wednesdays and Sundays, 2 visitors on each of these days.

Patients who are dangerously ill may have two visitors at any time. Children under 14 years should not be brought to visit patients.

Visitors may bring only fruit, flowers, and reading matter to adults. These gifts must be left at the Information Desk or with the nurse on the ward, and must not be given to the patients. Only toys may be brought to the children's ward.

At 3 P.M., on inquiry at the Information Desk, the relatives of patients may talk with the physician in charge.

Patients may be visited by clergymen of their selection and, so far as possible, the hospital will grant the performance of any desired religious rites.

#### Private Nurses

Arrangements for special nurses should be made through the Admitting Office upon consultation and advice of the attending physician. The salary of the special nurse is paid direct to her by the patient or relatives. The hospital makes a charge of \$5.00 a day for her board. Quincy City Hospital graduates, when available, are given preference.

#### *Miscellaneous Information*

##### Telephones

There are telephone connections in all private rooms. Instruments may be installed with the permission of the attending physician. There is an extra charge for this service.

##### What to Bring

Private patients entering the hospital should bring with them night-gowns, bathrobe, slippers, comb, tooth brush, and tooth paste. Maternity patients are requested not to bring clothing for the baby to wear in the hospital.

##### Valuables

Money and other valuables must be deposited with the Admitting Office upon admission; otherwise no responsibility will be assumed.

##### Library

The Thomas Crane Public Library maintains a branch at the Quincy City Hospital. Books are obtainable from the Librarian, who visits each floor between 2 and 5 P.M. on Mondays, Wednesdays and Fridays.

##### Suggestions

It is requested that any suggestions for improvement of service be made at the superintendent's office before the patient leaves the hospital.

## REPORT OF THE PRESIDENT OF THE STAFF

*To the Board of Managers of the Quincy City Hospital,  
Gentlemen:*

*Changes in Personnel*

Since the mid-summer of 1935, many radical changes have been made which are reflected in the improvement in our hospital personnel, better coordination, and a more efficient organization.

A new and very cooperative Board of Managers was appointed, and, after carefully looking over the field, they selected for our executive a physician well trained in hospital management.

Repeated conferences between our superintendent and the staff have led to closer relationship between hospital, physician and patient.

*Reorganization of Services*

The Active Staff of the hospital has been reorganized, and an extra surgical service has been approved by the Board of Managers. The obstetrical service has also been reorganized and three extra physicians appointed to assist the chief obstetrician.

*Consultants Appointed*

A Consulting Staff of Physicians, Surgeons, and Pediatricians, connected with the larger Boston hospitals, have accepted appointments to our Consulting Staff. Since they have been appointed to the various departments, we feel the service patients have the best medical service available.

*Ward Rounds Instituted*

There is a large number of very interesting cases admitted to our wards weekly, and with our well equipped laboratory and X-ray departments, we are all able to study our cases more scientifically. We have instituted weekly a grand ward visit, inviting any physician in Quincy or the South Shore to accompany us. This is in accord with the large teaching hospitals in the country. Since the inauguration of these visits, the attendance has been satisfactory.

With such a large and thoroughly equipped hospital in Quincy, a well trained staff, thorough cooperation with our superintendent and the Board of Managers, the citizens of Quincy are ably served during their stay in the hospital.

We are sorry to report the deaths of Dr. John Jenks Thomas and Dr. Samuel W. Ellsworth, both of whom served in the capacity of consultants and who gave generously of their time to the hospital staff.

Respectfully Submitted,

WILLIAM J. McCAUSLAND, M.D.

*President of Staff*

## REPORT OF THE STAFF PROGRAM COMMITTEE

*To the Board of Managers of the Quincy City Hospital,  
Gentlemen:*

*Increased Attendance*

The Committee on Arrangements for the Staff Meetings for the year 1935-36 has tried to prepare a more attractive schedule, which has resulted in an increased attendance, to date, of both the Active and Courtesy Staffs.

*More Interesting Meetings*

The newly appointed consultants for the various departments are to meet the Staff and give papers on their respective specialties. The first of these papers, "The Control of Infantile Paralysis," was presented by Dr. Canon Ely at the November meeting. It is also the desire of the committee that the Active Staff contribute clinical talks on the work being done by the various services of the hospital.

*Pathological Conferences*

There are held monthly Clinical Pathological conferences at which the internes and Pathologist discuss the clinical cases with special reference to the post mortem findings. These conferences are expected to give a more scientific approach to the study of disease and conform with the requirements of the American College of Surgeons.

Respectfully submitted,

FRANCIS P. MCCARTHY, M.D., *Chairman*  
J. EDWARD KNOWLTON, M.D.  
DAVID H. MONTGOMERY, M.D.

---

## REPORT OF THE RECORD COMMITTEE

*To the Board of Managers of the Quincy City Hospital*  
*Gentlemen:*

During the year 1935, the Record Committee attempted to interest the cooperation of the Staff in having more complete hospital records—especially before filing them. This was not altogether satisfactory, and it is hoped that more pressure will be brought in the coming year so that our records will comply with the American College of Surgeons requirements.

Respectfully submitted,

FRED A. BARTLETT, M.D., *Chairman*  
ROBERT L. COOK, M.D.  
WILLIAM L. KRIEGER, M.D.

---

## REPORT OF THE MEDICAL SERVICE

*To the Board of Managers of the Quincy City Hospital*  
*Gentlemen:*

*Dr. John Ash Resigns*

As in the past, the Medical Staff have carried on to the best of their ability in rendering their service during 1935. During the year Dr. John Ash voluntarily resigned, and Dr. Rappeport has been appointed by the Board of Managers to fill the vacancy.

*Death Takes Dr. Thomas*

We sincerely regret the loss of Dr. Thomas, our esteemed and long-time neurological consultant. Dr. Thomas, a man of unquestioned ability and kindly attitude, served for many years as consultant to the Quincy City hospital. We truly miss his diagnostic ability and his sound judgment, and will ever remember his willing and friendly co-operation in his very many visits to our hospital patients.

*Dr. Locke*

The same feelings apply to Dr. Edwin Locke who has accepted a place of great honor and responsibility at Williams College. We extend to him our congratulations and good wishes in his new field of duty.

*New Consultants Added*

We cordially welcome our recently appointed consultants, Dr. Phipps and Dr. Evans. We hope and believe that these able consultants will find this association with the Quincy Hospital a worthwhile connection, and both they and the staff will look forward to hours of mutual benefit and profit.

Respectfully submitted,

C. J. LYNCH, M.D.

*Medical Staff*

## REPORT OF AURAL SERVICE

*To the Board of Managers of the Quincy City Hospital  
Gentlemen:*

During the year 1935, the aural service has enjoyed full cooperation with the various staff services and members.

Statistics of the aural work performed at this hospital during 1935 are as follows:

Service Tonsils .....	352
Service Mastoids .....	10

Respectfully submitted,

W. J. HARKINS, M.D.

*Chief of Service*

## REPORT OF PEDIATRIC SERVICE

*To the Board of Managers of the Quincy City Hospital  
Gentlemen:*

*Aim of Service*

The duties of the pediatrician in charge of the service also include supervision of the newly born service babies. It has been the aim of the pediatric service to follow certain principles as much as possible:

1. To make a *teaching* service as far as possible.
2. To refer all cases to the Social Service Department and, when necessary, to plan by conference with the social worker some workable future for those children where a medico-social problem exists.
3. To make the service useful both to the physicians and to the citizens of Quincy.

Occasionally certain highly specialized types of diseases are admitted that could be better treated in special hospitals. In such cases, these children are promptly transferred to the appropriate hospital. It is to be regretted that the pediatric service is not used more both by the physicians and the people of Quincy.

A diagnosis file is kept whereby it is possible to ascertain how many cases of the same diagnosis have been admitted previously.

The charts of all newly born service babies who are on artificial feeding are inspected daily by the pediatrician.

#### *Air Conditioning of Nursery*

*Air conditioning* is soon to be installed in the Nursery. For premature babies this is probably one of the most important ways to cut down the mortality. It has been noticed that a temperature of 76°, along with a humidity of 65%, decreases the pneumonia rate to a tremendous extent.

#### *Need for Convalescent Home for Children*

In closing, I should like to mention the fact that to my mind one of the most crying needs in Quincy at the present time is a convalescent home for children. In this way it is possible to cut down expensive hospital stay and substitute a more agreeable environment for a convalescent child. In many cases this would prevent frequent readmissions of a child — owing to faulty diet, supervision, or living conditions at home.

The following statistics are interesting perhaps only to physicians, but they will emphasize the fact that rare cases are seen in smaller as well as larger cities.

Adenitis .....	4

## REPORT OF THE X-RAY DEPARTMENT

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

### *Increase Noted*

There was a material increase in the number of patients radiographed in the X-ray department during the year 1935. This increase is partially accounted for by the great number of repeat examinations due to severe injuries and lung conditions which required interval examinations in order to watch the progress closely.

Rebecca M. Philbrick continued as head technician. She was ably assisted by Constance Larkin and Martha Johnston of the hospital nursing staff, both of whom have been trained in X-ray technique.

### *Fluoroscopic Facilities Used Extensively*

The fluoroscopic facilities of the laboratory have been used more than ever in the past year, particularly in the examination of lung conditions, the reduction of fractures, and in examining closely the various areas in the gastro-intestinal tract.

### *Record System Simplified*

Evelyn Hartford is now doing the stenographic work in the department in place of Alice F. Broderick. The record system has been simplified by consolidating the doctor's request for examination and the final diagnostic reading on one slip of paper.

The following is the statistical report of the cases seen in the X-ray department during the period from January 1, 1935 to December 31, 1935:

### *X-ray Examinations:*

Spines .....	296
Pelves .....	113
Extremities .....	1274

Shoulders	108
K. U. B.	149
Pregnancies	60
Pyelograms	47

Sinuses	40
Teeth	48
Eyes	3
Reduction of fractures	10
Total	3398

*Treatments:*

W. C. T.	19
Thymus	27
Deep Therapy	24
Leukemia	2
Furuncles	29
Axilla glands	2
Total	103

In all things pertaining to the Laboratory, I have had the hearty co-operation of the administration and staff, for which I wish to express my appreciation.

Respectfully submitted,

CHARLES WHELAN, M.D.

## REPORT OF THE PHYSICAL THERAPY DEPARTMENT

*To the Board of Managers of the Quincy City Hospital  
Gentlemen:*

During the past year the work of the department has progressed smoothly. The total number of treatments given was 7137.

### *Equipment*

No changes in equipment were made, as all machines have been kept in good condition by the maintenance department of the hospital.

### *Personnel Changes*

Certain changes in personnel were necessary on account of the illness of Mrs. Rolf Martens, followed by her resignation as Head Aid. Mr. Leland Stevens, former assistant to Mrs. Martens, was given the position of Head Aid in recognition of his good work in the department. Miss Elizabeth Gordon was appointed to fill the position vacated by Mr. Stevens' promotion.

*All Kinds of Cases Treated*

Included in the wide variety of clinical problems in this department were many cases of back strain, after-care of fracture, paralysis of certain types, infected wounds of many kinds, arthritis and chronic diseases of the extremities.

Treatments given were all forms of electro-therapy, hydro-therapy, heliotherapy, manipulation, and massage.

Detailed statistics of the department are as follows:

Auto condensation .....	40
Cabinet bath .....	4
Colonic Irrigation .....	28
Comp. Sol. Lite .....	44
Diathermy .....	1286
Electric Saturation .....	114
Extremity baker .....	15
Fulguration .....	18
Galvanism .....	136
General hydrotherapy .....	115
Grounded diathermy .....	5
Infra red .....	254

Ultra violet air cooled .....	569
Ultra violet water cooled .....	369
Vibration .....	62
Whirlpool bath .....	14
Total .....	7137

Respectfully submitted,

CLAUDE L. PAYZANT

*Physio-Therapist*

## REPORT OF THE LABORATORY

*To the Board of Managers of the Quincy City Hospital*  
Gentlemen:

The following is the report of the Clinical and Pathological Laboratory for the year 1935.

There has been another increase in the total number of specimens examined during the past year keeping pace with the gradual increase in admissions to the hospital.

### *Scientific Interest & Increases*

The total number of post mortem examinations, and the percentage also, showed an increase which reflects the increased scientific interest of the staff in the study of its cases. The cooperation of the citizens of Quincy in granting permission for post mortem examinations is fully

appreciated by the staff of the hospital. These examinations are intended to increase the scientific knowledge of disease processes thus enabling the clinical staff to render a more complete medical and surgical service to all patients in our community.

#### *Hospital is Center for Serum*

The laboratory is acting as a center for Pneumococcus typing and the distribution of Anti-pneumonicocccic serum for early cases of Pneumonia in the South Shore district. There has been an increased demand for this service.

The following is a detailed report of specimens examined during the year 1935.

## REPORT OF THE SUPERINTENDENT OF NURSES AND THE PRINCIPAL OF THE SCHOOL OF NURSING

*To the Board of Managers of the Quincy City Hospital*  
*Gentlemen:*

I respectfully submit to you the report for 1935 of the Superintendent of Nurses and the Principal of the School of Nursing.

### *Faculty*

Miss Sara E. Adams, *Superintendent of Nurses and Principal of School Nursing*

Miss Barbara Hobbs, *Assistant Superintendent of Nurses*

Miss Marion McManus, *Science Instructor*

Miss Priscilla Alger, *Practical Instructor*

Miss Mollie Robinson, *Dietetic Instructor*

### *Training School Committee*

Dr. Nathaniel Hunting

Mrs. T. Newell Lane

Mr. Ernest L. Collins

Mrs. Emma Tousant

Mr. Gilbert Balkam

Mrs. William Robb

Mrs. Carle Hayward

Dr. Joseph P. Leone

Miss Sara E. Adams

On January 1, 1935, the hospital had in its employ seventy graduate nurses, and in the School of Nursing twenty students — seven seniors, and thirteen intermediates. There had been no new classes in 1933 on account of the unemployment situation. Miss Helen Giddings was Superintendent of Nurses and Principal of the School. The number of graduate floor nurses varied during the year, according to the census of the hospital, vacations, sick leaves, etc.

### *Graduation*

In June the graduating exercises of the senior class were held. During the year five completed their practical work, one was dropped on ac-

count of illness, and two remained with time still incomplete on December 31st.

#### *Changes in Personnel*

During July Miss Giddings resigned, and Miss Barbara Hobbs, a graduate of this School, was made Acting Superintendent of Nurses. It was decided to enter a new class in September. On September 1st, Miss Sara E. Adams was appointed Superintendent of Nurses and Principal of the School of Nursing; Miss Barbara Hobbs, Assistant Superintendent of Nurses; Miss Marion McManus, science instructor; and Miss Priscilla Alger, practical instructor. Twenty-two students were admitted on September 16th. Three of these students have left — one to take up teaching, one because of difficulty with the theoretical work, and a third on account of illness. This leaves nineteen preliminary students, two seniors, and thirteen intermediates — a total of thirty-four.

#### *Affiliation with New York and Providence Hospitals*

At present the students of this School affiliate at the Bellevue Hospital, New York, for medical and pediatric nursing; and at Charles V. Chapin Hospital, Providence, Rhode Island, for communicable diseases. It is our earnest desire that in time we may be able to give these subjects in our own hospital.

A new Training School Committee was appointed, and plans were made for the coming year.

#### *Nurses' Alumnae Room*

The Alumnae have been active during the year. By giving a number of parties, dances, etc., they raised sufficient funds to furnish a room for the use of the Quincy City Hospital graduates.

#### *Quincy Nurses Predominate*

Of the twenty-nine charge and special positions in the hospital, nineteen are held by our own graduates. A number of the graduates are taking special educational courses, and everyone is working hard to maintain the highest standards of the profession. Head nurse meetings, at which problems are discussed, new methods demonstrated, etc., are held regularly.

We wish to thank the Board of Managers and Dr. Leone, our hospital superintendent, for their interest and support; the members of the medical staff who have taken care of our sick nurses; the Hospital Aid Association for its interest and the subscriptions to various magazines; Mrs. Carle Hayward for a lace tea cloth; the staff members for candy at Christmas; Mrs. Zayma Connelly, for a translation from the French on the life of Ambrose Paré.

Respectfully submitted,

SARA E. ADAMS, R.N.

*Superintendent of Nurses and  
Principal of the School of Nursing*

---

### REPORT OF THE INTERNE COMMITTEE

*To the Board of Managers of the Quincy City Hospital  
Gentlemen:*

The Interne Committee has met on several occasions during the year for the purpose of selecting internes for the Quincy City Hospital.

*By-laws Amended*

The by-laws were amended this year restricting the interne appointments to graduates of Grade A medical schools in America.

*Appointments to be Made Annually*

In order to obtain a better choice of internes, the committee decided to make all the appointments for the entire year at one time — preferably during January.

In the fall of 1936, the committee is planning to send posters, with data of the amount of clinical work done at the Quincy City Hospital, to the better medical schools in order to attract students from sections other than Boston.

Six House Officers have been given diplomas this past year. In July, Dr. Edward C. Claffey, Dr. Louis Tonken, and Dr. Alfred Weller were the recipients; on January 1, 1936, Dr. David Karp, Dr. Arthur Serino, and Dr. Frank Stella completed the necessary requirements for their diplomas.

Respectfully submitted,

NATHANIEL S. HUNTING, M.D., *Chairman*

CHARLES ADAMS, M.D.

WALTER L. SARGENT, M.D.

FRANCIS P. McCARTHY, M.D.

GEORGE D. DALTON, M.D.

JOSEPH P. LEONE, M.D., *Secretary*

---

## REPORT OF THE SOCIAL SERVICE DEPARTMENT

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

*Aim*

The social service department of this hospital is now in its third year. These have been particularly hard and distressing times, and it is most essential to the hospital and the patient that we become acquainted with the complete social background of the patient. The department has made every effort to do this during the past year, so that it could render such service as would be helpful to the patient while in the hospital and to carry on whatever follow-up treatment necessary after he goes home.

The hospital this year has referred 412 cases to social service, and the department has made 967 home visits.

It has been the aim of the department to follow the patients' discharge from the pediatric service and, when necessary, refer patients to the clinic, which they should attend in order to continue the medical care they need.

Through the kind cooperation of the Quincy Department of Public Welfare, the Family Welfare Society of Quincy, and the Needlework Guild, the department this year has been able to send 23 patients to convalescent homes, 4 cardiac patients to the House of the Good Samaritan, 2 patients to the Endocrine Clinic at the Evans Memorial Hospital, Boston; supply 4 patients with back braces and one patient with a leg brace. Also, 11 foster-home placements were made, and mothers admitted to our obstetrical service, who had no way of getting clothing for their babies, were provided with layettes.

*Quincy Visiting Nurses Association*

The Quincy Visiting Nurses Association has been most cooperative in giving nursing care to our patients after their discharge from the hospital.

*Red Cross Motor Corps*

We wish to take this opportunity to thank Mrs. Nelson and the ladies of the Red Cross Motor Corps for the splendid work they are doing in driving patients back to the hospital that they might continue their physio-therapy treatments which are essential for their complete recovery.

*Wollaston Legion Post*

The Junior Auxiliary of the Wollaston Legion Post, under the direction of Mrs. John Kennedy, made stuffed animals for the children's Christmas party.

*Children's Island*

With the kind cooperation of Miss Elsie Wulkop, superintendent at Children's Island (in Marblehead), the department was able to send two girls, aged ten and eleven, to Children's Island for the months of June, July, and August free of charge.

*Pre-natal Clinic*

Since June, the social service department has been covering the pre-natal clinic which is operated by the hospital at the Quincy Dispensary. Here, too, by having a social history, a great deal can be done to establish a feeling of friendliness and security which is so essential to the patient at this time. While this is a comparatively new service, we hope to accomplish a great deal in the near future.

It is not only the accomplishment of a thing which is important, but the manner in which it is done, which is of more importance. With this thought foremost in mind, the department has made every effort to render its service.

The following is a report on welfare cases treated during the past year.

*Cases; Aid Given:*

A. Quincy settled cases on which there is no reimbursement to the hospital:

Surgical	Medical	Obstetrical	Aural	Pediatric	Dental
112	58	57	50	15	1
\$5,425.05	\$3,598.60	\$2,194.00	\$830.00	\$639.00	\$1.50
Total aid given: \$12,688.15					

*Cases; Aid Given:*

B. Outside settled cases for which the hospital is reimbursed:

Surgical	Medical	Obstetrical	Aural	Pediatric	Dental
116	58	27	47	30	2
\$6,191.05	\$2,632.00	\$902.25	\$271.00	\$708.75	\$18.50
Total aid given: \$10,723.55					

Respectfully submitted,

HILDA M. LaROCCA

*Director*

## REPORT OF THE DIETARY DEPARTMENT

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

Several changes have taken place in the dietary department during the year 1935.

Miss Dorothy Houghton, head dietitian, resigned and was replaced by Mrs. Dorothy Reddington in April. Mrs. Reddington was replaced by Miss Mollie Robinson in October, with Miss Edith Whittaker serving as her assistant.

A meat-cutter, who acts as receiver of merchandise also, was added to the department.

*Selective Menus for Private Patients*

A new system of menu planning was introduced for the private patients. A selective menu is offered to these patients daily whereby they may have a choice of foods with no extra charge.

Three new refrigerators replaced the old wooden ones in the main kitchen, diet kitchen, and cafeteria. They have added much toward making the department attractive and efficient.

*Junior Assistant Added*

A junior assistant dietitian, Miss Cressie Schmidt, was added to the staff. This addition enables the dietitian to give closer supervision to the individual desires of each patient.

Respectfully submitted,

MOLLIE ROBINSON  
Head Dietitian

---

## REPORT OF THE MAINTENANCE DEPARTMENT

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

Some of the most important projects completed by E.R.A. and W.P. A. workers during 1935 are as follows:

1. Removal of artificial stone curbing on the top of M&S and M&C Buildings; repair of and, in some instances, extension of copper flashings, and then relaying the stones in waterproof materials.

2. New plaster, waterproofing, and paint on walls of M&S Building stairway.

3. The removal of loose plaster in Surgery; sections relathed, plastered, and painted with a high quality enamel. The sterilizing room was painted with aluminum bronze in order to withstand the humid condition in this room.

4. The removal of plaster in Rice II and stairway; metal lath put on, walls plastered. The rooms were painted with enamel; the hall and stairway with lead and oil.

5. Installation of a cement duct from anthracite coal bunker near the boiler room to Rice Home across Whitwell Street.

Respectfully submitted,

C. E. ERICKSON

## REPORT OF THE HOUSEKEEPING DEPARTMENT

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

During the months of December and January, changes have been made in the set-up of the housekeeping department with the purpose of making a more centralized unit. These changes have been as follows:

*Central Supply*

1. The supply room, which contains all the things necessary for supplying the wards, was formerly opposite the linen room. It has been transferred to the main stock room in the basement of M&C Building.

*New Linen Stock Room*

2. All new linen is now kept in the new linen stock room. Linen to be used regularly is taken from here to the linen room.

*Patients' Clothes Room*

3. A woman employee has been assigned to the care of the patients' personal clothing (mending, etc.) and other personal belongings. A room has been set aside for this purpose.

*Linen Room Moved*

4. The linen room has been moved to the mending room. This makes a more compact unit.

*Congestion in Laundry Relieved*

5. Congestion in the laundry has been relieved by moving the two ironers and the ironed uniforms into the vacated linen room.

*Women's Rest Room*

6. The women's rest room has been moved into the vacated supply room.

*Men's Locker Room*

7. The former store room for ironed uniforms has been given over to the men's locker room.

*Breaking Loss Reduced*

8. The superintendent, with the procedure he has adopted against excessive breakage of dishes, has received striking results.

*Weekly Inspection Revived*

9. Owing to the renewal of weekly inspection of the hospital (which was dropped two years ago), there has been a noticeable change in the cleanliness. Everyone has taken a keen interest in making their work pass inspection.

As a result of these changes and improvements, the housekeeping department operates with greater ease and efficiency.

Respectfully submitted,

CATHERINE LAUDER

*Housekeeper*

---

REPORT OF THE HOSPITAL LIBRARIAN

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

*Growth of Library*

The Thomas Crane Public Library has completed ten and one-half years of hospital library service. From the nucleus of fifty books, kept

in a little hall closet, the library has grown to its present attractive room in the Administration Building, with 981 permanent volumes on its shelves. During the past year, a number of worn books and books obsolete for other reasons have been removed from the shelves. Some were replaced in duplicate, but for the most part the books added were selected from recent publications. At present there are 687 volumes of adult fiction, 142 juvenile fiction, 60 adult non-fiction, 92 juvenile non-fiction. The collection includes books on various subjects including philosophy, sociology, home-making, science, travel, biography, history, and humor.

#### *Popularity of National Geographic*

Mrs. Alice Broderick, of the hospital office staff, donated several books of popular fiction. About fifty numbers of the *National Geographic* were donated. They were taken to the main library where their bindings were reinforced. The *National Geographic* is more popular than any other magazine among all the patients, young and old. The call for sea stories is general throughout the men's wards; the women lean toward love stories. There is the usual call for the interesting biography and history. The man taking a course in plumbing was able to continue his reading in books from the library.

#### *Patients Continue Studies*

The boy whose leg was injured in an automobile accident was able to take his test in outside reading. The librarian had secured the necessary book for him from the main source. The homesick lady from Scotland was delighted with the various travel books about her beloved country.

Because of illness, Mrs. Zayma Connolly, the regular librarian, was absent from her duties during November and December. Her place was most ably filled by Margaret Hebert and Dorothy Henrickson of the Thomas Crane Public Library staff.

The following figures show the progress made in circulation during the ten and one-half years of library service:

Year	Number of Books
1925 (Oct.-Dec.) .....	725
1926 .....	5,468
1927 .....	6,164
1928 .....	6,125
1929 .....	6,499
1930 .....	8,488
1931 .....	10,772
1932 .....	10,971
1933 .....	10,555
1934 .....	9,877

The year 1935 shows a gain of 98 books over 1934. The total distribution was as follows:

Adult non-fiction .....	1,492
Adult fiction .....	6,315
Juvenile non-fiction .....	567
Juvenile fiction .....	1,601
Total	<hr/> 9,975

Respectfully submitted,

ZAYMA CONNOLLY

*Hospital Librarian*

## REPORT OF THE QUINCY HOSPITAL AID ASSOCIATION

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

*Changes in Hospital Aid*

Since discontinuing the regular sewing meetings, the Hospital Aid Association has decided to continue its work along different lines. We have formed ourselves into a service committee, with Mrs. Carle R. Hayward serving as chairman. The object of this committee will be to keep in close touch with Dr. Leone and Miss Adams and through them learn of many ways that our members may be of service to the hospital.

*Pins and Magazines Given*

As long as our treasury will permit, we will present the graduating classes with their class pins, as we have done for so many years. We are still subscribing for some magazines for the nurses and ward patients.

*Teas for Nurses Revived*

This year the custom of having occasional afternoon teas for the nurses has been revived. These simple, informal affairs seem to bring pleasure in our personal contact with each other.

Respectfully submitted,

SUZANNE CLARK BRESLYN

*President*

---

REPORT OF THE WOLLASTON BRANCH HOSPITAL  
AID ASSOCIATION

*To the Board of Managers of the Quincy City Hospital*

*Gentlemen:*

The Wollaston Branch Hospital Aid Association will close its 1935-36 season on the first Thursday of June 1936. Meetings are held on the first Thursday of each month with an average attendance of ten members.

At two o'clock a short business meeting is held, before and after which the time is spent sewing and making necessities for the hospital.

Respectfully submitted,

MRS. FRANK S. CROFTS

*President*

## STATISTICAL INFORMATION

1935

Patients in hospital January 1. ....	148	
Patients admitted during the year .....	5,874	
<b>Total</b> .....		6,022
Male patients admitted .....	2,397	
Female patients admitted .....	3,477	
<b>Total</b> .....		5,874
Patients admitted to medical service .....	872	
Patients admitted to surgical service .....	3,335	
Patients admitted to obstetrical service .....	848	
Number of babies born .....	819	
<b>Total</b> .....		5,874
Private patients admitted .....	1,088	
Private ward patients admitted .....	2,652	
Service patients admitted .....	2,134	
<b>Total</b> .....		5,874
Paying patients admitted .....	4,723	
Part paying patients admitted .....	325	
Free patients admitted .....	289	
Welfare patients admitted .....	529	
Abatements .....	8	
<b>Total</b> .....		5,874
Largest number in the hospital any one day .....	211	
Smallest number in the hospital any one day .....	126	
Daily average number of patients .....	168.3	
Average number of patients admitted per day .....	16.1	
Total number of days' treatment .....	61,283	
Operations .....	4,538	
Out-patients .....	3,407	
Accidents .....	1,434	
Male patients discharged .....	2,402	
Female patients discharged .....	3,468	
<b>Total</b> .....		5,870
Patients discharged — medical service .....	849	
Patients discharged — surgical service .....	3,338	
Patients discharged — obstetrical service .....	855	
Number of babies discharged .....	828	
<b>Total</b> .....		5,870
Patients discharged — well .....	812	
Patients discharged — relieved .....	4,598	
Patients discharged — unrelieved .....	187	
Patients discharged — untreated .....	19	
Deaths within 24 hours of admission .....	80	
Stillborn .....	15	
Remaining deaths .....	159	
<b>Total</b> .....		5,870
Number of patients remaining in hospital December 31 .....	152	
<b>Total</b> .....		6,022

To the Board of Managers of the Quincy City Hospital. Gentlemen:  
I hereby submit to you the report for 1935, the Classification of Diseases.

### CLASSIFICATION OF DISEASES

January 1, 1935 through December 31, 1935

#### Section I. Specific Infectious Diseases. General Diseases.

Abscess	Discharges	Deaths
Abdominal .....	3	2
Alveolar .....	2	
Ankle .....	1	
Appendiceal .....	5	
Arm .....	2	
Axillary .....	10	
Bartholini .....	3	
Breast .....	5	
Buttocks .....	3	
Coccygeal .....	1	
Face .....	1	
Finger .....	1	
Inguinal .....	5	
Ischio-rectal .....	6	
Inguinal .....	5	
Incision .....	1	
Jaw .....	1	
Kidney .....		1
Leg .....	5	
Liver .....		1
Lung .....	3	
Meso-sigmoid .....	1	
Nasal septum .....	4	
Neck .....	32	
Pelvic .....	3	
Peri-anal .....	1	
Peri-nephritic .....		1
Peri-rectal .....	2	
Peri-tonsillar .....	8	
Post-auricular .....	1	
Rectum .....	1	
Retrocecal .....	1	
Retro-pharyngeal .....	2	1
Shoulder .....	1	
Spleen .....		1
Sub-mental .....	5	
Tubo-ovarian .....	3	
Vulvo-vaginal .....	4	
Arthritis		
Acute infectious .....	15	
Chronic infectious .....	4	
Gonorrheal .....	2	
Hyperthrophic .....	6	
Multiple .....	1	
Septic .....	1	
Bronchopneumonia .....	19	10
Carbuncle		
Back .....	1	
Forearm .....	1	
Neck .....	9	
Nose .....	1	

Section I. Specific Infectious Diseases.  
'General Diseases (continued).

	Discharges	Deaths
Cellulitis		
Arm .....	1	
Finger .....	4	
Foot .....	1	
Hand .....	1	
Knee .....	1	
Leg .....	2	
Neck .....	3	
Periorbital .....	1	
Scalp .....	1	
Coryza .....	3	
Erysipelas		
Ear .....	1	
Face .....	5	1
Leg .....	1	
Furunculosis		
Axilla .....	2	
Back .....	1	
Ear .....	1	
Forehead .....	1	
Neck .....	1	
Infection		
Arm .....	2	
Finger .....	5	
Foot .....	2	
Hand .....	7	
Knee .....	6	
Leg .....	2	
Neck .....	1	
Penis .....	1	
Respiratory .....	32	
Throat .....	2	
Thumb .....	4	
Toe .....	4	
Influenza .....	8	
La Grippe .....	32	
Malta fever .....	1	
Measles .....	1	
Meningitis		
Pneumococcic .....		2
Streptococcic .....		1
Tubercular .....		1
Mumps .....	1	
Paresis, general .....	1	
Paronychia .....	5	
Pneumonia		
Central .....	1	
Influenza .....		1
Lobar .....	59	19
Unresolved .....	1	
Poliomyelitis		
Anterior .....	4	
Bulbar .....	1	
Rheumatic Fever .....	4	
Scarlet fever .....	1	
Sepsis		
General .....	2	4

Section I. Specific Infectious Diseases.  
'General Diseases (continued).

	Discharges	Deaths
Syphilis .....	3	
Central nervous system .....	1	
Tabes dorsalis .....	2	
Tabo-paresis .....	1	
Tertiary .....	1	
Tetanus .....	1	1
Trichiniasis .....	1	
Tuberculosis .....		
Pulmonary .....	21	5
Tubes and ovaries .....	1	
Urinary tract .....	1	
Typhoid fever .....	1	
Section II. Diseases due to Animal Parasites		
Malaria .....	1	
Section III. Diseases of Metabolism and Deficiency.		
Diabetes mellitus .....	22	2
Diabetic coma .....		1
Gangrene (diabetic) foot .....	1	
Gangrene (diabetic) leg .....	1	1
Gangrene (diabetic) toe .....	1	
Scurvy .....	2	
Spasmophilia .....	2	
Section IV. Diseases Peculiar to Infancy.		
Dehydration .....		1
Diarrhea, infectious .....	1	
Feeding, improper .....	1	
Feeding, regulation of .....	7	
Malnutrition .....	4	2
Marasmus .....		1
Section V. Diseases due to Physical Agents.		
Burns .....		
Ankle .....	1	
Back .....	1	
Breast .....	1	
Eyes .....	2	
Face .....	7	
Foot .....	1	
Hands .....	3	
Leg .....	6	
Multiple .....	2	
Shoulder .....	1	
Thorax .....	1	
Scald .....	2	
Section VI. Poisonings. Intoxications.		
Alcoholism .....		
Acute .....	7	
Chronic .....	1	
Poisoning .....		
Ammonia .....	3	
Anesthesia, gas-oxygen-ether .....		2
Carbon monoxide .....	1	
Drug .....	3	
Gas .....	3	
Iodine .....	6	
Lead .....	1	1

	Discharges	Deaths
Lysol .....	2	
Mercury .....		1
Mushroom .....	1	
Tar .....	1	
Veronal .....	1	

## Section VII. Tumors, Benign and Malignant.

<i>Benign</i>		
Adeno-fibroma, breast .....	2	
Cyst		
Jaw .....	1	
Leg .....	2	
Lip .....	1	
Liver .....		1
Paradental .....	1	
Cyst-adenoma, ovary .....	1	
Epithelioma		
Cervix .....	1	
Head .....	1	
Leg .....	1	
Fibroma		
Breast .....	2	
Multiple .....		1
Uterus .....	16	1
Lipoma		
Arm .....	1	
Buttocks .....	1	
Shoulder .....	1	
Thigh .....	2	
Mesentery .....	2	
Myoma		
Multiple .....	1	
Uterus .....	2	
Neuroma, neck .....	1	
Odontoma		
Dentigerous cyst .....	1	
Polypus		
Cervix .....	2	
Nasal .....	3	
Rectal .....	1	
Uterus .....	3	
Tumor		
Abdomen .....	1	
Arm .....	1	
Bladder .....	2	
Brain .....	4	
Buttock .....	2	
Giant cell .....	1	
Liver .....	1	
Vagina .....	1	
Wen		
Back .....	1	
Scalp .....	2	
<i>Tumors, Malignant</i>		
Carcinomatosis .....	9	
Carcinoma, spine .....	1	
Fibrosarcoma .....	1	
Carcinoma, breast .....	12	1
Adenocarcinoma, breast .....	2	

	Discharges	Deaths
Carcinoma, tongue		1
Adenocarcinoma		
ovary	1	1
uterus	1	
Carcinoma		
cervix	21	
uterus	2	
Carcinoma		
Penis	1	
Prostrate	5	
Adenocarcinoma		
Cecum		2
Gall Bladder	1	
Rectum	1	
Carcinoma		
Abdomen	2	1
Bowel	1	1
Cecum	1	1
Colon	2	1
Gall bladder	1	1
Mesentery		1
Carcinoma		
Rectum	2	
Sigmoid	2	1
Carcinoma		
Esophagus	1	
Liver	2	
Stomach	5	3
Adenocarcinoma, liver	1	
Carcinoma, bladder	2	
Sarcoma, lympho-		1
Carcinoma		
Groin	2	
Lung		1
Lymph nodes	1	
Neck	1	
Throat	1	
Sarcoma, eye	1	
Section VIII. Congenital Malformations.		
Atresia, vagina	1	
Branchial cyst	1	
Debility	1	
Dislocation, hip	3	
Heart disease	2	
Hydrocephalus	1	
Pilo-nidal sinus	11	
Section IX. Injuries		
Abrasion		
Arm	1

Sacro-iliac .....	3	
Subluxation		
Ankle .....	1	
Sacro-iliac .....	1	
Wounds		
Bullet .....	3	1
Puncture .....	2	
Stab .....	2	

## Section X. Diseases of the Skin.

Cicatric, foot .....	1	
Dermatitis		
Actinica .....	2	
Hiemalis .....	1	
Medicamentosis .....	1	
Venanata .....	5	
Eczema .....	1	
Erythema, multiforma .....	1	
Granuloma fungoides .....	1	
Lichen planus .....	1	
Psoriasis .....	1	
Urticaria .....	1	

## Section XI. Diseases of the Circulatory System.

Aneurism .....		1
Aquina pectoris .....	5	
Aortic regurgitation .....	1	
Aortic stenosis .....	1	
Arteriosclerosis, general .....	9	3
Auricular fibrillation .....	3	
Cardio renal disease .....	4	2
Coronary occlusion .....		1
Dilatation of heart .....		1
Endocarditis		
Acute bacterial .....		1
Chronic .....	2	3
Rheumatic .....	1	
Subacute .....		1
Gangrene, senile .....	2	
Heart block .....	1	
Heart disease, arteriosclerotic .....	1	1
Heart disease, hypertensive .....	4	4
Heart disease, rheumatic .....	2	2
Hypertension .....	15	
Mitral regurgitation .....	1	

	Discharges	Deaths
Mitral stenosis	1	3
Myocarditis	13	9
Myocardial insufficiency	8	5
Neurosis, cardiac	1	
Pericarditis, chronic		1
Phlebitis	5	
Thrombosis		
Cerebral	2	
Coronary	2	3
Ulcer, varicose	16	
Valvular disease, chronic	2	
Varicose veins	1	
Section XII. Diseases of the Lymphatic System.		
Lymphangitis, leg	1	
Section XIII. Diseases of the Blood and Blood-Forming Organs.		
Anemia		
Pernicious	3	1
Secondary	7	
Hodgkin's disease	1	
Leukemia	2	
Purpura simplex	1	
Section XIV. Diseases of the Ductless Glands.		
Dysfunction, adrenal	1	
Hyperthyroidism	1	
Section XV. Diseases of the Nervous System.		
Atrophy, neuritic	1	
Edema, brain	1	
Encephalitis	3	1
Epilepsy	6	
Hemiplegia	1	1
Hemorrhage		
Cerebral	10	19
Subdural	1	
Herpes Zoster	2	
Insanity		
Melancholia involution	2	
Myalgia	1	
Neuralgia		
Intercostal	1	
Sciatica	1	
Neuritis		
Back	1

Neurosis, traumatic	2	
Osteitis deformans	1	
Paralysis agitans	1	
Paralysis, eye	1	
Parathyroid dysfunction	1	
Psychoneurosis	4	
Hysteria	3	
Neuresthenia	5	
Psychoasthenia	1	

	Discharges	Deaths
Psychosis		
Cause undetermined	2	
Korsakow's syndrome	1	
Neuresthenia	3	
Post-traumatic	1	
Sclerosis, lateral	1	
Sclerosis, multiple	1	
Sinus thrombosis, cavernous		1

Section XVI. Diseases of Bones, Joints, Muscles,  
Tendons and Fascia.

*Bones & Cartilages*

Hallux valgus	1	
Myasthenia	1	
Neuritis, sciatic	1	
Osteoma, arm	1	
Osteomyelitis		
Femur	2	
Fibula	1	
Finger	2	
Metacarpal	1	
Thumb	1	
Tibia	1	

Periostitis

Foot	3	
Leg	1	

*Joints*

Ankylosis, fingers	1	
Synovitis	2	
Infectious	2	

*Other Diseases of Locomotor System.*

Bursitis	1	
Prepatella	3	
Septic	1	
Contraction, Dupuytren's	1	

Section XVII. Diseases and Injuries of the  
Eye and Ear.

*Diseases of the Eye*

Abscess of eyelid	2	
Blepharitis	1	
Dacrocystitis	2	
Foreign body eye	1	
Glaucoma, diabetic	1	
Iritis	1	
Ulcer, cornea	1	

*Ear*

Abscess pre-auricular	1	
Mastoid fistula	1	
Mastoiditis		
Acute	37	1
Bilateral	5	
Chronic	1	
Recurrent	3	

Otitis media

Acute	30	1
Catarrhal	1	
Chronic	4	

	Discharges	Deaths
Section XVIII. Diseases of the Nose and Accessory Sinuses.		
Deviation of septum .....	11	
Cyst, antrum .....	2	
Empyema, antrum .....	5	
Epistaxis .....	13	
Ethmoiditis .....	4	
Chronic .....	1	
Polyp, infectious .....	1	
Rhinitis .....	1	
Sinusitis .....	14	
Subacute .....	1	
Section XIX. Diseases of the Mouth, Lips, Cheeks, Pharynx, Tonsils & Palate.		
Adenoids .....	5	
Foreign body in pharynx .....	1	
Hypertrophied tonsils and adenoids .....	513	
Infected tonsils and adenoids .....	462	
Naso-pharyngitis .....	2	
Pharyngitis .....	14	
Stomatitis .....	1	
Apthous .....	1	
Tonsillitis .....		
Acute .....	12	
Chronic .....	120	
Follicular .....	2	
Vincent's angina .....	1	
Section XX. Diseases of the Jaw, Teeth and Gums.		
Abscess, tooth .....	1	
Caries of teeth .....	1	
Dentition, delayed .....	1	
Hemorrhage, gum .....	2	
Infected teeth .....	13	
Unrupted tooth .....	1	
Section XXI. Diseases of the Tongue.		
Section XXII. Diseases of the Esophagus.		
Foreign body, esophagus .....	5	
Varix esophagus .....	1	
Section XXIII. Diseases of the Stomach.		
Indigestion, gastric .....	1	
Pyloric stenosis .....	3	
Pylorospasm .....	2	
Section XXIV. Diseases of the Intestines.		
Adhesions .....		
Intestinal .....	12	
Intra-abdominal .....	3	
Appendicitis .....		
Acute .....	152	2
Acute with abscess .....	4	
Acute with perforation .....	16	
Acute with peritonitis .....	2	5
Chronic .....	94	
Subacute .....	57	

	Discharges	Deaths
Colic, intestinal .....	1	
Colitis .....	7	
Constipation .....	14	
Diarrhea .....	2	
Infectious .....	1	1
Dilatation, colon .....	3	
Diverticulitis, multiple .....		1
Enteritis .....	3	
Non-specific .....		1
Foreign body perforation colon .....		1
Gastritis .....	13	
Gastro-enteritis .....	10	
Gastro-enterospasm .....	1	
Hemorrhage intestinal .....	1

Obstruction, intestinal .....	5	3
Stasis, intestinal .....	1	
Toxemia, intestinal .....	1	1
Ulcer .....		
Duodenal .....	5	
Stomach .....	23	1
Visceroptosis .....	1	
Section XXV. Diseases of the Liver and Biliary Tract.		
Cholecystitis .....		
Acute .....	16	1
Chronic .....	37	2
Subacute .....	1	
Cholelithiasis .....	12	1
Cirrhosis of liver .....	7	2
Colic, biliary .....	2	
Jaundice, catarrhal .....	1	
Cyst of liver .....		1
Section XXVI. Diseases of the Pancreas.		
Cyst, pancreas .....	1	
Section XXVII. Diseases of the Abdomen and Peritoneum in general.		
Adhesions, pelvic .....	1	
Hernia .....		
Femoral .....	3	
Femoral with strangulation .....	1	
Inguinal .....	59	
Inguinal, bilateral .....	11	
Inguinal with strangulation .....	4	
Omental .....	2	
Scrotal .....	1	
Umbilical .....	1	
Ventral .....	4	
Ventral with strangulation .....	1	
Peritonitis, general .....	1	1
Peritonitis, tuberculous .....	1	
Sinus, abdomen .....	1	
Torsion of omentum .....	1	

	Discharges	Deaths
Section XXVIII. Diseases of the Rectum and Anus.		
Fissure in ano .....	6	
Fistula in ano .....	12	
Hemorrhoids .....	32	
Prolapse rectum .....	1	
Section XXIX. Diseases of the Larynx.		
Laryngitis, acute .....	5	
Section XXX. Diseases of the Trachea and Bronchi.		
Asthma, bronchial .....	11	
Bronchiectasis .....	1	
Bronchitis		
Acute .....	13	1
Chronic .....	2	
Section XXXI. Diseases of the Lung.		
Hemoptysis .....	1	
Infarct of lung .....	1	
Section XXXII. Diseases of the Pleura and Mediastinum.		
Empyema .....	4	
Hemato-thorax .....		1
Pleurisy .....	4	
Section XXXIII. Diseases of the Kidney and Ureter.		
Adhesions, ureteral .....	1	
Calculus, renal .....	27	
Calculus, ureteral .....	8	
Cystitis .....	9	1
Hematuria .....	1	
Hydronephrosis .....	3	
Nephritis		
Acute .....	2	
Chronic .....	6	3
Glomerulo .....	2	2
Interstitial .....	2	2
Nephroptosis .....	2	
Obstruction, ureteral .....	2	
Ptoxis, kidney .....	4	
Pyelitis .....	13	
Pyonephrosis .....	2	
Pyuria .....	1	
Stricture		
Ureteral .....	2	
Urethral .....	2	
Uremia .....		1
Urethritis, non-specific .....	1	
Section XXXIV. Diseases of the Bladder.		
Calculus, vesical .....	1	
Cyst, bladder .....	2	
Neurosis of bladder .....	1	
Retention of Urine .....	1	

	Discharges	Deaths
Section XXXV. Diseases of the Urethra—Male and Female.		
Caruncle, urethra .....	2	
Rupture, urethra .....		1
Section XXXVI. Diseases of the Male Generative Organs.		
Asthenia .....	2	
<i>Penis</i>		
Paraphimosis .....	3	
Phimosis .....	23	
Adherent prepuce .....	3	
Redundant prepuce .....	2	
Ulceration, penis .....	1	
<i>Prostate</i>		
Hypertrophy .....	17	3
<i>Scrotum</i>		
Hydrocele .....	4	
<i>Testicle</i>		
Atrophy .....	1	
Epididymitis .....	5	
Orchitis .....	1	
Undescended testicle .....	4	
Section XXXVII. Diseases of the Female Generative Organs.		
<i>General and Functional</i>		
Dysmenorrhea .....	4	
Dyspareunia .....	1	
Menorrhagia .....	4	
Menstrual headache .....	1	
Metrorrhagia .....	5	
Pelvic inflammation .....	6	
Relaxed perineum .....	1	
Rectocele .....	2	
Sterility .....	2	
<i>Fallopian Tubes</i>		
Pyosalpinx .....	1	
Salpingitis		
Acute .....	10	1
Chronic .....	7	
Subacute .....	3	
Tuberculous .....	1	
Salpingo-oophoritis .....	1	
<i>Ovary</i>		
Cyst .....	11	
Hypofunction .....	1	
Oophoritis .....	1	
Rupture ovary .....	1	
<i>Uterus</i>		
Anteflexion .....	1	
Cervicitis .....	3	
Cystocele .....	5	
Endocervicitis .....	5	
Endometritis .....	24	
Erosion cervix uteri .....	3	
Hypertrophied cervix .....	1	
Laceration, cervix uteri .....	8	
Menorrhagia .....	2	
Metrorrhagia .....	2	

## GIFTS AND DONATIONS TO THE QUINCY CITY HOSPITAL

Junior Red Cross League .....	Thanksgiving Favors
Kiwanis Club .....	Children's Christmas Party
Wollaston Evergreen Club .....	Quilt
Thomas F. Galvin, Inc. ....	Flowers
E.R.A. Orchestra .....	Music for Wards every Wednesday
Wollaston Hospital Aid .....	Dressings
Mrs. R. Edridge .....	Puzzles and Games
Phyllis Macomber .....	Book
Mrs. Carle R. Hayward .....	Lace Tablecloth for Nurses' Home
Farley Harvey Co. (Maurice Idelson) .....	Sample Cloth Books—Children's Ward
Eastern Nazarene College .....	Music for Wards
Mrs. Raymond Perkins .....	Flowers for Children's Ward
Mrs. Theophilus King .....	Flowers for the Hospital
Dr. J. P. Leone .....	Candy for Children's Ward
Wollaston Hospital Aid .....	Children's Books
Dr. E. A. Hedges .....	Ornaments for Christmas Tree and Toys for Children's Ward
Remick's .....	Mickey Mouse's Visit to Children's Ward
Mrs. Hilda LaRocca .....	Christmas Wreaths
Campfire Girls, Wollaston .....	Christmas Stockings

2 men lost 13 days each	1 man lost 61 days
2 men lost 14 days each	1 man lost 63 days
3 men lost 15 days each	1 man lost 84 days
1 man lost 16 days	1 man lost 101 days
1 man lost 21 days	1 man lost 131 days
Days lost on account of injury .....	128
Days lost on account of sickness .....	1,332
Total days lost .....	1,460
Number of days not paid for .....	83
Total number of days paid for .....	1,377
Number of hours of extra work without pay .....	3,311

#### CONCLUSION

One radio equipped car to be used by the Day Sergeant and a spare car for night use has been added to the Department during the year making a total of six cruising cars and one Patrol Wagon so equipped now in service.

The value of radio to the work of the Police Department has been clearly demonstrated during the year and one-half that it has been in service in this Department. This value is so apparent that I recommend that two more radio equipped cars be added during the coming year.

To give better service to our citizens, I wish to remove the Radio Transmitter from its present location to a separate room. If this is done it will require the services of three men to operate it over a twenty-four hour period. The advantages to be obtained by having an operator who would devote his time solely to the sending and receiving of radio messages, to and from the cars, would in my opinion be very well worth-while.

This plan can be put into effect without adding to the man-power of the Department if these two new cars are added, as some foot routes could be abolished to supply the men for the cars and the radio station.

Sergeant Joseph F. Sweeney, Patrolman William J. Smith and Patrolman James W. Murray, retired, passed away during the year.

In conclusion I wish to thank Mayor Ross, Acting Mayor Mullin and Mayor Burgin, the City Council, the heads of the various City Departments and the citizens for their helpfulness to co-operate with me for the betterment of this Department.

I am also grateful to the District Attorney and his staff, and the Justices and all other officials of the District Court for their consideration and advice.

Last, but not least, I wish to thank the officers and men of the Department for their attention to duty and good conduct shown by them in the many trying situations which have confronted them.

Respectfully submitted,

ERNEST H. BISHOP

Chief of Police

## REPORT OF FIRE DEPARTMENT

---

January 1, 1936

Hon. Thomas S. Burgin,  
*Mayor, City of Quincy, Quincy, Mass.*

Dear Sir:

I respectfully submit the annual report of the Fire Department for the year ending December 31, 1935.

### PERSONNEL OF DEPARTMENT

*Chief of Department, William J. Sands*

#### DEPUTY CHIEFS

Creedon, Peter J.

O'Neil, John L.

## RECORD OF ALARMS

Total alarms for 1935	1,259
Bell alarms	499
Tel. alarms	719
Still alarms	41
False alarms	102
Multiple alarms	4
Reported fires	14
Increase in alarms over 1934	240
Decrease in false alarms	41

## RESPONSE TO ALARMS

## Central Station

Bell alarms	209
Tel. alarms	351
Still alarms	16
Total	576

## Wollaston Station

Bell alarms	226
Tel. alarms	150
Still alarms	23
Total alarms	399

## Atlantic Station

Bell alarms	65
Tel. alarms	175
Still alarms	29
Total alarms	269

## West Quincy Station

Bell alarms	132
Tel. alarms	129
Still alarms	7
Total alarms	268

## Quincy Point Station

Bell alarms	88
Tel. alarms	47
Still alarms	20
Total alarms	155

## Hough's Neck Station

Bell alarms .....	43
Tel. alarms .....	61
Still alarms .....	36
Total alarms .....	140

Total number feet of hose laid .....	111,400
Central Station laid .....	39,450
Atlantic Station laid .....	18,300
Wollaston Station laid .....	17,900
Quincy Point Station laid .....	17,800
West Quincy Station laid .....	11,300
Hough's Neck Station laid .....	6,650

Total number feet of ladders raised 5,316.

Total number of hours absent from quarters 1,081, 42 mins.

Engines pumped 160 hours.

Booster lines used 540 times.

Gallons of chemicals used, 1,280.

Hydrants in use, 208 hours, 16 mins.

Building inspections made, 16,724.

Number of hours at drill, 248.

Rubber covers used, 52.

## FLOOD LIGHT TRUCK OPERATIONS

Alarms responded to .....	216
Special calls .....	8
Inhalator used .....	3
Tanks of oxygen used .....	11
1000 watt light used 52 hours, 55 minutes.	
500 watt light used 54 hours, 10 minutes.	
300 watt light used 4 hours, 15 minutes.	
250 watt light used 35 hours, 40 minutes.	
100 watt underwater light used 2 hours.	
Number of feet of wire used in above operations, 13,350	

## RESPONSE TO ALARMS

Dwellings .....	17.88%
Stores, factories, sheds .....	7.62%
Grass, dumps, rubbish, etc. ....	51.47%
Automobiles .....	8.97%
Miscellaneous .....	5.96%
False alarms .....	8.10%

100.00

## VALUATIONS, INSURANCE AND LOSSES

Value of property involved .....	\$2,230,734.00
Insurance on same .....	2,064,919.00
Loss insured and uninsured .....	104,654.50
Insurance loss .....	88,516.78

## FIRE LOSS BY MONTHS

Month	Buildings	Contents	Losses
January .....	\$9,795.31	\$6,167.74	\$15,963.05
February .....	9,426.10	10,732.00	20,158.10
March .....	2,962.50	1,283.00	4,245.50
April .....	3,647.55	1,822.40	5,469.95
May .....	12,943.03	11,611.68	24,554.71
June .....	2,364.50	750.00	3,114.50

July	5,674.97	1,132.03	6,807.00
August	3,302.92	975.72	4,278.64
September	2,060.00	127.05	2,187.05
October	6,325.00	1,702.00	8,027.50
November	1,611.00	340.00	1,951.00
December	5,763.50	2,134.00	7,897.50

Totals	\$65,876.88	\$38,777.62	\$104,654.50
Total fire loss for 1934			\$296,028.86
Total fire loss for 1935			104,654.50
Decrease in fire loss			191,374.36

Permits granted for sale of fireworks	62
Permits granted for public display of fireworks	3
Permits granted fuel oil storage-range burners	3,432
Permits granted fuel oil storage-powers burners	641
Permits granted for outdoor fires	734

Cash received from—Sale of old tires, recharging extinguishers, fees for fireworks permits, Court fines for false alarms \$124.75. Paid in to City Treasurer.

I am pleased to announce that the fire loss in 1935 was much lower than that of 1934. Although the department responded to 240 alarms more than the previous year, the fire loss was \$191,374.36 less a decrease of 182.8%. The number of fires in dwellings was less than in 1934 while the alarms for grass and dump fires increased 8.47%. A great many alarms were received for flooded range burners but very small loss was sustained by this type of fire.

The number of false alarms received during the year was 41 less than in 1934. This was due in part to warnings that were printed and posted on all fire alarm boxes in the city in an effort to discourage persons from tampering with the boxes or sounding false alarms. It is a dangerous practice and I believe that if all the citizens would look upon it as their duty to assist in the apprehension of persons sounding false alarms we can still reduce the number of false alarms during the coming year.

An emergency appropriation was passed by the City Council and approved by the mayor for the purchase of three new pumping engines to replace three White pumping engines that have been in service for many years. This was done after the New England Insurance Exchange condemned the old pumping engines. Two of the old pumpers are to be taken in trade and one will be kept in reserve and used as a spare unit. The three new units will be placed in service sometime in February.

During the year a new car was purchased for the Deputy Chiefs. The old car had seen considerable service and required frequent expenditures for repairs. A radio receiving set was installed in the new car and all fire alarms are broadcast by the Police Department, enabling the Deputy Chiefs learn of an alarm while out on inspection tours.

A spraying outfit was purchased for painting the apparatus and two pieces of apparatus were painted by the members of the department. It is planned to paint several pieces of apparatus during the coming year.

Four additional men were appointed during the year and it is my earnest hope that more men will be appointed during the coming year.

All school buildings in the city were inspected during the year by the officers of the department. A copy of their report on conditions and recommendations was forwarded to the School Committee and the mayor. Periodic inspections will be made during the coming year for the purpose of eliminating and correcting all fire hazards in the build-

ings. Suggestions and advice will be offered in the proper carrying out of fire drills in an effort to speed up and eliminate confusion in the event of fire.

Three officers attended the Boston Fire College during the year and one officer and one private graduated from the drill school of the Brockton Fire Department. This school was conducted by the Massachusetts Department of Education.

There were two retirements from the department during the year. Herbert Griffin and Myles Creamer after many years service as members of the call and permanent forces requested retirement for reasons of failing health. Both men were excellent firemen and left the department with the kindest wishes of all their comrades.

### RECOMMENDATIONS

The following recommendations are respectfully submitted for your consideration.

That eight captains be added to the department. This would provide for an officer on each piece of apparatus.

That more privates be appointed. All the ladder trucks in the department are woefully undermanned.

That an eighty five foot aerial ladder be purchased and stationed at Headquarters. The extension ladders now in service will not reach the roofs of many buildings in the city. This is one of the recommendations made by the National Board of Fire Underwriters during their last survey of the city.

That a new Chief's car be purchased. The car now in service was purchased in 1931 and has had a great deal of hard service.

That a new chassis be purchased for the flood light plant. The chassis now in service was purchased in 1930 and is not large enough to carry the equipment.

That a new generating unit be purchased for the flood light truck. The unit now in service is not large enough to carry the load.

That four new fire stations be constructed to replace the present fire headquarters and the stations located at West Quincy, Quincy Point and Houghs Neck. These stations were built forty years ago and are entirely inadequate for the present day needs of the department.

In conclusion I wish to express my sincere thanks to His Honor the Mayor, the members of the City Council, the various city departments, and to the officers and men of the fire department for their cooperation.

Respectfully submitted,

WILLIAM J. SANDS

*Chief of Fire Department*

## REPORT OF FIRE AND POLICE SIGNAL DEPARTMENT

---

January 1st, 1936

Hon. Thomas S. Burgin,  
*Mayor, City of Quincy, Quincy, Mass.*

Dear Sir:

I respectfully submit the annual report of the Fire & Police Signal Department for the year ending December 31, 1935.

### PERSONNEL OF DEPARTMENT

*Superintendent, Thomas J. Smith*

#### Maintenance Men

George N. Leonard  
Richard Williams

George B. Howie  
Patrick H. Reddington

### FIRE ALARM

A great amount of work was accomplished in the past year in routing circuit wires in order to prevent shorts and grounds from damaging circuits and cutting off any one box from operating.

A large number of new poles were set by public utilities making it necessary to do a great deal of construction transfer.

Eleven miles of wire with crossarms and hardware were installed in extending and replacing various circuits to accommodate changing conditions.

The cable system has been augmented with the addition of six thousand five hundred feet of multiple conductor lead and loom covered cable in order to add to ease in routing circuits.

Six new boxes have been added to the system and six replacements were made of out of date types that were a liability rather than an asset on the streets.

Sixty five battery units were replaced with new type spray proof cells of longer potential life and greater reserve capacity.

All boxes were tested periodically and kept painted, cleaned and oiled.

All the school systems were gone very much as to use through neglect, they have all been repaired and tested and will be kept in good condition in the future with a minimum of expense.

A summary of alarms is not included in this report as it is included in the report of the Fire Department.

I should like at this time to stress the pressing need of more circuits in the central office. All present circuits are overloaded to the danger point and no room is available to install more equipment in the present structure. The central office is also located at the dead end of the underground duct system making it extremely expensive and ill-advisable to add on to the present building. A more centrally located building designed to fit future requirements would fill a large void in this department.

### POLICE SIGNALS

The police signal system has also benefitted by the additional cable extensions as spare conductors were provided in all cable installations for police signal and recall service requirements. One new police box was added to the system and all other boxes were maintained in first class operating condition at a minimum of expense. The recall system proved its merit on all occasions besides being of value in locating fire alarm box positions in all sections of the city.

### TRAFFIC SIGNALS

The intersection of Hancock St., and Willett St., was installed in the past year and has helped the pedestrian traffic at this crossing. The intersection at Hancock St. and Squantum St. was changed from simple automatic to take optional manual control with period for pedestrian traffic to allow for the large number of school children using this crossing. Other intersections were kept in operating condition at all times even under great difficulty because of worn out controllers. Further improvements should be made and can be if funds are made available.

Respectfully submitted,

THOMAS J. SMITH,  
*Superintendent*

## REPORT OF DOCK AND WATERFRONT COMMISSIONER

---

Hon. Thomas S. Burgin, *Mayor*,

Dear Sir:

The annual report of the Dock and Waterfront Commissioner.

For City Fuel Co.:	
15 Barges. All kinds coal	13,268 tons
For J. F. Sheppard & Sons:	
12 Barges. All kinds coal	11,317 tons
For Fore River Coal Co.:	No report
For Standard Oil Co.:	
51 Steamers and Barges.	
Range Oil	153,829 barrels
Fuel Oil	136,249 barrels
Gasoline	708,478 barrels
For Lincoln Oil Co.:	No report
For Quincy Oil Co.:	No report
For Quincy Lumber Co.:	
3 Schooners lumber	1,299,910 feet

From January 1, 1935 to January 1, 1936 the Fore River draw had 2,851 openings.

Owing to the sudden death of Mr. Edward M. Wight, former dock commissioner, January 6, 1936, I have been unable to get all reports together to get them in on time for this report.

Respectfully submitted,

JAMES A. M. NASH,  
*Commissioner*

## REPORT OF COMMISSIONER OF PUBLIC WORKS

---

Honorable Thomas S. Burgin, *Mayor*  
*Quincy, Massachusetts,*

Dear Mr. Mayor:-

I respectfully submit the report of the Department of Public Works for the year of 1935.

Respectfully submitted,

EZEKIEL C. SARGENT,  
*Commissioner of Public Works*

### HIGHWAYS

#### MAINTENANCE EXPENDITURES

General Maintenance .....	\$263,691.49
Pensions .....	12,973.34
Garage and Stables .....	12,430.75
Miscellaneous Activities .....	25,188.82
Street Lighting .....	110,364.81
	424,649.21
New Equipment .....	15,167.94
	\$439,817.15

Highway maintenance includes the expense of overhead, street cleaning, street patching, removal of snow, cleaning of drains, maintenance of trucks and equipment, street oiling and vacations.

Miscellaneous activities include the maintenance of brooks, bridges, fences, street signs, traffic markings, parking areas and street parks, and other expenses incident to this department.

Street lighting includes all streets and traffic lights, temporary lighting for athletic fields and skating ponds, and the lighting of the subways at Quincy and Wollaston railroad stations.

New equipment purchased this year for the department includes two new Mack trucks, seven truck snow plows, one sidewalk roller, one air compressor for the garage; two (used) tractors and six horses, three given in exchange.

### STREET CONSTRUCTION

Total Expenditures ..... \$273,041.90

#### NEW STREET

Only three newly accepted streets have been constructed or completed during the year: Mears Avenue, Loring Street and Carlisle Street.

### STREET REBUILDING

Approximately five and one-half miles of accepted street have been rebuilt during the year. Street railway tracks have been removed from the following streets and the streets rebuilt.

Water Street, Copeland Street and Independence Ave.

Portions of the following streets have been rebuilt due to sewer or drain construction.

Babcock Street—portion of  
 Brook Road  
 Curlew Road  
 Liberty Street—portion of  
 Newton Street—portion of  
 Sea Street—portion of  
 Willard Street—portion of

Other streets rebuilt are as follows:

Elm Avenue  
 Federal Avenue—portion of  
 Glendale Road—portion of  
 Hancock St.—W. Squantum St. northerly to Railroad Bridge.  
 Newcomb Street  
 Norfolk Street—portion of  
 Quarry Street—portion of  
 Revere Road—portion of  
 Scammell Street  
 So. Central Ave.—portion of  
 School Street—portion of  
 Southern Artery—portion of

The following streets have been widened and rebuilt:

East Howard Street—portion of  
 East Squantum Street—portion of  
 West Squantum Street—portion of  
 West Street

### SIDEWALK CONSTRUCTION

Total Expenditure ..... \$114,895.73

Sidewalk construction for the year have been of bituminous construction, and approximately 18 miles were constructed in portions of the following streets, for specific location of which reference is made to the report of the City Engineer.

#### Sidewalks

Ardell St.	Carlisle St.	Hill St.	Oxenbridge Rd.
Amesbury St.	Clark St.	Intervale St.	Phirps St.
Atlantic St.	Dayton St.	Kimball St.	Pelican Rd.
Beacon St.	Deldorph St.	Lancaster St.	Payne St.
Buckley St.	Edwin St.	Larry Place	Penn & Liberty Sts.
Bridge St.	Endicott St.	Merrymount Rd	Pearl St.
Buckingham Rd.	Ellington Rd.	Main St.	Pilgrim Rd.
Barry St.	E. Squantum St.	Mass. Ave.	Pope St.
Bowdoin St.	E. Howard St.	Madison Ave.	Quarry St.
Billings Rd.	Federal Ave.	Mears Ave.	Quincy Ave.
Birch St.	Farrell St.	Mechanic St.	Ruthven St.
Bromfield St.	Felton St.	Mound St.	Reardon St.
Bellevue Rd.	Goddard St.	Mary St.	Revere Rd.
Beale St.	Granite St.	Montclair Ave.	Ryden St.
Bigelow St.	Grafton St.	Moscow St.	Ritchfield St.
Cedar St.	Gordon St.	Mason St.	Rayeroft St.
Common St.	Grand View Ave.	Miller Stile Rd.	Russell St.
Cottage Ave.	Harris St.	No. Payne St.	South St.
Curtis Ave.	Hamilton Ave.	Nilsen Ave.	Silver St.
Cummings Ave.	Hancock St.	Newbury Ave.	Sunnyside Rd.
Copeland St.	Hollis Ave.	Norfolk St.	Sea Ave.
Coddington St.	High School Ave.	Newcomb St.	Sixth Ave.

School St.	Standish Ave.	So. Artery	Wilson Ave.
Sterling St.	Spear St.		W. Squantum St.
Shaw St.	Sea Ave.	Trescott St.	West St.
		Thayer St.	Washington Ct.

In addition to the city appropriation for sidewalk construction, the Commonwealth of Massachusetts by virtue of Chapter 464 of the Acts of the year 1935, allocated to the City of Quincy the sum of \$31,998.65 for relief employment. This money is being used for sidewalk construction. About 90% of the labor being taken from the welfare rolls.

About 6100 feet of sidewalk were built on Fenno St., Adams Street and Centre Street during the year. The balance of the schedule will be completed during 1936.

### PUBLIC BUILDINGS

Maintenance ..... \$33,688.00

Buildings maintained by this department are as follows:

City Hall, with rent of offices in the Quincy Patriot Ledger Building and W. P. A. offices in the Quincy Savings Bank Building and Saville Street.

Six Fire Stations  
Dispensary  
City Home  
Police Station  
Community Building in Atlantic  
Commissary and Welfare offices.

This year the Old Police Station on School Street has been remodelled for the convenience of the Welfare Department, and the department has moved from its offices on Saville Street.

A new boiler has been installed at the Central Fire Station through a special council appropriation.

### NORTH HIGH SCHOOL

A contract for the construction of the addition to the North High School was awarded on June 14, 1935 to A. Piotti Co. of Boston.

Excavation was started on June 24, 1935 and the corner stone was laid with appropriate ceremony on September 4, 1935.

Work has progressed satisfactorily and the building will probably be completed before the completion date set in the contract.

To date the sum of \$149,810.50 has been expended on the building.

### E. R. A. and W. P. A.

Expended for Material, Equipment and Supervision \$113,996.35

From January 1st to November 15th, the Federal Relief funds provided through the Emergency Relief Act, were administered by the Federal Government through the E. R. A. on projects approved by them. Costs for administration and labor were paid by the Federal Government while the cost of materials and equipment were paid by the City. After about November 15th this government relief was provided through Works Progress Administration or W. P. A., where-by the labor costs were paid by the Federal Government and costs for administration materials and equipment were paid by the City.

During the year 1935, the E. R. A. and W. P. A. expended for labor in Quincy, the sum of \$1,002,002.59 while the material and equipment costs were \$113,996.35.

Following is a list of projects undertaken under E. R. A.:

The following is a list of Projects completed in 1935:

*Sewers*

Adams Street  
Aberdeen Road  
Des Moines Road  
Macy Street  
Harvard and W. Squantum St.  
Read Ave.  
Rock Island Road  
Sanitary Sewer Brook Road  
W. Squantum and Division St.  
Hollis Av.—Marshall St.—Quarry St.—Garfield St.  
Keating St.  
E. Howard St.  
Bloomfield St.  
Storm sewer—Hancock St. at Atlantic R. R. Station.  
Storm sewer—Atheton and So. Walnut St.

*Parks*

Beautification of Macy Park.  
Merrymount Park.  
Painting old buildings at Merrymount Park.  
Starting Faxon Park.  
Survey of Merrymount Park.

*Repairs*

Fore River Club.  
City Stable Repairs.  
Public Welfare building.  
Repairs and painting Merrymount Shell.  
Chimney—Welfare building.  
M&S Building City Hospital.  
M&C Building City Hospital.  
Squantum School.  
Central Jr. High School.  
Main Library.  
City Hospital.  
Quincy Point Fire Station.  
Nurses Home.  
Adams Shore School.  
Washington School.  
Atlantic Fire Station.  
Cranch School.  
Hough's Neck Fire Station.  
West Quincy Fire Station.  
Building No. 2 City Hospital.

*Clerical Help*

City Hospital.  
X-Ray Department City Hospital  
Clerical assistance at Squantum.  
Clerical assistance at Fire Department.  
Clerical assistance at Welfare Office.  
Clerical assistance to National Reemployment Office

*Playgrounds*

Grading Ward 2 Playground.  
Playground Supervisors.  
Resurfacing Ward 3 Playground.  
Victory Park Playground.

*Cemetery*

Completed boundary wall and grading at Mt. Wollaston Cemetery.  
Survey of Cemetery.

*Squantum*

Stock clerks at Squantum.  
Partition Wing and Erection Shop at Squantum.  
Maintenance of Government equipment at Squantum.  
Squantum Mill Work.  
Paint shop at Squantum.  
Sheet metal work at Squantum.  
Removing plate yard at Squantum.  
Complete Parachute Loft at Squantum.  
Tables and benches at Squantum.  
Modernizing Sanitary System at Squantum.  
Completed Mess Hall at Squantum.  
Planning of Projects at Squantum.  
Sharpening tools at Squantum.  
Completed Sea Wall at Squantum.  
Truck drivers and Stock men at Squantum.  
Concrete Work on Apron and Road at Squantum.  
Complete Wing Shop and Stock Room at Squantum.  
Completed New porch on Mess Hall at Squantum.  
Completed Officers Mess Hall at Squantum.  
Landing Field at Squantum.  
Dismantling and Assembling Shop at Squantum.  
Completed Shooting Range Gallery at Squantum.  
Completed Immersion Tank Cleaning Shop at Squantum Naval Base.

*Drains*

Drain W. Squantum & London Ave.  
Drain Hodges Ave.  
Storm drain at Willard St.  
Storm drain at Bates Ave.  
Storm drain at Highland Ave.  
Drain at Quincy Ave. & Water St.  
Sanitary Storm drain at Mear Ave.

*Libraries*

Library bookmending.  
Refinishing floors at Main Library.  
Painting of Children's Library.  
Refinishing West Quincy Library.  
Install cement floor at Library.  
Refinishing all Library furniture.

*Projects*

Photographers for all projects.  
Planning project at Hingham Amn. Depot.  
Project for prevention of Granite Dust.  
Community Center Project.

*Painting-Refinishing*

Painting signs for Hospital and Nurses Home.  
Painting all buildings at Merrymount Park.  
Painting of Welfare Building.  
Painting Merrymount School.  
Refinishing desks for Welfare Dept.

*Filing*

Filing system Police Department.

*Index System*

New Index system Engineers Office.

Card Index for Welfare Dept.

*Tennis Courts*

Tennis Court at City Hospital.

Tennis Court at Aphthorp & Billing Rd.

*Tree*

Tree trimming throughout City.

Planting and Spraying Trees and Shrubs.

Cutting trees on Abbott Property.

*Bleachers*

Fore River Field Bleachers.

Building of Bleachers at Ward 3.

Building of Bleachers at Montclair playground.

*Alterations*

Alterations E. R. A. Office.

Alterations in E. R. A. alteration.

*Plumbing*

Plumbing Francis Parker School.

Plumbing at Lincoln School.

Architects for local planning.

Beautification of Furnace Brook.

Checking Titles for City Solicitor.

City Nursery Improvement.

Cleaning Beaches.

Cleaning Town Brook.

Completed Am. Legion Building.

Completed Boat and Batttery Overhaul Shop.

Completed Officers Ward Room Screens.

Completed Immersion Tank cleaning shop.

Completed Ski Jump at St. Moritz.

Completed Survey of all City Buildings.

Distribution of food and clothing.

Disbursing drugs to E. R. A. and Welfare cases.

Federal Housing Program.

Foundations for Service Bldg. at Penn St.

Faxon Field Road & Field completed.

Finished Sea Wall at Hough's Neck.

Gypsy Moth Control.

Investigating families of Granite Cutters.

Life guards Metropolitan and Local Beaches.

Local Engineering Dept. for planning.

Meat Inspection.

4 Nurses for Welfare & E. R. A. cases needing Medical attention.

28 Musicians.

Reloaming of Pfaffman Oval.

Screens for porch at Administration Bldg.

Snow Removal for 1930 \$,7606.50.

Quarry operated. Quarrying and cutting Granite for all projects.

Unaccepted Streets—Completed 60.

Water Mains at Willard St.

Water Mains at Evans St.

253 Women worked.

## HOUGH'S NECK SEA WALL

Under a special appropriation made in 1934, the Sea Wall on Edgewater Drive has been completed during the year 1935. The sum of \$15,759.55 has been expended for the work during the year.

## SANITARY DIVISION

Maintenance .....	\$123,442.22
New Equipment .....	4,165.94
	<hr/>
	\$127,608.16

Seventeen trucks are regularly engaged in the collection of rubbish and garbage throughout the city. It is necessary however to employ additional trucks for collection during some portion of the year.

The care of dumps for rubbish is causing much trouble for the department. The sum of \$7,911.80 being expended last year in furnishing cover and caring for same. The numerous fires which occur on these dumps is very annoying to the public as well as to the department.

Last year at the disposal plant 12,725 cubic yards of garbage were sold and 160 cisterns were cleaned by the department.

The new equipment purchased for the division were:

One Ford Coupe.

Two Dodge dump-body garbage trucks.

New Cesspool tank and cradle.

## GYPSY MOTH

Maintenance .....	\$16,498.16
New Equipment .....	616.45
	<hr/>
	\$17,114.61

This department has been particularly active this year. In addition to its regular appropriation E. R. A. and W. P. A. labor has been available for Gypsy Moth Control, Tree Trimming and Tree Surgery Projects. Moth egg clusters were sprayed and creosoted throughout the entire city. Wild cherry trees have been cut and cleaned in infested areas. Trees have been cleaned of dead limbs and many scars have been filled and treated.

A much needed greenhouse has been partially completed at the Penn Street nursery with W. P. A. labor and in the spring the department will have about 10,000 potted plants and 10,000 pansy plants for the numerous flower beds in the city.

Land has been reclaimed and graded with screened loam for the transplanting of trees and shrubs.

During the year about 800 trees have been planted throughout the city with E. R. A. labor and we hope to continue this work this year.

About 330 bills for spraying trees and private property and 15 bills for trimming trees have been rendered and committed to the City Treasurer for collection.

Where tree trimming is necessary for the operation of the Quincy Electric Light & Power the work is superintended by this department and the cost is assumed by the company.

One new Dodge Coupe has been purchased by the department this year.

## REPORT OF SEWER DEPARTMENT

---

Hon. Thomas S. Burgin, *Mayor*.  
*City of Quincy, Mass.*

Practically all work on sewer and drain construction performed by this department during the year 1935 was carried on under Federal E. R. A., P. W. A. and W. P. A. regulations. E. R. A. was superseded in October by W. P. A. and sewer and drain extensions were installed by this method.

Two P. W. A. projects No. 1985 and No. 2051 begun in June, 1934 were substantially complete with the finish of the main pipe lines in Curlew Road, Adams Shore and Stoughton Street in the Willows.

Docket No. 1985, a drainage project, involved the construction of a reinforced culvert 8'-6" x 5' and 7'-6" x 5' in size and about 2500 feet long located in Brook Road from School Street to Liberty Street, the construction of lateral pipe lines to the main culvert and the elimination of the open brook through the Ward 3 Playground.

The construction of a reinforced concrete culvert in Furnace Brook where it crosses Adams Street. The regrading and relocation of a portion of Furnace Brook from a point east of Willow Avenue to west of Adams Street.

The construction of a tide gate chamber at the outlet of Montclair Brook in Sagamore Creek. The piping of the brook from the tide chamber to West Squantum Street with about 1000 feet of 60 inch reinforced concrete pipe; the removal of the old stone culvert in West Squantum Street and Holbrook Road and the substitution of pipe at a lower grade at these points. This project was completed and in operation in June 1935.

P. W. A. Docket No. 2051, a sanitary sewer project, comprised the installation of about six miles of sewers in Squantum, Adams Shore, Post Island and the Willows section of Houghs Neck. Slow progress was made on this project and costs exceeded the estimate to quite a degree. Upon completion of pipe laying, late this year, a final inspection revealed serious defects in the main line in Curlew Road and Mallard Road, necessitating the re-laying of considerable pipe in this section before connection can be made with the South Metropolitan High-Level Sewer.

The excess cost in unit prices over the original estimate can be attributed to several causes, chiefly the inability to secure efficient and experienced labor. During the peak of the work over five hundred men were employed on this docket, all procured from the National Re-employment Service Office, and not over 10 or 15% of these men had any previous experience on sewer construction. Work was carried on throughout the severe winter months greatly increasing the unit costs.

Conditions were encountered which the preliminary survey could not show; unusual amount of ground water; existence of more ledge than anticipated and of such character and at such depths as to make its removal very expensive. It was also necessary to leave in place a larger amount lumber than was anticipated for the protection of the sewer line and other existing structures.

While these projects provided work for a large number of men it is only logical to use the type of men accustomed to this sort of work in order to produce economically and efficiently.

We have found it very difficult and unsatisfactory to carry on a job of this particular type on a force account basis under Federal Regulations as applied.

## Particular Sewers

179 house connections were made with the common sewer this year, thirty-three of which were new and one hundred and forty-six old or existing buildings, an indication that new building construction is still far below normal. The total length in connections was 8,527.0 feet making the average cost per connection \$43.87.

Connections are classified as follows:

Single houses	151	Eventide Home	1
Two-family houses	13	Business places	10
Four-family houses	1	Drains	3

# REPORT OF WATER DEPARTMENT

January 1, 1936

Hon. Thomas S. Burgin, *Mayor of Quincy,*

Dear Sir:

Following is the report of the Water Department for the year ending December 31, 1935.

Respectfully submitted,

EZEKIEL C. SARGENT,

*Commissioner of Public Works*

## WATER RATES

Total assessment for the year 1935		\$407,994.45
State Auditor's Adjustment		82.19
		<u>\$408,076.64</u>
Amount collected	\$344,425.76	
Amount Rebated	997.28	
Water Liens to Tax Collector	22,556.13	
Amount uncollected	40,097.47	
		<u>\$408,076.64</u>
Amount due from previous years		\$118,522.50
State Auditor's adjustment		948.90
		<u>\$119,471.40</u>
Amount collected	\$90,283.74	
Abatements & Adjustments	3,316.95	
Water Liens to Tax Collector	20,693.56	
Amount uncollected	5,177.15	
		<u>\$119,471.40</u>

## SERVICE CONNECTIONS AND REPAIRS

Total assessment for the year 1935		\$12,236.20
Amount due from previous years		9,669.22
Adjustments State Auditor		1,153.19
		<u>\$23,058.61</u>
Amount collected	\$12,998.88	
Abatements & Adjustments	3,398.00	
Water Liens to Tax Collector	815.18	
Amount uncollected	5,846.55	
		<u>\$23,058.61</u>

## WATER LIENS

Amount committed for the year 1935		\$44,842.27
Amount uncollected		19,341.37
Adjustments State Auditor		434.30
		<u>\$64,617.94</u>
Amount collected	\$10,191.00	
Abatements & Adjustments	1,827.75	

Tax Titles .....	8,932.08	
Amount uncollected .....	43,667.11	
		\$64,617.94

## WATER RESERVE

Water collections .....	\$447,708.38	
Water Lien collections .....	10,191.00	
Water Liens on Tax Titles .....	8,932.08	
Water Deposit transfers .....	430.27	
Balance 1935 appropriations .....	3,797.76	
		\$471,059.49
Deficit January 1, 1935 .....	\$ 33,704.17	
Appropriations .....	223,057.50	
State Assessments .....	205,952.68	
Adjustments .....	618.66	
		463,333.01

SURPLUS .....	\$ 7,726.48
---------------	-------------

For Statement of Appropriations see Auditor's Report.

## SUMMARY OF STATISTICS

<i>Population.</i> Estimated on July 1, 1935 .....	77,500
Total consumption of water in gallons for the year 1935 .....	1,844,929,000
Average daily consumption of water in gallons for the year 1935 .....	5,054,600
Gallons per capita per day .....	65

*Main Pipe*

Main pipe laid in year 1935 in feet .....	16,983
Main pipe total in mileage .....	193.98

*Fire Hydrants*

New hydrants installed in year 1935 .....	25
Total number of hydrants now in use .....	1,803
Hydrants changed .....	16
Hydrants moved .....	1
Hydrants broken .....	11
Hydrants discontinued .....	4

*Gate Valves*

New Gates installed in year 1935 .....	65
Total number of gate valves now in use .....	3,137
Gates packed .....	38

*Service Pipe*

New services laid in year 1935 (feet) .....	2,668
Total length of services now in use (feet) .....	788,748
Number of taps made during year 1935 .....	58
Number of services now in use .....	17,038
Services frozen .....	45
Services cleaned (poor pressure) .....	596
Services renewed .....	141
Services repaired (leaks) .....	679
Services discontinued .....	35
Leaks repaired in mains .....	23
Average length of water service (feet) .....	46

*Meters*

Number of meters installed in the year 1935 .....	58
Number of meters now in use .....	17,038
Meters taken out for repairs and test .....	1,282
Number of connections for fire purposes only .....	53
Per cent of services metered .....	100%

## CONSUMPTION OF WATER FOR PAST FIVE YEARS

Year	Yearly Consumption	Average Daily Consumption	Per Capita Per Day
1931	1,921,287,000 gallons	5,263,800 gallons	71.6 gallons
1932	1,912,130,400 gallons	5,224,400 gallons	70 gallons
1933	1,864,055,000 gallons	5,107,000 gallons	67 gallons
1934	1,823,357,500 gallons	4,995,500 gallons	65 gallons
1935	1,844,929,000 gallons	5,054,600 gallons	65 gallons

AVERAGE DAILY CONSUMPTION OF WATER FOR 1935  
IN GALLONS

January	4,960,300	July	5,307,200
February	5,051,700	August	5,748,500
March	5,183,200	September	4,890,100
April	4,806,500	October	4,921,100
May	4,976,400	November	4,840,400
June	4,907,000	December	5,054,600

For the year 1935—5,054,600 per day and 65 gallons per capita per day.

# REPORT OF INSPECTOR OF BUILDINGS

January 1, 1936

Honorable Thomas S. Burgin,  
Mayor of Quincy, Quincy, Massachusetts,

Dear Sir:

I herewith submit the twenty-ninth annual report of the Building Department for the year ending December 31, 1935.

## TABULATION OF BUILDING OPERATIONS FOR 1935

### Ward 1

Permits	Estimated Cost
14 Dwellings .....	\$145,200.00
2 Cottages .....	600.00
6 Mercantile .....	12,410.00
30 Garages .....	7,000.00
211 Alterations .....	85,032.00
11 Removals .....	1,860.00
4 Miscellaneous .....	610.00
278	\$252,712.00

### Ward 2

1 Dwelling .....	\$2,200.00
1 Mercantile .....	1,500.00
3 Storage .....	820.00
20 Garages .....	4,025.00
106 Alterations .....	46,852.00
8 Removals .....	505.00
2 Miscellaneous .....	275.00
141	\$56,177.00

### Ward 3

3 Dwellings .....	\$14,500.00
1 Mercantile .....	600.00
1 Storage .....	300.00
12 Garages .....	2,580.00
86 Alterations .....	28,697.00
3 Removals .....	510.00
106	\$47,187.00

### Ward Four

5 Dwellings .....	\$19,300.00
2 Mercantile .....	6,600.00
2 Storage .....	520.00
12 Garages .....	14,890.00
57 Alterations .....	14,160.00
7 Removals .....	420.00
1 Miscellaneous .....	250.00
86	\$56,140.00

## Ward Five

4 Dwellings	\$17,800.00
2 Mercantile	2,150.00
40 Garages	10,010.00
146 Alterations	49,867.00
6 Removals	670.00
198	<u>\$80,497.00</u>

## Ward Six

6 Dwellings	\$26,700.00
2 Mercantile	1,000.00
1 Storage	3,000.00
23 Garages	5,032.00
134 Alterations	39,596.00
4 Removals	2,650.00
6 Miscellaneous	291,605.00
176	<u>\$369,583.00</u>

One of the miscellaneous permits issued in Ward Six was for the new wing on the North Junior High School. The estimated cost for this addition was \$288,280.00.

## PERMITS ISSUED

33 Dwellings	\$225,700.00
2 Cottages	600.00
14 Mercantile	24,260.00
7 Storage	4,640.00
137 Garages	43,537.00
740 Alterations	264,204.00
39 Removals	6,615.00
13 Miscellaneous	292,740.00
985	<u>\$862,296.00</u>

## STATEMENT

Cash received each month for permits issued from January 1, 1935 to December 31, 1935 and paid to the City Treasurer, is as follows:

January	\$18.00
February	44.50
March	60.50
April	96.50
May	158.00
June	252.50
July	86.50
August	165.00
September	110.50
October	143.50
November	112.00
December	86.00

\$1,310.50

Respectfully submitted,

ALRICK A. WEIDMAN,  
*Inspector of Buildings*

## REPORT OF INSPECTOR OF WIRES

January 2, 1936

Honorable Thomas S. Burgin,  
 Mayor's Office, Quincy, Massachusetts,  
 Dear Sir:

I respectfully submit my annual report as Inspector of Wires for the year ending December 31, 1935.

### INSPECTION IN BUILDINGS

The following specified schedule of electrical inspections made of lights and other appliances installed.

Number of permits issued in 1935 .....	1,606
Fees received for the above .....	\$1,373.00

Fees received from Jan. 1, to Dec. 31, 1935, inclusive:

January .....	\$34.00	July .....	\$234.00
February .....	55.00	August .....	303.00
March .....	96.00	September .....	102.00
April .....	70.00	October .....	137.00
May .....	104.00	November .....	69.00
June .....	78.00	December .....	91.00
			<hr/>
			\$1,373.00

Number of electricians doing work in 1935:

Local 120.                      Outside 270

Inspections made as per permits issued .....	1,782
Defects noted on installations (new) .....	156
Number of unfinished installations .....	27
Number of old installations reinspected .....	473
Number of defects in old installations .....	556
Reinspections after fires .....	38
Total inspections made during the year .....	2,293
Total amount of permits issued to Quincy Electric Light & Power Company to install service and electrical appliances .....	331
Electric ranges installed .....	95
Refrigerators wired for .....	15
Number of lights wired .....	3,183
Oil burners and gas burners wired for .....	570
Signs wired for .....	222
Number of motors wired for .....	439
Total horse power of above .....	280½

### NUMBER OF NEW BUILDINGS WIRED

Single houses .....	31
Two apartment houses .....	1
Mercantile houses .....	14
Miscellaneous .....	14
Garages .....	137

## ADDITIONAL WIRING IN OLD BUILDINGS

Single houses .....	803
Two apartment houses .....	72
Three apartment houses .....	10
Four apartment houses .....	8
Mercantile houses .....	300
Manufacturing .....	22
Garages .....	31
Miscellaneous .....	220
	<hr/>
	1,466

Respectfully submitted,

FRANK LINTS,

*Inspector of Wires*

OVERLOOK — WARD FOUR

## REPORT OF THE CITY PLANNING BOARD

---

*To His Honor the Mayor and Members of  
the City Council:*

Gentlemen:

We herewith submit the twenty-first annual report of the City Planning Board for the year ending December 31, 1935.

There were three studies made during the past year which we wish to submit at this time for your consideration. The City is so located that at present we have no direct communication to the West, except by a restricted Parkway, between the Milton and Braintree boundaries. Our first study consequently follows:

### SOUTHWEST CUT-OFF

There is much need for an approach to the State highways leading to Taunton, Fall River, Providence and the Shore line routes. Starting from the Southerly border of Ward 3, beyond the New England Coke plant, following the abandoned right of way of a spur of the Granite Branch Railroad at end of the stony rise of Pine Hill a layout can be made to Common Street in Braintree, thence to Granite Street in Braintree furnishing contact with the new extension of Chickatawbut Road in the Blue Hills Reservation and ultimately connecting with Wood Road making a direct highway to Route 128 and West Street, Braintree and through to the Southwestern points.

This plan at present would require a grade crossing of the Granite Branch but in the event of future electrification of these tracks and a circuit of the main line, the railroad could overpass our roadway. A more immediate relief though not quite so direct would be the extension of Penn Street to underpass the Branch at its present location and extend to Washington and Cherry Streets in Braintree. Under this plan the very dangerous right angled underpass of Centre Street could be eliminated and a through way provided from Braintree to Quincy westerly of the railroad.

### CONTINUATION OF BROOK ROAD

The continuation of Brook Road Extension around Fort Hill to Granite Street at Scotch Pond Place would not only provide a level, ample way to West Quincy via Water Street but would be in line for traffic to the new Shawmut Trail, now before the Legislature, with its connection to Dedham. At this time the project would be in the line of economy, the City having planned a portion of the location for the School Street Project along the brook which was not used. The approach to Granite Street would be through a disused stone shed and yard and meet the widening of that street to this point which the City has under consideration. This extension would also take care of added traffic from the South that would be attracted through Penn and Pleasant Streets.

### RADIAL HIGHWAY, FRANKLIN STREET TO WASHINGTON STREET

A through highway beginning at Bradford Street on Franklin Street opposite Independence Avenue and cutting through to Quincy Avenue at the junction of Water Street thence through to Washington Street at Fowler Street, connecting with the proposed extension of Newcomb Street at Pond Street would provide a thoroughfare to and from the

South of Quincy to the Southern Artery, Quincy Shore Boulevard and Houghs Neck and avoiding added congestion at Quincy Square. Existing streets could be used in part for this layout and there is much vacant land that would be utilized.

With the advent of a Federal Resources Board, a New England Regional Plan Commission, a State Planning Board, a Norfolk County Planning group and the proposed legislation adding to the duties of Municipal Boards, city and town planning is reaching a stage of usefulness that an interested membership can do much to make worth while.

We have to record at this time the passing of a member who took a keen interest in the work of this Board, Mr. John Forrest, our Vice Chairman.

Respectfully submitted,

CITY PLANNING BOARD

Wilson Marsh, *Chairman*

John A. Sandison

James C. Horne

Walter W. Holland

Gerhard F. Schafer, *Clerk*

## REPORT OF BOARD OF SURVEY

---

*To His Honor the Mayor and the Members of  
the City Council:*

Gentlemen:

We herewith submit the Twentieth Annual Report of the Board of Survey.

There were no applications for approval of layouts of new developments submitted to the Board during the year.

The Board considered and took the necessary action and changed the name of Stratford Street in Ward Four to Grogan Avenue.

Respectfully submitted,

LOUIS F. R. LANGELIER, *Chairman*  
JOSEPH N. NOVER  
JOHN J. MANNING

GERHARD F. SCHAFFER, *Clerk*

## REPORT OF CITY SOLICITOR

---

December 31, 1935

Hon Thomas S. Burgin,  
*Mayor of Quincy, Massachusetts*

Dear Sir:

During the past year the City Solicitor has carried on the work of the Law Department of the city in accordance with the requirements of the statutes and ordinances in relation thereto.

Respectfully submitted,

JOHN D. SMITH,  
*City Solicitor*

## REPORT OF ENGINEERING DEPARTMENT

---

To His Honor the Mayor and  
Members of the City Council

Gentlemen:

I herewith respectfully submit the thirty-seventh annual report of the Engineering Department for the year ending December 31, 1935.

Probably never in the past has this department been called upon as frequently as in 1935 for information pertaining to engineering matters. The enormous amount of projects under P.W.A., E.R.A. and now W.P.A. have increased work many times. The personnel has been increased by E.R.A. and W.P.A. "City Planning Projects" nearly 100%. Therefore, I shall not attempt to itemize these projects, but will include a general description under the various headings to follow.

### City Council

All meetings of the City Council and meetings of the Finance Committee were attended by the City Engineer to furnish when requested such information as to costs, and to advise on projects submitted by them.

Plans for the acceptance of streets, land takings, sewer drains and for hearings of various kinds, were prepared by this office.

### City Clerk

The City Clerk was furnished with all plans for the acceptance of streets and land takings which were recorded by him with the council order.

All accidents are reported to the City Clerk who sends a copy to this department for investigation. Necessary surveys were made to prepare for any legal action that may be taken against the City.

### City Solicitor

The City Engineer is called upon to prepare plans required, and to testify in his capacity for the City Solicitor in any legal action taken against the City.

Plans for releases with description of taking for land, sewer or drain easements were prepared in this office. The City Engineer also interviewed individuals whose property was effected and prepared all information required by the City Solicitor.

### Tax Collector

During the year the department was called upon to furnish 10,160 descriptions of parcels of land to be sold for unpaid taxes, an increase of 25% over 1934.

The requests received by the Tax Collector for information from individuals and attorneys regarding outstanding betterments or liens, were checked by this office. 403 such requests were received, a decrease of about 30% for the year 1934.

### Assessors' Department

Due to the enormous increase of transfers of ownership, and work involved in making the necessary changes on Assessors' tracings, it now requires two assistants to give most of their time to this work. During the year there were 4,970 transfers of properties, as against 2,835 for 1934.

There are about 700 Assessors' plans on file and each year about 100 must be redrawn because of excessive wear, due to handling and erasures, caused by changes in ownership.

When requested, surveys and plans were made for Tax Appeal Cases. Several such surveys were made during the year.

### Park Department

There has been much activity in this department during the year requiring the constant services of engineers.

The beautification of Faxon Park, including the building of a stone wall, laying out of streets and paths, the survey of additional land given by Mr. Henry M. Faxon has required much time and study. This park when complete, will be one of the beauty spots of Quincy and the South Shore.

Monroe Field, acquired during the year by deed of gift from Mr. Henry M. Faxon is another addition to our Parks and Playgrounds which should be greatly appreciated by the residents of Ward Two.

An extensive survey and study plan is being made of Merrymount Park and I would recommend that when completed, a competent Landscape Architect be employed to lay out and suggest ideas to the Council for the future development of the most beautiful spot in our fair City.

Parks and Playgrounds in every ward have been recommended under W.P.A. for improvements. If such recommendations are approved by the Federal Government our Playgrounds will be second to none.

### Cemetery Department

The project for the continuance of the wall around the cemetery has been prepared by this office, the work to continue in 1936, also a project for resurfacing the main streets and paths through the cemetery, with the re-laying of about 2,500 feet of new water pipe.

The grading of the undeveloped area should be completed early in 1936 and will provide space for a number of years to come.

A survey of the entire cemetery is being made under a W.P.A. Project. When finished there will be available a complete plan showing each lot with number, all streets and paths with names, also showing the available space for future lotting of graves. This is a worthy and much needed project.

At various times during the year this department is called upon to stake out additional lots and single graves.

### Building Department

During the year 175 applications for permit to build or move buildings were received and referred to this Department. The City Engineer personally visited each site and established the grade.

### Street Lines and Grades

There were very few calls to furnish street lines and grades. In normal times many requests for these are received and taken care of as a routine matter. This work is done only on accepted streets.

### Sewers

The P.W.A. Sewers under Docket No. 2051 were completed which included a section of Adams Shore, Houghs Neck and Squantum. The total amonut allotted for this construction was \$399,000.00.

No main sewers were built from City Funds during 1935, as no money was placed in the budget for new construction.

A number of Sewer Projects were approved under W.P.A. some of which have been completed, and others are now under construction.

The original plans for this work were drafted in this office, and when complete, the record tracings will be made, and betterment schedules will be prepared.

All Sewer Construction is under the supervision of Mr. Walter S. McKenzie, Superintendent of Sewers.

Total of new sewers built during 1935 was 2.99 miles.

For list of sewers constructed during the year see attached schedule.

### Surface Drains

Much work was done under E.R.A. and later continued under P.W.A. during the year. A large portion of Furnace Brook and parts of Town Brook have been cleaned, straightened, widened, rip rap placed, new walls built and old walls repaired. This work will extend into 1936 before being completed and will save the City many dollars on maintenance in the future.

Many new drains were planned, some of which are under construction, and others will be started as soon as approval is received from the Federal Government under W.P.A.

This work is supervised by the Sewer Division of the Public Works Department.

For schedule of location with length and sizes see attached list.

### Accepted Streets

Carlisle Street for a length of 400 feet was the only street accepted during the year. Other work done on accepted streets is classified under the headings of Street Widenings and Rebuilt Streets.

Much work has been done with E.R.A. and W.P.A. labor in grading and tarring unaccepted streets. On these projects the City furnished all the material used on the work.

### Street Rebuilding

An extensive program of rebuilding was carried out during the year. \$249,214.15 being appropriated for this work.

The rebuilding of West Squantum Street from Harriet Avenue to the Milton Town Line was probably the outstanding one of the year. It has opened a much needed artery for the Northern end of the City to Milton.

The removal of the car tracks and resurfacing Water Street and Copeland Street has remedied and improved traffic conditions in that part of the City. With the building of the over-pass at Quincy Adams assured and the possibility of Willard Street being built in the near future by the State, another much needed artery for travel will be a reality.

Elm Avenue was rebuilt and new curbing placed on both sides for its entire length.

The widening of a portion of East Howard Street eliminated another traffic hazard.

The car tracks were removed and that part resurfaced on the entire length of Independence Avenue to the Braintree Town Line.

### Street Names Changed

After a Public Hearing was held by the Board of Survey on October 21, 1935 the name of Stratford Street was changed to Grogan Avenue.

In order to eliminate duplicate street names the City Council under Council Order No. 523 of 1935 changed the name of Linden Place to Gilson Road.

### Curbing

During the year 5,753 lineal feet of granite curbing was laid in various parts of the City. The stone was quarried and cut at the Gray Rock Quarries under an E.R.A. Project.

For list see attached schedule.

### Granolithic Sidewalks

For the fourth consecutive year there was no appropriation for this type of work.

### Asphalt Sidewalks

Again this year many miles of this type of sidewalk were constructed. The appropriation for sidewalks was \$115,316.62.

In addition to this appropriation the City received under Chapter 464 of the General Laws \$31,998.65 which is being used for this class of work. Some of the streets have been completed but a majority of the work will be done during 1936.

For itemized list see attached schedule.

### Conclusion

May I take this opportunity to express my appreciation for the co-operation I have received from His Honor the Mayor, Members of the City Council, Department Heads, E.R.A. and W.P.A. Officials, also for the loyalty shown and co-operation extended to me by the personnel of this Department.

Respectfully submitted,

GERHARD F. SCHAFER,  
City Engineer.

Schedule No. 1  
SEWERS CONSTRUCTED DURING 1935

Perpetual Care Fund—Interest .....	7,439.49
Other Trust Funds—Interest .....	219.67
	\$37,274.66

### EXPENDITURES

Manager—Salary .....	\$2,030.00
Superintendent—Salary .....	2,068.65
Clerk—Salary .....	700.00
Supplies and Expense .....	1,985.77
Equipment—Maintenance and Operation .....	735.74
New Equipment .....	700.00
Labor .....	29,847.76
	\$38,068.52

In 1935 there were five hundred and ten (510) burials and thirteen (13) removals.

A statement of the Perpetual Care investment will be found in the City Treasurer's report.

## REPORT OF CITY PHYSICIAN

---

February 28, 1936

*To His Honor,*

Mayor Thomas S. Burgin:

I beg to submit the following report for the year ending, December 31, 1935.

At the outset it may be stated that this report only covers, the latter half of the year, as I did not get my appointment until the 26th of June.

Shortly after taking office, I felt the need of some method of keeping a more complete record of the work done by the Department, so a card system was installed.

As the care of the sick in all families on Welfare, and in addition, the medical care of all cases of Old Age Assistance, those at the City Home, emergency calls at the Police Station, Welfare Cases at the Wellington Home and Hospital, it is easily understood that it entails a good deal of work.

In addition to this, the workers on E. R. A. and their families are entitled to the services of City Physician, or his assistant.

Before getting my appointment, one of the Assistant City Physicians resigned his position. This position was not filled.

There are three out patient clinics a week at the Dispensary.

We have tried so far as possible to fill the needs of all our patients from the Drug Department in the Dispensary, thus curtailing to quite an extent the expenses of the Department.

We have had a nurse assigned to the Department, who has assisted very materially in the work, especially at the clinics.

If I may be permitted to make a suggestion, it is that the office of City Physician be divorced entirely from the Welfare Department, that the City Physician have the Medical Care of all patients in the City Home, all City patients in the City Hospital, and the Wellington Home, also Emergency cases at Police Station, and the Medical Care of those on Old Age Assistance. This to my mind, is a large enough assignment for the City Physician. The care of Welfare recipients, both Medical and otherwise, should be under the supervision of the Welfare Department.

The following is a synopsis of the work done:

Number of house calls .....	979
Number of patients seen at clinics .....	1345
Number of patients referred to hospital .....	79
Number of patients referred to dentist .....	16
Number of patients referred to ear, eye, throat and nose .....	58
Number of calls to the Police Station .....	10
Number of children vaccinated .....	50

Respectfully submitted,

J. M. MacLEOD,

*City Physician.*

## REPORT OF SEALER OF WEIGHTS AND MEASURES

January 1, 1936

Honorable Thomas S. Burgin,

*Quincy, Massachusetts,*

Dear Sir:

I respectfully submit the annual report of the Weights and Measures Department for the year ending December 31, 1935.

Respectfully submitted,

JAMES M. CANTFILL,  
*Sealer of Weights and Measures.*

## REPORT OF PUBLIC WELFARE DEPARTMENT

---

March 19, 1936

*To His Honor, the Mayor of the City of Quincy and  
Members of the City Council:—*

The Department of Public Welfare respectfully submits the following report for the year ending December 31st, 1935.

The past year was a very unusual one so far as the Welfare Department was concerned. The special City Election last June caused a change in all the department heads and Charles A. Richardson was appointed Commissioner of Public Welfare to replace Roland Broberg. Mr. Richardson had not much more than become acquainted with the department when illness prevented him from continuing as Commissioner. Since August 1st it has been my pleasure to have charge of the Department and it is mainly of these five months that I can speak.

The first half of the year was not particularly burdensome to the department because the E. R. A. was functioning quite smoothly. During the latter part of August, a change in Federal projects created widespread unemployment and the relief rolls jumped to the high figure of 1497 cases. Since that time conditions have been very unsettled in so far as Federal projects were concerned and payless pay days became the rule rather than the exception. There were instances of men working three or four weeks without pay, who were forced to apply to this department for aid. This necessarily increased the amount of temporary aid rendered the last four months of the year.

There have been many changes in the several units of the department. As time goes on, we are planning to make other changes which we feel certain will increase the efficiency of the department and at the same time reduce the costs of public relief without in any way jeopardizing either the health or comfort of the recipients.

The time has come when Welfare Departments must get on a real business basis and that is what we propose to accomplish. It has been the unequal distribution of public aid which has caused widespread dissatisfaction everywhere, and it is a difficult task to remove some cases from public relief rolls after they have been welfare recipients for years. It is quite easy to say "yes"—it is quite difficult to say "no"—and the burden rests upon those who deal daily with the people who are seeking aid.

For the most part, the employees in the Welfare Department have been untiring in their efforts to serve the people and they have been very loyal to their trust. They have spent much extra time during the last three or four months of the year, and deserve commendation for their willingness to assist in raising the standards of the department to a high level.

The conditions at City Home throughout the year were practically normal considering the times, and the Home has been very well conducted by Mrs. Vaughn. A Federal project to remodel the Home has been approved and when the work is complete, we will have a very attractive place where we can care for more people and do it more economically.

Very few records were kept at the Dispensary prior to August 1st 1935, so that it is impossible to make a comparison with previous years. We now have a complete index system which enables us to

keep an accurate account of all medicines dispensed to recipients.

We are indebted to the many private agencies that have cooperated with the department during the year, and I feel sure that the year 1936 will witness a further spirit of effective co-operation among all agencies in the City. The Board of Health, the City Hospital, the Massachusetts Society for the Prevention of Cruelty to Children, the Family Welfare Society, the Visiting Nurses Association of Quincy, the Courts and Probation Office, and the Police Department have given valuable service and one hundred percent co-operation, and we take this opportunity to acknowledge the same.

For details of expenditures reference is made to report of Auditor of Accounts.

Respectfully submitted,

ALVIN S. WIGHT,

*Commissioner of Public Welfare*

Children able to support—4.	

## ANNUAL REPORT OF THE PARK DEPARTMENT

---

December 31, 1936

Hon. Thomas S. Burgin,  
*Mayor, Quincy, Mass.*

The following is the annual report of the Park Department for the year of 1935.

The activities of the department were greater this year than the last few years, as more people were taking part in all kinds of sport. Many ponds in the city were cleared and flooded for skating, skiing and tobogganning. A new ski jump was created this year at St. Moritz. Soccer is very popular in the city, Fore River and Faxon Fields being used for this sport.

A senior and junior baseball league was organized by the Board and the two leagues had a very successful season. In the fall a football league was organized by the Board and later a basketball league was formed, the first for many years.

Tennis playing is becoming more popular each year, and the tennis courts in the different parts of the city were well attended. The playing on these courts has been very orderly, considering that there are no custodians in charge. The championship of the city games were played on the Faxon Courts.

The tennis courts in the city are as follows:

- Double Court—Wendell Moses Playground.
- Double Court—Welcome Young Playground.
- Double Court—Merrymount Park.
- Double Court—South Jr. High School.
- Single Court—Adams Playground.
- Four Courts—Fore River.
- Five Courts—Faxon Field.

The annual Bonfire and Carnival held by Post 95 of the American Legion at the Pageant Field attracted thousands of people. This was held July 3rd and 4th. The bowling on the green at Merrymount is getting more popular every year, all classes of men bowling side by side and enjoying it. The indoor horseshoe-pitching was discontinued this year at Fore River Club, as people living in the vicinity claimed that too much noise was made playing this game.

The following permits were issued:

Baseball .....	1301
Football .....	59
Soccer .....	103
Outings and picnics .....	73

The playgrounds in all districts were used by the schools for their sports. July and August the playgrounds were conducted under the supervision of paid instructors, who introduced many new playground activities. The attendance was greater at all playgrounds, showing an average daily attendance of 2,613. During the past year many improvements have been made, some of them being: new stands at Kincaide, Fore River and Montclair Fields; filling the hole at Merrymount; regrading the Oval and Kincaide, Montclair, Hollis and O'Rourke fields. Some minor repairs were made in most all playgrounds

and parks. The old clubhouse at Squantum was moved, and is now located at Merrymount Park and used as a tool supply house for this department. The Fore River Clubhouse was closed the latter part of the year to allow an E. R. A. Project to be completed. This building was in poor condition, but extensive repairs have been made and it is now a building of which we may be proud.

Through the generosity of Mr. Henry M. Faxon, one of our well-known citizens, gifts to the city of land for recreational purposes have added greatly to the parks and playgrounds of the city. We are greatly indebted to Mr. Faxon for the following gifts, of which we are making a brief report.

### FAXON PARK

Faxon Park, one of the oldest parks in the city, was deeded to the city October 26, 1885 by the late Henry H. Faxon. It has remained as an open space; with its beautiful trees and interesting ledges, for the past fifty years.

The Board gratefully acknowledges the sympathetic interest of the city authorities and the local Federal officials in obtaining a W. P. A. project for the improvement of the Park. This timely project, begun earlier in the year, has greatly relieved the unemployment situation. Before proceeding with the work a general plan for development was decided upon. In this survey it was discovered that two parcels of land abutting would greatly add to the beauty and completeness of the whole. Fortunately this area was held by Henry M. Faxon, who, after having a comprehensive plan developed, gave 27.8 acres to the city for park purposes by deed dated December 13, 1935. This gift of Mr. Faxon rounds out and completes the area given by his father fifty years ago, the whole being a part of the old Faxon Homestead. Filed with the deed is a plan for suggested development designed by Herbert J. Kellaway, Landscape Architect. This plan provides for a drive to reach the main portion of the Park, with suitable parking spaces for automobiles. There is a playfield, site for a field house when needed, and little children's play space.

One of the most important parts of the design is the Overlook, located upon the new gift of land. The Overlook commands one of the most extensive and magnificent views of Boston Harbor, the islands and adjoining shores. The total area of the Park is now 54.6 acres. This open space, admirably adapted for park purposes and so near the heart of the city, will contribute greatly to the happiness of our people for all time.

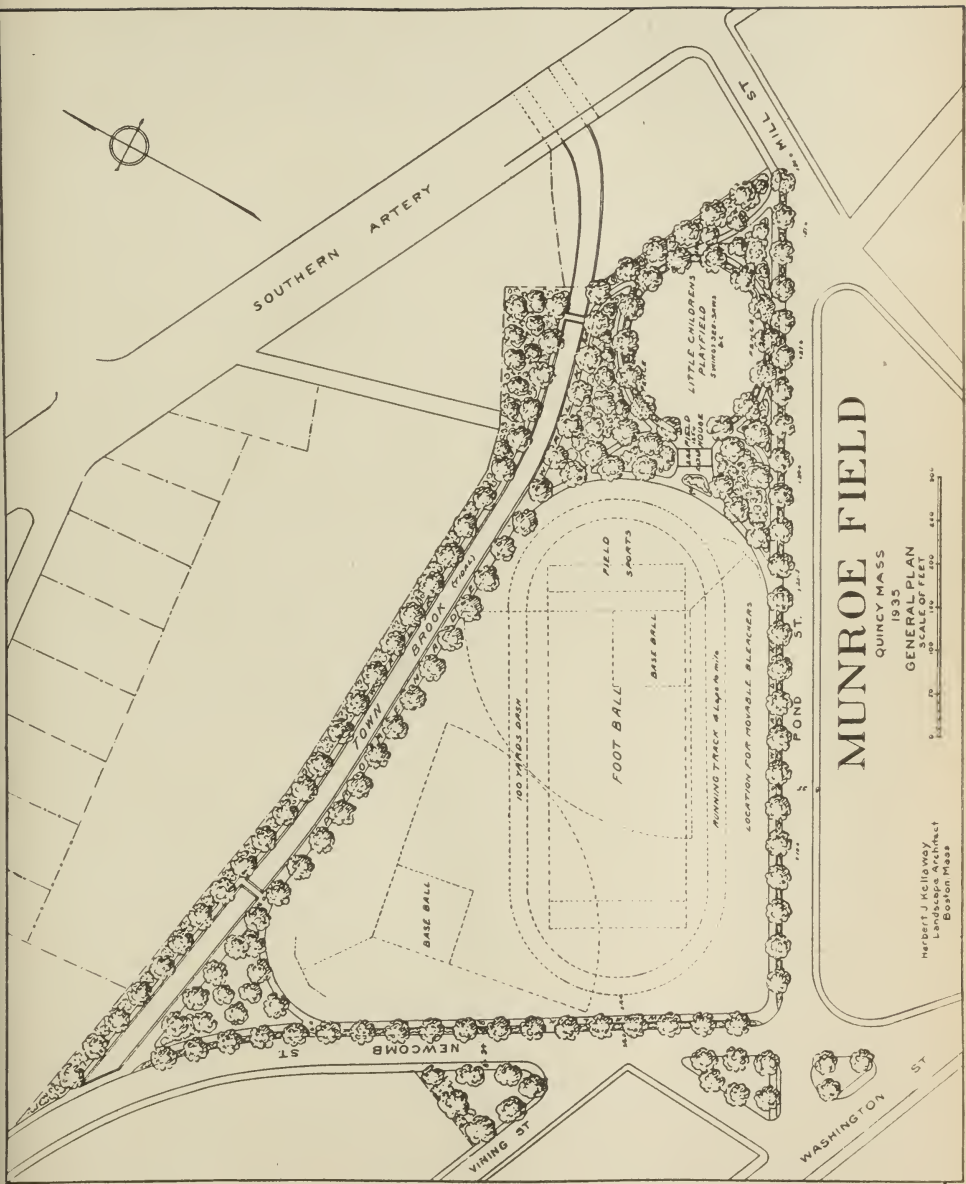

### FAXON FIELD

During the year under the E. R. A. important development of the field was made in accordance with the original plan by Herbert J. Kellaway, Landscape Architect.

The principal improvements were the construction of Edgefield Road on the westerly boundary of the field and extending from Woodward Avenue to the Southern Artery. The football and soccer field was graded, sown, and the playing area greatly enlarged.

The continuous line of flowering shrubs, which were donated by Mr. Henry M. Faxon, some eight years ago, and extend along Woodward Avenue, Coddington Street and the Southern Artery, present a beautiful sight, especially in early spring, when the yellow forsythia is in full bloom.

This field, of over twenty-one acres, so centrally located, adjoining the Senior High School, has become a great recreational center for the youth of Quincy.

## FAXON FIELD TENNIS COURTS

The Park Department gratefully acknowledges the generous cooperation of Mr. Henry M. Faxon, the donor, who has borne all the expense of supervision and maintenance of the courts for the last seven years.

The courts were open from May 5th to September 10th, with 13,680 hours of play, and are growing in popularity with each succeeding season.

## MUNROE FIELD

A valuable addition has been made to the park system of the city by the addition of the tract of land on Pond Street near the Southern Artery and extending to the Tow Path, so-called, on the northerly side of the canal, containing 9 2-10 acres.

Mr. Henry M. Faxon, realizing the need for a permanent recreational area in this locality, deeded the tract to the city on September 17, 1935, as a memorial to his maternal grandfather, Israel Warren Munroe, to bear forever the name of "Munroe Field".

The Quincy Point Junior High School and the Daniel Webster School in the immediate vicinity, with an enrollment averaging 1,200 pupils, have no adequate playground facilities. The opening of the new field will be ideal for sports and pastimes for these two schools.

We offer the following recommendations:

Chain fence on the following playgrounds: Kincaide, Bradford, O'Rourke, Montclair, LaBrecque, Perkins and Avalon.

Four extra men in the department.

Finish Kincaide playground.

Breakwater wall in Merrymount Park, rear of Pageant Field.

Respectfully submitted,

WM. J. SPARGO, *Chairman*,  
J. ERNEST COLLINS, *Secretary*,  
ORRIE D. WILLIAMS.

Open Saturday, 9-12 A.M., 1-6, 7-9 P.M.

HOSPITAL SERVICE, Quincy City Hospital

Monday, Wednesday and Friday, 2-5 P.M.

## REPORT OF THE TRUSTEES

*To His Honor, the Mayor of the City of Quincy:*

The sixty-fifth annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

The library department during the year 1935 was again obliged to operate on a reduced budget, the direct result of which was a regrettable decrease in the number of books which could be purchased. This in turn resulted in a decrease in circulation, the number of books loaned being nearly 80,000 under the figures for 1934 and 130,000 under those of 1933. The supply of new books was inadequate and legitimate demands of patrons of the library could not be met. It is needless to say that a larger appropriation must be made for the purchase of books if the past efficiency and high standing of the library are to be maintained. For further details regarding the circulation of books attention is invited to the report of the librarian.

The work which was started in 1934 of renovating the library property made possible under appropriations from the Federal government was continued through 1935, as a result of which the various buildings owned by the library and the equipment therein and the walks and grounds adjacent thereto are now in good condition. This work included a new curb and provision for a parking space in the rear of the main building, also the mending and repairing of books and the taking of an inventory.

The library has been the recipient of some gifts of books, notable among these being several especially fine literary classics presented to the Atlantic branch by the Atlantic Shakespeare Society in memory of members recently deceased. A beautiful electric clock was donated to the Wollaston branch by twelve interested patrons of that library, and the same branch received an exceptionally fine copy of the painting "The Helping Hand" by Renouf, given by the heirs of the late Frank P. Waterhouse of Wollaston. Miss Lane, the secretary of the trustees, presented to the library an excellent print of the Bodleian Library at Oxford, which she brought back from her trip abroad during the summer. The trustees express their thanks for these various gifts.

Arrangements have been made for the construction of exhibit cases to hold the valuable Alice G. Campbell collection of dolls representing the peoples of the different countries of the world. This work is being done by the students of the Quincy Trade School and will be completed at an early date. It is very much appreciated by the trustees.

The main library was the scene of a very pleasant ceremony on August 6th, when the Women's Relief Corps of Paul Revere Post, G.A.R. presented to the City of Quincy and the Library a handsome silk American flag and standard. The presentation was made by Mrs. Belle Morton, former state president of the Women's Relief Corps. The colors were accepted in behalf of the City by Mayor Thomas S. Burgin, who in turn presented them to the Library. They were gratefully accepted in behalf of the Library by the Chairman of the Board of Trustees.

The trustees take this opportunity to acknowledge again the efficient and loyal work of the librarian and members of the staff, and to thank the Mayor and members of the City Council for their support and co-operation.

Respectfully submitted,

GEORGE E. ADAMS,

GEORGIANA CUSHING LANE,  
Secretary.

Chairman.

## REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

Books are the stock in trade of a public library. Without books there is no need of library buildings, shelves, reading room facilities or a staff of employees. Because our greatest problem in 1935 has been the difficulty of meeting the demands for books due to the reduced book appropriations of the last three years, I want to begin this report by presenting some pertinent facts bearing upon this problem.

In 1932 the budget for books and periodicals was \$18,900. In 1933 this was reduced to \$11,000; remained at that figure for 1934, and in 1935 was further reduced to \$10,000. Out of the book appropriation, the Thomas Crane Public Library has to supply new books and make replacements for a main library, a children's department, twelve branches, a hospital library and supplementary book service to the elementary schools which have no libraries of their own. In these three years only 4700 more books have been added than have been discarded, or less than 1600 a year to meet the needs and calls of all the above mentioned agencies. In the children's department where the wear and tear is heavy, more books have been discarded than were purchased in each of these years. In 1922 when the library had only six branches and a circulation of 377,000 volumes more books were purchased than in 1933 or 1935 when we had twelve branches and a circulation of 901,000 and 765,000. The library staff have been the recipients of many adverse comments on the appearance of the shelves, particularly at the branches, because there are so many worn, dilapidated and out-of-date books. No storekeeper expects to do a satisfactory business with stock that is shopworn, shabby and outmoded; no more can the public library.

The relation of losses in circulation of books to decrease in book budgets was clearly brought out at an informal meeting of a group of librarians held in January of the current year, where the discussion turned to comparative records of book loans for 1935. The librarians of those libraries which have had slight or no decreases in book appropriations all reported small gains in circulation, while those libraries which have had cuts reported decided losses. Your librarian, unhappily, was obliged to associate himself with the latter group. In 1933 before the effect of the reduced appropriation was felt, the circulation of the Thomas Crane Public Library was 901,873; in 1934, the number of books loaned dropped to 847,399, a loss of over 50,000. In 1935 another and greater decrease appeared, over 80,000, to a total of 765,727 books loaned, a loss of 136,000 in circulation in three years.

The problem is a serious one. Your library administration watches the use of the Thomas Crane Public Library retrograde instead of advance, yet feels unequal to performing the miracle of making bricks without straw.

Efficient operation of all the agencies and services built up by the library I believe to be impossible with the book budgets of the last three years. Unless there be a curtailment in agencies and services the only alternative is a gradual **increase each year** in the budget for books until an adequate amount is reached.

Against the rather dark background that has just been painted, there are some brighter tints to be sketched in. Our per capita circulation, though it has dropped, is still above that of most public libraries. The percentage of loss in non-fiction was less than for fiction. Though the number of borrowers registered decreased from 25,951 at the end of 1934 to 24,630 on Dec 31, 1935, the figure represents one-third of the population of Quincy. There has been an in-

creased use of technical books in the so-called X room and the usual amount of reference work. Several new improvements in the service have been effected. Mention should be made of the fact that though the main library and all the other branches suffered losses in loans of books, the exceptions were the Merrymount Branch and the Hospital Library which showed slight gains. Early in the year at the suggestion of Judge Kenneth D. Johnson of the Quincy District Court, a list of up-to-date, lively and readable books for boys was prepared by Miss Kingman, our children's librarian. This list met with the enthusiastic approval of Judge Johnson who had it printed in the form of a booklet for distribution to the juveniles who appear in his court.

There have been several changes in the staff during the year. Through their marriage we lost two of our most valued assistants, Miss Marion L. Davis, for six years librarian of the Norfolk Downs Branch, and Miss Muriel L. Cox, librarian of the Montclair Branch. Both Miss Davis and Miss Cox were enthusiastic librarians, hard-workers, and energetic in building up their collections of books and serving the readers in their communities. But the loss which affected us the most came through the tragic death as the result of an automobile accident of Miss Laura Duncanson, librarian of the Atlantic Branch since 1929. Quiet, unostentatious, always finding work to be done and doing it faithfully and conscientiously, Miss Duncanson gave an efficient and always friendly service to the people of Atlantic and to the Thomas Crane Public Library. Her death came as a great shock to her associates, for, to quote from the tribute sent by the staff to the members of her family: "Her unchanging, sunny disposition, willing and cooperative attitude were a source of delight to all who knew her." The vacancies at the branches were filled by transfers from other branches and by the appointment of Miss Ragnhild Lindberg, Miss Betty Keniley and Miss Barbara Hill, all of whom had previously served as substitutes and part time workers. A change in the handling of the work of putting away books and reading shelves was effected during the year. Formerly this work was done by high school girls after the school hours. Increased efficiency has been secured by using two full time assistants, Miss Edna Amet and Miss Elizabeth Keating, who in addition to taking care of such work, fill in on desk schedules and in the work room.

In connection with the staff I should not fail to speak of the exceptionally good work done by Miss Ponti and Miss Giles in the preparation of posters, by Miss Hebert in cataloging the picture collection and in making a much needed analytical index of the collections of instrumental music, and by Miss Henrikson who has been engaged in carrying out her own original idea of making a file of clippings of material relating to authors and to careers, valuable source material for reference use. All the other members of the staff can be commended for equally intelligent and efficient service in their respective assignments.

This annual report is my tenth as your librarian. In these ten years I have seen this library expand in size and extend in use. There is now no section of Quincy over a mile from some one of the agencies of the library, and through our automobile exchange system, all the branches are in almost daily touch with the main library and with each other, the resources of one being available to all the others. During these ten years the Thomas Crane Public Library has supplied the answers to thousands of questions asked by seekers of information. It has provided hundreds of students with collateral and supplementary reading. Other hundreds,—professional people, business men, skilled and unskilled workers, housewives, all classes,—have

found in the library practical books written by experts which have been of help and inspiration in their lines of work. More thousands have drawn from the shelves of this library books which have provided mental stimulation or pleasant relaxation, books which have been a resource in these depression years. And last, but by no means least, countless children have been furnished with and encouraged to read the best of literature written for the youth of today. Over the desks of the Thomas Crane Public Library and its branches in these ten years, 6,964,731 books and magazines have been loaned to individual persons for home reading, books enough if laid end to end to make a path 2000 miles in length or to pave a fifty foot street for 20 miles.

During this decade there have been many changes in the personnel of the staff, for which matrimony has been chiefly responsible. To all who have worked with me I owe a debt of gratitude for their loyalty and efficient service. To them really belongs the credit for whatever has been accomplished. To Miss Callahan I am particularly indebted. She was extremely helpful in my first months of adjustment and all the way along by her executive ability and cooperative spirit she has lightened the burdens of administration and made the road much easier to travel. And on this anniversary I cannot forbear to express my appreciation for the splendid support and friendly personal interest shown by you and by all the trustees of this library under whom I have served.

Respectfully submitted,

GALEN W. HILL,  
Librarian.

February 11, 1936.

Office: School Committee Rooms.

Office Hours: 8 A.M. to 12 M., 1.30 to 5 P.M.  
Saturday, 8 A.M. to 12 M.

## REPORT OF THE SCHOOL COMMITTEE

*To the Citizens of Quincy:*

Your School Committee submits to you the following report for the year 1935.

The most important matter that has occurred during the year as far as buildings and equipment are concerned is the addition of the so-called "west wing" to the North Quincy High School, now under construction, which will be completed in ample time for classes entering in September 1936.

The completion of this wing will not only allow pupils of the North Junior High School to have the facilities and accommodations of which many have been deprived the last two years, but will, by taking junior high pupils from several schools, relieve the congestion in the whole northern part of the city.

The contract for this wing, just under \$293,000.00, calls for an addition containing twenty-six class rooms, shop rooms, etc., as well as fourteen small rooms in the way of teachers' rooms, toilets, etc, and will, when completed, give us a very satisfactory building. If it could have been built when asked for by your Committee, the City would have saved many thousand dollars, and the School Department could have functioned more efficiently.

The school budget for 1935 called for an expenditure of \$1,216,849.15, a part of which will be returned to the City. The slight increase (about 1½%) was necessary on account of the restoration of automatic increase to our teaching force.

In connection with our School Department budget, we respectfully call attention to the fact that approximately \$138,000.00 will be returned to the City from the State Department of Education, rentals of halls, etc.

Your Committee has had an extremely large number of requests during the year for the use of school halls and other rooms without charge. Almost without exception they have been for worthy objects of community interest and value, such as E.R.A. classes, etc. Realizing our obligation to the taxpayer as well as those who made the requests, we have tried to be fair and just to both, but citizens should realize that the Committee cannot grant too free use of buildings without an increase in the budget.

The physical condition of most of our buildings is good, considerable work having been done in the past two years by E.R.A. and W.P.A. projects. The total cost of doing this work in this way is, of course, much more than if done in the ordinary manner, but as only part of the expense has been borne by the Department our budget has not been increased.

In order that every precaution be taken for the safety of our children, we had a detailed survey of all school buildings made by our Fire Department during the year, in addition to the various inspections that have been made by the State.

During the year a class for physically handicapped children has been established in a room at the Thomas B. Pollard school which will enable us to give them better instruction and more enjoyment in life.

Owing to changes at City Hall we have had three Chairmen during

the year, Mayor Charles A. Ross for a few weeks. Acting Mayor Leo E. Mullin for a few weeks, and Mayor Thomas S. Burgin for the balance of the year.

Athletics in our two high schools have suffered somewhat during the year owing to the lack of a proper field on which to hold contests, especially football. A new enclosed field is under construction for the North Quincy High School on Birch St., North Quincy, and we hope the proposed new stadium will be built so that both schools can have the use of it in the fall of 1936.

The program of Law and Order enforcement has been followed up as far as possible this year, though any program in the schools can but supplement the home influence in this, for it is essentially the responsibility of the home and not the school to instruct children in the observance of Law and Order.

We call attention to the fact that this year Mr. Charles H. Johnson retired as our attendance officer after a long and faithful service. He entered the Department in 1898 and has served thirty-seven years most satisfactorily, retiring to take a well merited rest.

Regretfully we record the passing of the following two members of the School Department.

Mrs. Brita Nelson, custodian department since 1927, who died January 17, 1935, and

Miss Marion Jackson, school nurse since 1915, who died May 27, 1935.

The Committee express their appreciation for the faithful and efficient work of our Superintendent and his corps of teachers and personnel. To them we owe the excellent standing of Quincy's schools.

We have received the cooperation of the various Mayors who have served the City this year and also of our City Council. This cooperation has been deeply appreciated.

---

The foregoing report was presented by Col. Sweetser and Mr. Kendrick and adopted by the School Committee as its report for 1935.

---

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the School Committee of Quincy:*

Amid the stress and the turmoil of daily life the Quincy schools move forward. It is gratifying to record a few items of progress which mean much for the general welfare of the school and the city.

*Health Service*—The health service recommended in the Superintendent's report of 1934 has been restored in the Quincy High School and a similar department established at the North Quincy High School. This has met with general favor by the principals, the pupils, the teachers and the parents. Humane treatment is administered to the pupils daily through these services, and much good has been accomplished.

Mr. James S. Collins, speaking of the health service department in his report to the Superintendent, says: "Even though this work was started only a comparatively short time ago, its value to the school is already recognized. Prompt attention is given to cases assigned and they are handled in an efficient manner. The work is showing excellent results with both boys and girls."

Mr. Ernest L. Collins, in his report to the Superintendent, says: "We welcome the return of the health service program. . . . This work is of increasing importance because one of the very evident results of the depression has been failure to preserve good health habits or even take any care for the physical well-being."

*Physically Handicapped Class*—On the recommendation of the Superintendent, the School Committee authorized the establishment of a class for physically handicapped children. In my long experience I do not know of any city that has initiated any piece of work more humane than has been initiated in the City of Quincy for these deserving pupils. The money that is spent in this work is in accordance with the highest ideals of school management, the highest type citizenship, and genuine Christianity. Before the establishment of the class at the Thomas B. Pollard school building, a careful survey was made and recommendations were made as to the best possible way to teach these children. The person selected to do this work was Mildred R. Frye. She recommended the bringing of these children to a center that they could receive instruction as a group. It was a wise recommendation. They are transported to and from the school by a competent woman.

It may be of interest to know the types of pupils that are in the class.

- 5 heart trouble
- 2 pseudo-hyperthropic paralysis
- 3 spina bifida
- 1 cerebral palsy
- 1 suffering from result of infantile paralysis
- 2 spine difficulty (one had spine injured in an automobile accident;  
one recovering from blood poisoning.)

There are at the present writing sixteen pupils in the class. In addition to these there are five that cannot be transported. The family physicians say that it would be unwise to transport these five children. Therefore, the teacher makes home visits to the homes of these five in the afternoon as often as it is humanly possible for her to do so. They receive approximately two hours of instruction a week.

We bring to the children the best in education. The teacher is outstanding—a faithful teacher and a fine mother. We bring them the

best of educational films, the best work books possible that each child may work to the maximum of his several abilities. There is no embarrassment in the group whatever. All are eager to learn. There is a perfect understanding of the reasons for any lack of accomplishment on the part of another. The pupils and the teacher set goals each week and each pupil goes at his task at his own rate of speed. Each one understands the goal and how to reach it. Self-reliance is developed by the very fact that the children cannot be supervised every minute. The children profit much by being with each other. They gain a spirit of unselfishness and cooperation that it would be impossible to attain in the home.

*Visual Aids*—Perhaps no department in the school system during the past two or three years has received greater recognition and attracted wider attention throughout the state and the country at large than the Visual Aids department. Many of the school systems in New England have sent representatives here during the past year to observe our method of procedure. Boston University, School of Education, has recently issued the following circular letter:

"To Teachers:

Are you prepared to use the available Teaching Aids to increase the efficiency of your teaching?

Are you interested in the opportunities for organizing and administering the services of a Department of Teaching Aids in a school building or school system?

A satisfactory service to teachers requires the organization in the school system of a Department of Teaching Aids under the supervision of a Director. In addition, each building should have one teacher responsible for extending the use of Teaching Aids.

Approximately eight years ago, Mr. James N. Muir, Superintendent of the Quincy Public Schools, established "A Department of Teaching Aids" to serve the teachers with the available modern teaching aid materials.

Mr. Abraham Krasker was appointed director of the department and in cooperation with Mr. Muir worked out the "Quincy System of Teaching Aids".

Other school systems in Massachusetts where centralized Departments of Teaching Aids have been established are: Boston, Belmont, Holyoke, Lynn, Beverly, Greenfield and Newton.

To meet the needs for trained leaders, Boston University School of Education is offering the course, *Visual Education Management*, in the second semester.

The following problems, which are the practical experiences from the "Quincy System of Teaching Aids" will be discussed in the course.

1. Why a centralized department is essential for the desired service.
2. A survey of a school building or school system will be made to determine what is already available, and how to organize the material for efficient use.
3. The organization and administration of a department.
4. Materials and equipment necessary.
5. How to select the suitable equipment and worthwhile Teaching Aids.
6. Sound vs. Silent Films. Is it timely to invest in sound films and equipment?
7. Servicing of equipment and materials. Laboratory practice is offered in maintenance and repair of equipment. The different makes of projectors will be used and compared.

8. A long-term program of service will be planned.
9. Trips to organized departments of Teaching Aids and to related industries.
10. Methods for the proper use of Teaching Aids.
11. Research in this field will be reviewed.
12. Forms necessary to carry on the work of the department.
13. Records needed by the director and how handled.
14. The kind of a system needed in your particular school system for distributing Teaching Aids.
15. Training teachers to operate the necessary apparatus and to use the Teaching Aids properly.
16. Plans and blue-prints of available equipment and materials which can be made within your school system at little cost.
17. The preparation and use of objective tests.
18. The problem of hiring and owning films and slides.
19. What can the schools do to encourage pupils to attend the better motion pictures?
20. The latest recommended films will be exhibited.

We are at all times pleased to be of service and welcome inquiries relating to the extended use of Teaching Aids.

Very truly yours,

JESSE B. DAVIS, Dean"

*Music*—Very few, if any, deny Quincy the right of a high place in public school music.

In the elementary schools each pupil is expected to have a very definite repertoire of songs at the end of the sixth grade. Each teacher is provided with an outline of the work covered in the elementary grades with instructions how to follow it. Each grade has a systematic course in music reading and interpretation and if a pupil cannot get this work in the group he is given individual attention. The pupils of the elementary schools have an organized course to help them develop a love of good music and a power of discrimination through listening and learning what to listen for in music, as to form, mode, rhythm and quality—instrumental and vocal. Every building is provided with a victrola and records.

In the junior high schools, vocal music is built upon the foundation laid in the elementary schools. Chorus singing is emphasized, and every pupil in the junior high school belongs to a choral group, varying in size from forty to two-hundred. Material is selected which is adapted to the age of the pupil and to the needs of the voices in this adolescent period. The work consists of unison and part song singing, study in notation, interpretation and sight singing. Glee clubs are selective, giving pupils vocally inclined an opportunity to have special attention and development. Here, too, as in the elementary schools music appreciation is carried on. Outlines and records are provided for every teacher.

The senior high school course of music work is elective and on diploma credit basis. Courses are offered in chorus, harmony, music appreciation, applied music, glee club, orchestra and band. A course in the fundamentals of music is compulsory for those preparing for the state teachers colleges.

All children from the fourth to the twelfth year have an opportunity to take instrumental music. Classes are carried on after school hours and on Saturday mornings. It is an unusually healthy sign to see so

many boys and girls interested in after school activities as there are in our instrumental music classes, given after school hours and on Saturday mornings. There is no element in the pupil's life that will stand him in better stead to occupy his leisure hours profitably.

#### *Libraries—*

"There are two urgent needs of the school to which I would call the attention of the committee. The first is the necessity of a school library, in order that such instruction in history and literature may be afforded as is demanded by the best thought of the present time. . . .

". . . . We are entirely safe in affirming that a good library is a necessity in every well-equipped high school. By the use of the term "library", a collection of books is meant. An apartment should be set aside large enough to contain ample shelf room, and table for books of reference and for writing. The library itself will be a growth; the needs of the school dictating the order of the acquisitions. . . . . However good a public library exists, the well-being of the school demands its own library. It is very important that the books should be entirely under the control of teachers, and always available for immediate and prolonged use. Nor need there be any fear that the usefulness of the Thomas Crane Library will be in the least impaired by the establishment of this high school library. On the other hand, the pupils will be educated to a wiser and more active employment of the advantages afforded by that institution."

The above is an excerpt taken from the report of Mr. George I. Aldrich, Superintendent of Schools of the Town of Quincy, Massachusetts, for the school year 1884-85 and is embodied in the Report of the School Committee of the Town of Quincy for that year.

Our libraries in the junior and senior high schools are outstanding among public school libraries. They, too, are receiving a wide recognition. The number of volumes in the combined libraries on January 1, 1936 was 18,621—5,229 in the Quincy High School library, 3,808 in the North Quincy High School library, 3,453 in the Central Junior High School library, 3,065 in the South Junior High School library, and 3,066 in the Quincy Point Junior High School library. Familiarity with the library creates a feeling of independence and self-confidence in the study of any given subject and children grasp the opportunity eagerly. The school library is a workshop in which the girls and the boys obtain helpful information for their school subjects.

These libraries have been built up from a fund known as the Adams Temple and School Fund, established by John Adams in June, 1822. Approximately seven thousand boys and girls now attending the junior and senior high schools of Quincy are enjoying the benefit of this far-sighted citizen who thoroughly believed in the diffusion of knowledge through libraries. Public spirited citizens such as he have set high standards for Quincy.

*Guidance and Research*—One of the more recent departments to be tried out was the department of Guidance and Research. Tests have been conducted more or less for the past nine years. The Guidance and Research department has not only crystallized the testing and the research work but has furthered it to a very conclusive end. I have always considered guidance the heart and the core of the school system; without it and its follow up work we cannot have a healthy and progressive growth in the public schools. Research, meaning fact-finding, must be carried on continually, if we are to work intelligently and make progress. The place of music, visual aids and

libraries are fixed in the Quincy schools as very definite, reliable and wholesome departments for the education of the children. No one doubts my high estimate of these departments, but as far up the scale of the education gamut as I place these departments, there are none of them comparable in importance in the scheme of public education as is the department of guidance and research reliably managed by trained and skilled workers.

Mr. Ernest L. Collins, in his report to the superintendent, spoke very encouragingly in regard to extending the counseling program and making the home room fill a greater service. This is in keeping with the counselors' splendid report mentioned under educational meetings. Mr. Collins then said, "I would like to pay special tribute to the work of the visiting teachers. They are friendly, thorough and wise in their investigations and have many times earned the gratitude of parents because of the contacts they have established between the home and the school".

Mr. James S. Collins, in his report to the superintendent, speaking of the counseling and guidance in his school, says, "I wish to assure you that this department with the added assistance of the home visitors has been of tremendous value. Thus a greater degree of harmony prevails and adjustments are made in keeping with ultimate success and achievement of pupils in their work."

With the department as it has been conducted, our school can move forward and progress; without it, we can sink to the level of the usual *laissez faire* type of school system. Pages fifteen, sixteen and seventeen of the superintendent's annual report for 1934 give a more complete discussion of the department and what it has meant to our school system.

*American Education Week*—American Education Week was conducted along similar lines to those of the previous year. We had approximately ten thousand visitors in the Quincy public schools during the week of November 11-17. Some schools held open house, others exhibits and demonstrations of regular classroom work, parents' nights with classrooms open for inspection of the children's work and conferences with the teachers. There seems to be an increasing interest on the part of the parents in the work that is being done within the school system.

*Two Hundredth Anniversary of the Birthday of John Adams*—Immediately preceding Education Week the Quincy schools celebrated the two hundredth anniversary of the birthday of John Adams. Every school in the system had interesting and unusual programs. The Rev. Victor Sawyer addressed the pupils of the two senior high schools on "The Romance of the Constitution". The address was effectively given and left a lasting impression with the pupils on the great value of the Constitution in our Democratic form of government.

*Educational Meetings*—We have had several general meetings, meetings of the junior and senior high school principals, meetings of the elementary school principals, and meetings of the junior and senior high school principals and counselors. In addition to these, many educational conferences and grade meetings were held during the year. It is not necessary to give in detail the work that we have covered in the various meetings.

To further reading, the Superintendent conducted six grade meetings and a general meeting for all the teachers on the question of reading, during the month of September. For all alike, there are two phases of the reading experience: (1) learning to read, (2) reading to learn. It is true that the intelligent reader is always learning to read. It is evident that at the beginning there must be a teaching process by which each

one is initiated into the mysteries of the word symbol. It is an unfortunate situation when "system" is carried too far. Then, too, "systems" of teaching reading are often overburdened with apparatus, mechanical devices, "helps", etc. The machinery of teaching is generally valuable in proportion as it is simple in character and inexpensive. The teacher's thought must be on the process as well as on the results at which we aim. It means that teachers in order to teach reading well must devote themselves to more accurate, enthusiastic study of the whole question of reading.

The reading list of elementary textbooks on which the committee had worked for over a year and a half was submitted to the School Committee and approved on July 16, 1935. This list was brought before the teachers and principals at the various grade meetings. The compilation of this list was no easy task. Miss Russell and Miss Keefe of the committee devoted themselves to the task with one thought in mind—that Quincy elementary schools should have the best. It was a work well done.

One of the outstanding meetings of the year was held on September 19. At this meeting the report of the committee on the Relationship of the Homeroom to the Guidance Program was read by Mr. Landy. It was a worthwhile report, most of which can be carried on under proper guidance and direction. Another question at this meeting, emphasized by Mr. Muir, which challenges the teaching staff was—How to keep the pupils of high intelligence working up to the maximum of their several abilities.

*School Committee Meetings*—The School Committee held twenty-seven meetings during the year. We have no definite record of the amount or proportion of time taken up by the School Committee to discuss the various requests for the free use of the school buildings; however, the discussion of the free use and rental of school buildings came up at eighteen of the twenty-seven meetings. The time given to this question seems all out of proportion to the amount of time given to other questions of greater value to the school system. This can be prevented by the School Committee by adopting and definitely adhering to a set of regulations and placing the renting of the halls in the hands of someone in the Superintendent's office.

*The New West Wing at North Quincy High School*—The much discussed and long looked for West Wing to the North Quincy High School is nearing completion. When it shall have been completed it will give us a modern six year high school building and will accommodate 2,500 pupils. It will be ready for occupancy in September, 1936. When transfers are made and the school organized in September, we shall have 2,250 pupils at the North Quincy High School.

There are several outstanding features of the new wing which will make for efficiency. Some of these features are:

Several large study rooms.

Large rooms for the Commercial Department.

Large and medium sized shops for the boys.

Renovation of boys' lockers and showers. New locker rooms for boys.

Enlarged administration quarters.

The large music room with the adjacent classrooms on the third floor properly equipped will take all the music classes out of the auditorium and give the pupils as well as the teachers an opportunity to do effective and efficient work.

With the opening of school in September, the North Quincy High School should be a pleasant place in which to work.

*The retirement of Col. Warren E. Sweetser*—Col. Warren E. Sweetser served on the School Committee of the City of Quincy for sixteen years. During all these years he worked incessantly for what he believed to be for the best interests of all the children of all the people. Colonel Sweetser was faithful to the trust committed to him by the citizens of Quincy and gave of himself freely to whatever special duties were assigned to him. On December 21, 1935, a testimonial dinner was given in his honor by the members of the Committee and the Superintendent. Many fine tributes were paid to him by his colleagues. This one should be recorded: Dr. Nathaniel S. Hunting, for thirty-six years a member of the Committee, reviewed in brief the services of the former members with whom he had been associated, and said that Colonel Sweetser's services were outstanding and measured up to the best we have had on the School Committee. This indeed is high praise. When a citizen's public service is so measured it is the highest type of service a citizen can render his community.

*The Health Program*—The health program needs reorganization, and by the health program I mean health projects, health teaching, physical activities, health development and social efficiency. I would set it up in this fashion: Select a person to take charge of the health department, preferably a non-medical person, a trained and experienced college graduate, and, if possible, one who had subsequently taken graduate work in different fields, such as physical education, or one who had been working in a well organized school system in which the health program has a meaning. I would call such a person a Director of Health Education. The school physician, the school nurses, the health service workers in the high schools, the supervisor of physical education and the physical education instructors could all be coordinated in a well balanced health program. During the year I appointed a committee to work out an outline on health in our health program studies. This committee was headed by Miss Margaret Sweeney, Principal of the Gridley Bryant School. The committee's work is nearing completion. A Health Director could coordinate all the different agencies which would come under a well organized health program. Such a department would be collateral with the music department, the art department, the guidance and research department. **THE HEALTH PROGRAM IS VERY DEFINITELY AN EDUCATIONAL PROGRAM AND NOT A MEDICAL PROGRAM.** The medical side is one of the chief elements in such a program.

*Immature Children*—In recent years a very large group of immature children have been entering the Quincy public school system. They are being admitted too young. If you wish to curtail the expense for the school year 1936-37 and at the same time strengthen the work of the primary grades, it were well that we should set up a different entrance age. After investigating this question and questioning teachers who are in a position to know and in whom I have the utmost confidence, all are of the one opinion—that we are admitting children entirely too young to profit by the first year's work.

*Conclusion*—In concluding this report I am making the following recommendations for your consideration:

- (1) That we give careful thought and consideration to the question of admitting immature children to the public schools.
- (2) That there be a complete reorganization of the Health department.
- (3) That there be a reorganization of the class for physically handicapped pupils.
- (4) That a very definite set-up be made of the Guidance and Research department.

(5) That we give further study to the group of children who are hard of hearing.

---

To the members of the School Committee and to all employees who have faithfully done their part in making the past year a successful one, I extend my grateful appreciation.

The Assistant Superintendent has reported for the State-aided schools, evening schools and special classes.

Respectfully submitted,

JAMES N. MUIR,

*Superintendent of Schools.*

## REPORT OF THE ASSISTANT SUPERINTENDENT OF SCHOOLS

Mr. James N. Muir, Superintendent of Schools, Quincy, Mass.

My dear Mr. Muir:

I submit the following report on the Trade School, Continuation School, Evening Classes, Mentally Retarded Pupils and Special Classes.

### The Day Trade School

The outstanding development of the year was the rejuvenation of the Advisory Board. For years there had been an Advisory Board in name, but it had rarely functioned. In the spring of 1934 the School Committee reorganized the Board so that it consisted of three employers and four employees with two of the employees representing organized labor. All the members of the Board were actually closely connected with some trade taught in the Quincy Trade School. The Board meets monthly and has made many recommendations beneficial to the school. The importance of this change cannot be over-emphasized.

The demand for trade training is still increasing. The average membership of the school for the school year was 222.20 an increase of 6% and would have been larger had there been room to accommodate all who desired to come. Every department in the school was filled to capacity by October 1, 1935 and over sixty boys were on the waiting list.

The average membership was about 230 during most of the school year but dropped much below that figure in May and June because prospective graduates were obtaining jobs and were allowed to leave school whenever they entered the trade for which they had trained. The ten boys from the automotive department who received diplomas June 21 were all working at the trade before the close of the school. The table below shows the enrollment and growth for the past five years.

	1930-31		1931-32		1932-33		1933-34		1934-35	
	Enr.	Av. Mem.	Enr.	Av. Mem.	Enr.	Av. Mem.	Enr.	Av. Mem.	Enr.	Av. Mem.
Auto Mechanics .....	37	30.85	54	42.79	55	47.73	75	53.43	85	58.88
Electrical .....	37	32.64	37	31.12	34	31.30	41	32.92	47	35.42
Machine .....	38	24.95	16	12.96	22	16.49	22	15.56	21	18.40
Machine (Co-operative) .....	5	1	2	1	2	1	2	1	1	.10
Plumbing .....	29	23.76	31	24.28	38	25.79	43	34.69	52	34.14
Sheet Metal .....	18	16.67	21	15.38	19	14.32	23	16.78	25	18.42
Woodworking .....	56	40.99	53	36.57	60	48.03	68	54.62	68	56.84
Total Enrollment ..	220		214		230		274		299	
Total Average Membership .....		170.86		164.10		184.66		209.00		222.20

There is room to expand the machine department and the sheet metal department—within a few years this will probably be done. Information from many sources shows that there is a shortage now of good mechanics. As industry approaches normal conditions the shortage will be acute; trade trained young men will be in greater demand than ever which will greatly increase the number of boys applying for training at the Quincy Trade School. By next fall we may have enough applicants to justify placing another teacher in the machine department.

The Boston Gear Works has for many years recognized the value of the training given at the Trade School. At their request a co-operative machine department was organized in 1929 in which related machine work was taught to Boston Gear Works apprentices. Due to the depression the cooperative department was always small and was discontinued in December 1934. At that time the Boston Gear Works agreed to employ as apprentices only those young men who had demonstrated that they had mechanical ability as shown by their work at the Quincy Trade School or some similar school which offered trade training. In the spring of 1935, the Boston Gear Works hired several of our graduates as apprentices which resulted in an unusually large application list for machine training in the fall of 1935.

In spite of an increased membership the total cost of running the school was reduced by \$3,797.15 to \$42,638.14. Most of the saving was made by having the Assistant Superintendent of Schools act as Director of the Trade School, thus saving the salary of Mr. Barrows who retired on a pension in June, 1934. Further savings were made in the purchase of supplies and equipment. The savings in the latter way are only apparent, not real, because eventually repairs must be made, worn out equipment replaced and new equipment purchased to meet modern changes. The total cost was also reduced as follows:

Tuition for non-residents .....	\$13,460.74
Cash for products made in the school .....	822.54
Aid from the Federal Government .....	3,045.20
Aid from the State of Massachusetts .....	12,219.52
Miscellaneous receipts .....	67.89
<b>Total Receipts .....</b>	<b>\$29,615.89</b>
<b>Net Cost to the City of Quincy .....</b>	<b>13,022.25</b>

It actually cost the city, therefore, less than one third of the \$42,638.14 expended and reduced the net per capita cost to \$58.60. The Trade School students also save the School Department considerable money by the repairs which they do in the school buildings as part of their training. The cost of running the Trade School has been reduced about \$10,000 since 1929; of this \$4,300 has been saved through salary reductions or eliminations, over \$5,000 has been taken away from the amounts allowed for supplies, maintenance and new equipment. I feel that I must repeat the words I used last year, "The reduction in cost cannot continue without great loss to the Trade School student."

### The Continuation School

The girls attending the Continuation classes received the same training as in past years and conditions were so nearly identical with those of 1933-34 that last year's report is also the report for 1934-35. The total enrollment for the past ten years is shown below:

	1925 1926	1926 1927	1927 1928	1928 1929	1929 1930	1930 1931	1931 1932	1932 1933	1933 1934	1934 1935
Boys .....	67	84	95	82	72	45	29	13	....	....
Girls .....	26	56	62	65	54	47	42	32	24	25
Total .....	93	140	157	147	126	92	71	45	24	25
Hours of Service .....			11860	7996	7148	6132	4056	2208	1524	1560

If we were not living in such rapidly changing times we would be inclined to question the further maintenance of this school. The N.R.A. codes practically removed the 14-16 year boy from industry but now that the N.R.A. codes have been declared unconstitutional no one can foretell what 1935-36 will bring forth. Already a few working certificates have been issued to 14-16 year old boys but not in sufficient number to warrant opening a Continuation class for boys.

At the present writing there is also a bill before the Legislature to raise the age which boys and girls may leave school and go to work and raising compulsory Continuation School attendance from four hours per week to a full day of attendance.

Faced with a variety of changing conditions of employment it seems wise to continue the organization which we now have which costs the city relatively little as the figures below indicate.

Total cost of Continuation School .....	\$933.67
Aid from the Federal Government.....	\$ 77.10
Aid from the State of Massachusetts.....	427.72
Miscellaneous receipts .....	1.14
Total receipts .....	505.96
Net Cost to the City of Quincy .....	\$427.71

### Evening Classes

After an interval of two years, evening classes for adults were resumed in February, 1935.

In 1932, \$16,950 was appropriated by the School Committee and City Council for Evening School Classes and Americanization Work, but in 1935, only \$4,700 was appropriated for similar purposes.

Classes were opened in February on a reduced scale and continued for ten weeks, two evenings per week. To conserve heat, light, and janitor service, classes were opened only in the Quincy High School. No attempt was made to reopen gymnasium classes, trade classes for men, or practical arts classes for women because of the expense involved.

During the ten weeks the enrollment was as follows:

Mechanical Drawing .....	112
Elementary Typewriting .....	306
Intermediate Typewriting .....	87
Advanced Typewriting .....	106
Elementary Stenography .....	185
Advanced Stenography .....	138
Business English .....	342
Business Arithmetic .....	233
Grammar School English and Arithmetic .....	53
Americanization Classes .....	138

Owing to the large enrollment it was necessary to have a waiting list, particularly in the typewriting classes as there were not sufficient typewriters to accommodate all who desired to take the subject.

In all, 1101 different pupils enrolled, the average membership was 641.5 and the per cent of attendance for the ten weeks was 79.12—a very good figure for evening school attendance.

Comparing the average membership with the total enrollment it becomes clear that a large number of pupils dropped out within a short time. It was very evident that many young people between sixteen and twenty-one years of age were simply making evening school attendance an excuse to get out of the house in the evening. To offset the difficulty, postal cards were sent to the parents of all pupils under twenty-one years of age who had been absent two consecutive evenings and within a few weeks the attendance became much better stabilized.

Evening classes were reopened for a ten week period beginning October 7, 1935, covering the same subjects as were taught the previous spring.

The total fall enrollment was 878 and the average membership until the Christmas vacation was 613.8. The Americanization classes varied very little from the spring enrollment. The shrinkage between the fall and spring enrollment came in the regular business courses. Comparing the fall enrollment in the business classes with that of other years indicates that the fall enrollment is more comparable with that of other years which indicates that last spring's enrollment was made up of many who came out of curiosity. Next fall I believe we will be able to add some new courses and still keep within the budget.

The Americanization classes have enrolled only about one quarter of the number that used to be enrolled when the classes were held at the South and Quincy Point Junior High Schools. Great effort is being made to interest the adult alien in the evening classes and to increase attendance but it is difficult to get many of them, particularly women, to venture very far away from their homes.

It is most important that the adult alien be educated along proper lines and by those with right motives. If educated in schools under public control we know what is being taught. Apparently a large number of aliens are obtaining their education in American ways from sources outside the school. Next fall, if it is financially possible to hold the Americanization classes in centers nearer the homes of the pupils, it should be done.

### Mentally Retarded Pupils and Special Classes

During the school year one hundred and ninety-eight new pupils were referred to various clinics for examination and nineteen children previously tested in clinics were re-examined. Thirty-two pupils were found to be normal mentally, sixty-eight were reported as dull normal, eighty-five children were diagnosed as definitely mentally retarded and in twenty-one cases the study has not been completed. Most of the incomplected cases were from the Habit or Guidance Clinics where the parent was unable or refused to bring the child back to the Clinic. Eight children were recommended by the clinics for institutional care and in three cases the children have been enrolled in an institution.

There are some teachers and parents who still object to sending children to a clinic for study as they feel that it somehow places a stigma on the child. These people should note that the clinics found less than half of the children mentally retarded and nearly one third of them as normal. In other words the clinics really protect many children against wrong judgments of teachers and others.

Quincy is very fortunate in having the services of several excellent clinics that study the mentality of children. The Wrentham Travelling Clinic from the Wrentham State School for Feeble-minded gives Quincy four days per week from eight to twelve weeks in May, June and September of each year. This clinic examines most of the children suspected of being definitely retarded but not behavior problems.

The Habit Clinic from the State Department of Mental Hygiene which comes to Quincy every Thursday afternoon meets in Woodward Institute and devotes itself to children under eleven years of age who do not seem to be adjusting to living conditions as they should. This clinic has been obliged to have an additional psychiatrist in order to meet the many demands made upon it.

The Guidance Clinic from the Medfield State Hospital meets Thursday afternoons in the Coddington School and devotes itself to poorly adjusted children over eleven years of age. The same personnel handles all juvenile court cases referred to it by the juvenile court but handles such cases on Tuesday afternoons at the Court House.

All the above clinics give great aid to the school department in diagnosing cases and recommending treatment. In addition to the services of the clinics mentioned above, use is made of the Out-Patient Dept. of the Wrentham State School, Out-Patient Dept. of the Walter E. Fernald State School, Out-Patient Dept. of the Boston Psychopathic Hospital and the Nerve Clinic of the Mass. General Hospital.

Quincy is also unusually fortunate in the character of its Juvenile Court which is really a clinic rather than a court, seeking to solve cases of juvenile maladjustment.

With so many aids at its service the teachers and principals of Quincy have become more and more adept in identifying poorly adjusted children and selecting with wisdom those children who should be taught in special classes.

On December 20, 1935 there were two hundred and fifty-eight children in the public schools, known by individual examinations to be definitely mentally retarded. This number represents 1.7% of the total school membership, which is a large increase over the number definitely identified in previous years. Due to the depression, many of those pupils who in the past would have left school as soon as they became sixteen, are now remaining longer in school. Because their difficulties have been recognized early the work has been adapted to their ability so that many more retarded pupils remain in school longer without discouragement.

On December 20, 1935, one hundred and sixty-nine pupils mentally retarded were being taught in special classes as follows:

Adjustment classes in junior high schools .....	17
Opportunity class for older boys .....	33
Opportunity class for older girls .....	17
Ungraded opportunity classes (six in number) .....	102

Many children three or more years mentally retarded are able to remain in the grades and go on into the junior and sometimes the senior high school, provided they go along at a slower pace. This means that they will be one, two or more years older than the average age for the grade in which they find themselves. Many times these children develop excellent work habits, fine attitudes and high ideals which fit them for a successful, happy, adult life.

Respectfully submitted,

ALBERT H. COCHRANE,

*Assistant Superintendent of Schools.*

Total for Support and Outlay ..	\$79.20	\$96.19	\$93.73

## 4. General Statistics, December, 1935

Population of the City (U.S. Census of 1930)	72,000
Number of school buildings: Quincy High <sup>1</sup> , 1; North Quincy High <sup>2</sup> , 1; Junior High, 3; Elementary, 19; Home Making <sup>3</sup> , 1; total	25 <sup>1,2,3</sup>
Teachers in Quincy High School: men, 21; women, 47; total	68
Teachers in North Quincy High School: men, 22; women, 53; total	75
Teachers in Junior High Schools: men, 21; women, 73; total	94
Teachers in Elementary Schools: men, 1; women 214; total	215
Principals: Quincy High School, men, 1; (asst. principal), 1; North Quincy High School, men, 1; (asst. principal), 1; Junior High Schools, men, 3; Elementary Schools, men, 94; women, 2; total	184
Supervisors: grammar grade work, 1; music, 3; drawing, 2; physical training, 1; Americanization, 1; total	8
Special teachers: librarians, 5; instrumental music, 1 (part time); special class teachers, 9; teacher of physically handicapped children, 1; total	16
Continuation School teachers: men (director), 1; women, 2 (part time); total	3
Trade School teachers: men, director, 1; teachers, 13; total	14
Evening School teachers: men, 5 <sup>5</sup> ; women, 12; total	17 <sup>5</sup>
Americanization teachers: women, 46; total	46
Total number of different teachers	529
General Control:	
Superintendent, 1; Asst. Superintendent, 17; Director of Guidance and Research, 18; Secretary to Superintendent, 1; Bookkeeper, 1; Clerks, 2; total	77.8
Clerks: Quincy High School, 2; North Quincy High School, 2; Junior High Schools, 3; Trade School, 1; total	8
Coordinate and Auxiliary Agencies:	
Supervisor of Attendance, 1; Physician, 1; Nurses, 3; Home Visitors (part time), 29; total	79
Custodians and Janitorial Service:	
Chief Custodian, 1; Engineer, 1; Custodians, 22; Asst. Janitors, 7; Cleaners, 10; total	41
Total number of different persons employed by the School Department	589

<sup>1</sup>Continuation and Trade Schools located in Quincy High School Building.

<sup>2</sup>Six-Year High School.

<sup>3</sup>Offices of Supervisors now located in Home Making Building.

<sup>4</sup>One also included in Junior High Schools.

<sup>5</sup>One teaches also in Quincy High School.

<sup>6</sup>One teaches also in Junior High School.

<sup>7</sup>Asst. Superintendent is also Director of Trade School.

<sup>8</sup>Leave of absence for one year.

<sup>9</sup>One is Director of Continuation School; one is Supervisor of Americanization.

5. Brief Description of School Property, Also the Value of Schoolhouses and Lots, etc., January 1, 1936

## LISTS OF GRADUATES AND AWARDS

## 1. QUINCY HIGH SCHOOL

JUNE, 1935

529

Wayna Abate	Josephine Phyllis Cammisaro
Barbara E. Abbott	Margaret Graham Campbell
Phyllis C. Acebo	Jennie Cariglio
Philip A. Allicon	Betty Carlisle
Eric Gus Almstrom	Ivy E. Carlson
Barbara A. Anderson	Sylvester Carosi
Edna L. Anderson	Ruth Carroll
Grace M. Anderson	Alfred T. Carter, Jr.
Majdis I. Anderson	Joseph Casagrande
Carl Andre, Jr.	Louis Casagrande
B. Louise Andrews	Morris Cashook
William Thompson Avery	Rose Mary Cellini
Natalie Bernice Baker	Kathleen Cerro
John Murray Balcom	Mary Burnadette Chisholm
Frances H. Barry	John A. Christiansen
Ruth M. Barry	Josephine Marie Cipolla
John E. Battista	Ernest Frank Cislighi
Hazel Marie Beausang	Edward Cleary
Mary A. Bedulski	Charlotte C. Coates
Marian M. Bennette	Mary Coletti
Barbara M. Benzaquin	Anita Genevieve Collins
Dorothy E. Berg	Robert James Collins
Victor Berio	Marian Gertrude Colman
Dorothy T. Berry	Priscilla Eastman Comins
G. Burton Berry	Esta Grace Conlin
Lillian T. Bertoli	Ann Connolly
Ernestine Ellen Bertrand	Daniel Storer Connors
James Edwin Bishop	Elizabeth M. Conran
Robert William Bjornholm	John Gerard Converse
Frances Bertha Blair	Earl Clinton Cook, Jr.
Gideon M. Blaisdell	Evelyn C. Cooper
Emily R. Blowers	Clifton Joseph Corcoran
Evelyne Ann Bodine	Gertrude Louise Cormier
James William Bollen	Dorothy A. Corner
Roger Bonomi	Ann H. Coulimore
Gertrude Virginia Booth	Barbara Anne Craig
Irving A. Bornstein	Dorothy Louise Cronin
Gertrude Elizabeth Boyd	Rita Frances Crowley
Ruth Brick	Jean L. Crowther
Mary Claire Broderick	Annie Cumming
Christina A. Brown	James G. Cumming
George A. Brown	Vera I. Cumming
Thomas J. Buchan	Edna Mae Curtin
Mary Burke	Robert S. Dahl
Gerald A. Burns	Henry E. Dale, Jr.
John R. Burr	Theresa D'Alessandro
John Russell Cain	Charles H. Daley
Tillie Adeline Caldarone	Carolyn Marie Davey

James Davey  
 Alvah T. Davis  
 Herbert W. Davis  
 Howard Emerson Davis  
 Ronald Cady Davis  
 Stanley A. Dawe  
 William Albert DeCoste  
 Ruth Nora DeCristofaro  
 Marjorie M. DeGrassie  
 Irma DelGreco  
 Doris May Dell  
 Robert Edward DeLorme  
 Donald M. Densmore  
 Marie Christine DeTroya  
 Robert Edward Devlin  
 Ellen Barbara DeWolfe  
 Ann Hutchinson Dey  
 Angelina Agnes DiBlasio  
 Dante DiBona  
 Della DiBona  
 Genevieve Catherine DiBona  
 Aldo DiCesare  
 Victor DiGravio  
 V. James DiNardo  
 Thomas Joseph Dion  
 Vincent DiSciullo  
 Dorothy May Dizney  
 Arthur E. Donovan  
 Jack L. Donovan  
 Rita C. Doyle  
 Margaret Mary Driscoll  
 Rita M. Duffy  
 Edward R. Dunn  
 Dorothy M. Dyer  
 J. Freeman Dyson  
 Ethel Blanche Eldridge  
 Marion E. Ellis  
 James Eng  
 Louise Elizabeth Erickson  
 Helvi M. Eskelin  
 Samuel E. Evans  
 Elmer Kustaa Fagerlund  
 Irene E. Faircloth  
 Florence M. Falconer  
 Sandina T. Falconi  
 Rita I. Falvey  
 Walter F. Farquharson  
 Catherine Fay  
 Matthew E. Fay, Jr.  
 Robert Thomas Fee  
 Pearl Feldman  
 Isabelle S. Ferguson  
 D. Alfred Ferrante  
 Albert J. Finn  
 Leonard Vincent Finn  
 John W. Fisher  
 William H. FitzGerald  
 Coleman C. Flaherty  
 John F. Flaherty  
 Lillian Josephine Fleishman

Thomas M. Foley  
 Mary Gertrude Ford  
 Richard W. Forrest  
 Gladys Evelyn Forsythe  
 Mabel F. Fosdick  
 Edward Jefferson Fosse  
 Mary Fostello  
 Blanche C. Fox  
 Evelyn P. Fox  
 Ann G. Fragaer  
 Tullio T. Francario  
 Mario Franceschini  
 Robert L. Frank  
 Arthur H. Frazier  
 Mary E. Gacicia  
 Josephine Galante  
 Antonio Gallo  
 Louise J. Gallo  
 Wilma Kathleen Garland  
 Herbert J. Gaudreau  
 Joseph L. Gaudreau  
 Clara Mary Giarusso  
 Norman John Gilbert  
 Marie A. Gilbody  
 Mildred P. Giles  
 Evelyn May Gillis  
 Joseph J. Glynn  
 Harry A. Goodman  
 Dana H. Gould  
 Anna I. Grassick  
 Frances Dorothy Gray  
 Mary A. Grazioso  
 Frances Fay Greenburg  
 Margaret A. Greene  
 Antoinette Guarcello  
 Marjorie R. Hadlock  
 Carl E. Hager  
 Francis John Hagerty, Jr.  
 Carl E. Hallberg  
 Mary E. Halloran  
 Francis Hallquist  
 William R. Hanlon  
 Ero W. Hanninen  
 John B. Hardie  
 Agnes Harris  
 Helen C. Hartrey  
 Louise Parker Hatch  
 Anne Emery Hayden  
 M. Genevieve Hayes  
 Catherine A. Healy  
 Marjorie B. Healey  
 Catherine Theresa Heaney  
 Signe Evelyn Hedein  
 Herbert E. Hedlund  
 Mary Irene Hefler  
 William F. Hibbett  
 Curtis L. Higgins  
 Aimo W. Hill  
 Vieno Eleanore Hill  
 Helen Jane Hillier

Stanley C. Hills	E. Eva League
Roger F. Hoffman	Barbara Leavitt
Rose M. Hoffstein	Harry Decker Lee
Vincent G. Holland	Virginia Ruth Lemieux
Paula Emma Horsman	Katherine Leppala
Dorothy H. Huber	Dorothy Adelle Lewis
Mary Elizabeth Hunt	Elleanor P. Lints
Parks T. Hunt	Doris Annette Lipshultz
Donald C. Hunter	Elizabeth Lochrie
Sigrid Esther Huovinen	William F. Lomanno
Paul Hurley	George F. Loney
Alice Lucy Hussey	Blanche Edna Longmire
Robert B. Hutchison	Florence Lorito
R. Louise Isbister	Eunice Loud
Edwin B. Jackson	George Russell Lowe
Helen E. Jackson	Martha M. Lundgren
Grace Louisa Jacobs	Alan Stewart Lundie
Charles Winfield Jago	Margaret Louise Lurvey
Paul N. Jago	Jessie Annette McAllister
Madeline C. Jancaterino	Isabel Mary McAuley
Carolyn Jenks	Ruth Carolyn MacAvinney
Linnea M. A. Johanson	James Earl McCollom, Jr.
Charles A. Johnson	Katherine M. MacDonald
Edith Kathleen Johnson	Kenneth Alton MacDonald
Eliot Coolidge Johnson, Jr.	John James McDonough
Milward P. Johnson	John Joseph McEvoy
Norman Edwin Johnson	Edward L. McGee, Jr.
U. Leonard Johnson	Justin V. McGuirk
Jennie Rose Juskie	Kathleen H. McKenney
Fredric G. Just	Henrietta Mary McKeon
Haseeb George Kalil	John Desmond MacKenzie
Roger H. Kaplinger	Douglas McLarnon
Harold Kapsis	Eileen Sarah McLarnon
Aili Margaret Karhu	Mary Patricia McLarnon
Violet Lilly Karimaki	Paul A. McLaughlin
Norma E. Karlstrom	Hugh J. McLean
Ruth Katz	Eleanor Kathryn MacLeod
Alfred Kaufman	Hazel MacLeod
Impi Emilie Kauranen	Norma Louise MacLeod
Marguerite A. Kearney	Pearl MacLeod
Dorothea Marie Keefe	Harold V. McNabb
John Keefe	James M. McNamara
Robert Frederick Keeler	Katharine Terese McNamara
Rita Keenan	Donald H. MacPherson
Esther Irene Kelley	Thomas M. Macteer
Helen E. Kelley	Christine C. Mackie
John Francis Kelly, Jr.	Nancy Renshaw Maguire
Margaret Kelley	Thomas R. Mahon
Joseph Keniley	Joseph Patrick Malone
Barbara Veronica King	Nicholas Malvesti
Violet Victoria Knight	Dorothy M. Manley
Lillian Kohonen	Flora Marchioni
Helen Christina Kolson	Anne Frances Martell
Jacob Kovner	Walter E. Martinson
Ero J. Kujanpaa	David William Matheson
Charles Kusser	Frederick Norman Matheson
Charles W. Labadie	Ellen Patricia Matheson
Edward Lantz	Margaret Elizabeth Matson
Miriam E. Larson	Miriam Mattson
Reginald Thomas Law	Hazel Mary Melong

Mildred Melrose	Tyney Peterson
Craig Dale Miller	Virginia M. Peterson
Leighton Miller	Stanley Oliver Pettengill
Muriel Frances Miller	Dagmar Lucia Susanna Peurala
Louise E. Milliken	Helen G. Phillips
James Paul Mitchell	E. Grace Phinney
Maurice G. Mizrahi	Frances Mary Pinkham
Cameron Montgomery	Helmi Elizabeth Pitkanen
Joseph B. Monti	Agnes R. Pitts
Rose E. Montuori	Caravita E. Pompeo
Michael Morelli	Virginia M. Pompeo
Mabel Morey	Mildred Elizabeth Porter
Barbara J. Morgan	Walter T. Porter
Muriel M. Morgan	Gwendolyn Ruth Pratt
Omer R. Morin	Lyndon Ephraim Pratt
Ruth M. Morrissey	Lillian Pucciarelli
Carolyn Elizabeth Mortenson	Ugo Pucciarelli
Elden Joel Morton	Marguerite E. Pyne
Edith I. Moscardelli	Edith Pyyny
George Moscardelli	Edmund P. Quintiliani
John C. Mullen	Harry William Rac
Mae Marie Murdoch	Emily B. Rand
Eileen T. Murphy	Marguerite L. Reinhalter
Gertrude L. Murphy	Alda Marie Restelli
Helen A. Murphy	Frances Ednah Reynolds
Mary Murphy	Wilfred Thomas Riihimaki
Thomas A. Nader	Herbert Riley
Lindsay H. Neal	Helen Rizzi
John Patrick Nealon	Irene Mary Roberge
Susan V. Neely	Arthur Walter Rochelle
Oswaldo Nereo	Grace A. Rogers
Edna Louise Newcombe	Elvi I. Ronni
Forrest W. Nickless	Helen S. Ronni
Toinette Pearl Niemela	Doris Rosenhek
Margaret Anne Niland	Arthur Rowe
Eleanor Balfour Nogueira	Edna May Ruscitto
Richard J. Nourse	Josephine E. Sacchetti
G. Christine O'Brien	Charles N. Sadlier
Mary Lillian O'Jennos	Albert W. Sampson
Carmello J. Oliverio	David W. Sargent, Jr.
John Edward Ollila	Ellora Frances Sargent
Joseph Ostroski	Norman Satterthwaite
Violet Page	Russell Kenneth Savard
Josephine Joanne Palmisano	Roger Saville
Carmela Rita Papile	Natalie June Schofield
James W. Pappas	Louise Serafini
Robert Leighton Parker	Pauline Catherine Serroni
Henry Finlayson Paterson	Kenneth F. Service
Margaret Patten	Gioconda E. Sferruzza
Reva Pavan	Angela Sgobba
George W. Pearson	Alice Maureen Shea
John Pecce	Elizabeth Shea
Marguerite Deane Peebles	Richard T. Shea
Geraldine Letta Pennington	Anne M. Sheehan
Vincent F. Pepe	Rita A. Sheahan
Ross B. Perry	Clifton Walter Sheppard
Ottavio Peruzzi	Erie Rudolf Simpson
Lora Helen Peters	Paul Edward Simpson
Dorothy E. Peterson	Oscar Warner Skoglund
Mildred W. Peterson	Francis Willis Slaven

Anna L. Smith	Frances Marie Umana
Helene P. Smith	Edwin Uzzell
William B. Smith, Jr.	Joseph Velardo
Russell H. Smollet	Madelyn M. Vera
Catherine Frances Soraghan	James E. Vincent
Ida Elizabeth Spadorcia	Domenic Volpe
Anna Spargo	Greta G. Waitt
Helen Silsby Spencer	John J. Warner, Jr.
Lawrence W. Spillane	Marjorie G. Waters
Katherine Elizabeth Staffeld	Frances P. Watt
Alexander S. Steel	Margaret M. Weir
Stewart Steele	Edna M. Weise
Miriam Stein	Edna M. Wennberg
Frances Stern	Richard B. Weners
Freida Mae Stevenson	Elizabeth E. Wentworth
Marjorie C. Stewart	William D. West
Wenonah E. Stewart	Edwin R. Wheble
Florence Edna St. John	Charles Desmond White
Mary Elaine Sullivan	Louise White
Geraldine L. Sullivan	James J. Wilcox
Everett H. Sunnerberg	Elizabeth Wildes
M. Gertrude Swanson	Albert Edwin Wilks, Jr.
Delfino Silvio Tempesta	John M. Wilson
Frances Sinclair Thomson	Robert H. Winship
Dorothy Louise Thorne	Leonard Wirtanen
George Kevill Tinker	Hannah F. Wishart
Tyenne Regina Tirri	Elizabeth I. Wohlander
Marguerite Lillian Tite	Charles R. O. Wood
Barbara R. Tobey	Allen W. Wright
Anthony E. Tocci	Everett Louis Wright
Florence Tocci	Aili Wuorela
Mary Regis Treacy	Miriam Carolyn Wuori
Francis J. Tropea	Arden Ruth Yacobian
Howard D. Troup	Fred Roger Young
Gertrude C. Tuariniemi	Ann Zablosky
Catherine Duane Tuck	Angela Marie Zarelli
	Rubin Zeidman

Edith Margaret Zottoli

## 3.—TRADE SCHOOL

June, 1935

35

## Auto Mechanic Department

John Bucken	Stanely P. Urbanowitz
Frank Roy Lindholm	Gildo Venditelli
Frank H. Meda	John Henry Washburn
Francis Frank Mollica	Charles Arnold Whitney
Albert Augustus Scavo	Edwin Coleman Young

## Cabinet Making Department

Albert DeCross	Alfred Louis Saluti
Phillip Frank DelVecchio	Norman Sparza
William John Drinan, Jr.	Eric Joseph Trubiano
Peter Joseph Molinaro	Edward Joseph Twyman

## Electrical Department

Clarence Chase	Thomas Francis Magee
Americo DiMeo	Henry Francis Monroe, Jr.
George Peter Holster	Louis J. Monti
	John R. Smith

## Machine Department

Francis E. Stets	James P. Whelan
------------------	-----------------

## Pattern Making Department

J. F. O. Burman, Jr.	Vincent Patrick Farina
	Peter Perrotta

## Plumbing Department

Albert Hodgson	John Victor Maida
	Matthew Popowitz

## Sheet Metal Department

Eugene Louis Philie	Michael Striano
---------------------	-----------------

## 4.—GRADUATION AWARDS

June, 1935

In the Quincy High School the following awards were made:

Washington and Franklin Medal for Excellence in American History to David W. Sargent, Jr.
